Horse and Man.
"Hang Me With Him."
Ultra Simple Divorce.
Canada, Our Friend.

—By ARTHUR BRISBANE—
(Copyright, 1928.)

THE world's kind-hearted people were interested six years ago in the Reverend Dr. Uriah Meyers' horse, Clover, nearly fifty-three years old. Twenty-five dollars a month pension was raised to keep the old horse in comfort—plenty for the purpose.

NOW the Reverend Doctor, himself, ninety years old, and his wife are trying to live on $25 a month, $12.50 each, not enough. They are sometimes hungry.

Will philanthropy do as much for the Reverend Dr. Meyers, ninety years old, as it did for his horse, aged fifty-three, and give him enough to live?

A YOUNG woman, well educated, married to a scoundrel, followed him and his fortunes, and will soon be hanged with him in Canada. She was with him when he murdered a taxicab driver.

An effort is being made to save her from the gallows, and the girl amazes her friends, saying she does not want to be saved. "If he hangs, I want to hang with him." That should amaze nobody. It might be amazing if a man said it.

A woman is willing to be burned with her children, or hanged with her husband, when she likes him. It is part of the female disposition.

GERMANY proposes a law to make "a simple wish" sufficient ground for divorce.

It would not be necessary to prove guilt. Wife or husband can say, "a continuation of my married life has become impossible." That will end it.

The couple must live apart one year before getting the divorce. When no guilt is proved, there will be no alimony. The richer of the two will be expected to help the poorer.

That makes our "companionate" marriage quite conservative.

SECRETARY OF STATE KELLOGG has been in Canada, well received, and heard Canadian statesmen say there is no danger of our country trying to annex Canada. That annexation idea is old and foolish. The United States is glad to have a good pacemaker and finds it in the people of Canada.

ALSO Canada is our best customer, buying here more than the British mother country buys. For several months in 1927 Canada was the best customer we had in the world.

We helped the Canadian Northwest, as we did all countries, by supplying a short cut through the Panama Canal. Canada reciprocates by buying from us.

When the St. Lawrence Canal goes through both nations will be better off. Friendship, co-operation, constructive competition should be the program.

A BRITISH film, telling the story of Nurse Cavell, shot as a spy by the Germans, shows the nurse refusing to have her eyes bound, erect, eight men aiming at her. One soldier refuses to fire and is shot dead, in the picture.

A GERMAN official report, contradicting the film story, says the nurse was brought out with her eyes bound, and fell in a faint, "whereupon an officer, kneeling to aim, shot her." That makes it a little worse than the British film makes it. An unfortunate "official denial."

THE Senate will pass some kind of anti-third-term bill, making two terms the law, instead of a tradition. It should be two ELECTED terms. A man elected once should have a second term in mind. No matter how good he is, that makes him a better President.

Gratitude is a sense of favors to come.

SENATOR BORAH advocates only one term, a mistake.

It takes a President one term to

Girls Tell of "Fox" Notes

HELEN SEELYE

Helen Seelye and Ina Branson, two pretty telegraph company employes, were among the final witnesses called by the state in the murder trial of William Edward Hickman, "The Fox," killer of little Marian Parker, at Los Angeles. The girls told of receiving envelopes from Hickman addressed to the girl's father and of his actions on those occasions.

"Nothing To Say" —Fisher

HARRISBURG, Feb., 9.—Gov. John S. Fisher today refused to comment in any way upon the charge that he is "director and chief counsel for one of the mining companies which is a subsidiary of the New York Central Railroad."

This charge was made in Washington yesterday by Representative John J. Casey, Democrat, of Luzerne county, in the course of a speech in which he joined with Congressman F. H. La Guardia, New York, in as-

REED ASKS COAL RATE STUDY IN MINE PROBE

WASHINGTON, Feb. 9.—Reopening of the long drawn out controversy over freight rate schedules for coal will be asked tomorrow by Senator David A. Reed of Pennsylvania in connection with the proposed Senate inquiry into the suspension of mining operations in the Pennsylvania, Ohio and West Virginia bituminous coal fields.

Senator Reed has drafted an amendment to Senator Johnson's resolution calling for the investigation. His amendment would provide for a study of freight rates "to determine if there is any unfairness in the rate regulations tending to the over-development of some sections at the expense of other territories."

Senator Johnson last night declared that he would accept the Pennsylvanian's amendment to his resolution, which is expected to be given favorable action by the Senate Interstate Commerce Committee tomorrow.

Senator Reed has long contended that Pennsylvania has been discriminated against in the decisions of the Interstate Commerce Commission and has expressed dissatisfaction with the partial victory won by coal companies in the Pittsburgh district in the recent lake cargo controversy.

FACES SENATE QUIZ

International News Service Staff Correspondent.

WASHINGTON, Feb. 9.—John D. Rockefeller, Jr., was subpenaed today by the Senate Public Lands Committee to appear as a witness Saturday in the new Teapot Dome inquiry.

Rockefeller accepted service by telegram, it was announced this afternoon. He will appear Saturday.

Rockefeller is to be asked to relate all the information concerning the transactions of the Continental Trading Company of Canada given to him by Robert W. Stewart, chairman of the board of the Standard Oil Company of Indiana who refused to divulge whether he knew of anyone who received Liberty bonds from the Continental.

SUBPENA CLERKS

In addition to Rockefeller the committee also has issued subpenas for a number of clerks employed in the New York branch of the Dominion Bank of Canada in which were kept the accounts of the Con-

"Doctor" And Girl Held

A married man, posing as a doctor, and a 16-year-old girl, formerly a cashier in the McKeesport Y. M. C. A. cafeteria, whom he had employed to "care for his baby," police say, were arrested together this afternoon in a house at 208 Brownsville road, Mt. Oliver.

The girl, Lena Bellar, 16, of Sylvan avenue, McKeesport, had been missing from home since Monday. Ralph A. Hazlett, 34, of Allison Park, alias Dr. J. P. Henry, of Connellsville, arrested with the girl, took her away from her home, police say, on a promise to take her to his home in Connellsville.

The arrests were made by City Detectives William Reese and W. D. Marsh, and Policewoman Ida Forsaith. They say the girl had been promised $20 a week, in place of the $9 she earned in the cafeteria.

SLAIN IN HIS TAXI

Lured to the northern section of the county and murdered, John Nesslein, 25, driver for the Green Taxicab Company, was slugged and shot to death early today on the Bairdford road. His pockets had been rifled.

The viciousness of the attack, revealed by postmortem examination, leads detectives to the belief that a motive stronger than robbery prompted the killing. Three bullet wounds, made by a .32 caliber revolver were found, two in the head and one near the heart. Nesslein had been beaten on the face before he was shot, the autopsy disclosed.

His body lay face down in the mud along the road, the head evidently tramped into the soft earth.

Wrecked against a telephone pole, the cab was found near Hardy stop along the Butler Pike this afternoon. There was no trace of the occupants.

Nesslein, started on his last ride from Etna at 8:30 o'clock last night, a checkup by the cab company showed. He had finished a trip to Etna, and reported back to the company that he had "a pick-up" in Etna. He did not say where he was going.

Headlights from the automobile of N. C. Creeks, and Jim McIntyre, oil well pumpers, of Bakerstown, en route to work, flashed on the body at 5:20 o'clock this morning as they rounded a curve in the road at the fork of the Bairdford road into a country road.

MONEY STOLEN

Constable F. H. Dunbar, of West Deer township, who, with Dr. Alvin Richards was summoned, turned the body over and discovered the wounds. The pockets had been searched and all money taken. The victim's cap was crumpled beneath the body.

Marks on the road indicated that the cab had been turned and driven away by the slayers. The scene of the shooting has not been determined. There was blood on the road, but no marks to indicate that a struggle had occurred there.

Identity was revealed by a driver's license, but the address proved to be erroneous. Mrs. John Nesslein, his step-mother, lives at 2505 South Eighteenth street. Her stepson has not been living at home since he obtained the taxi job early in January.

Nesslein roomed with Joseph Duffy, a driver for another taxicab company, at 1316 Gibbon street. Both men were on "night shift" this week and Nesslein was expected to return to his room about

CITY-SPURNED MILK SOLD

Milk rejected by Pittsburgh inspectors is distributed in other parts of the county which lack inspection, it was declared today by Dr. John R. Conover, Allegheny county medical director for the State Department of Health.

In repudiating rumors that a typhoid fever epidemic was imminent in Pittsburgh, Dr. Conover restated his position as he laid it before the County Commissioners two days ago and yesterday:

That a third of the population of Allegheny county lacks and needs proper milk inspection.

That such a condition invites disease.

That typhoid fever, tuberculosis, diphtheria, scarlet fever, septic sore throat and dysenteries are spread by tainted milk.

That in the province of Ontario typhoid fever was epidemic, 4,000 cases being listed and traceable to milk, according to the United States Public Health Service.

That Pittsburgh and some of the boroughs and third-class cities have adequate milk inspection, certified milk and pasteur-

NEW PHILADELPHIA, O., Feb. 9.—Finding of two blood-stained garments similar to those worn by Miss Viola May, 22, slain, it is alleged, by her own brother-in-law, caused search to be instituted today for a newly-made grave, which, it is thought, may hold the dismembered body of the girl.

Efforts to identify the body of the twenty-ninth victim of the explosion at the Manchester plant of the Equitable Gas Company, November 13, failed today when workers of the gas company and the Riter-Conley Company viewed the body at the county morgue and could not recognize it. A right arm, discovered today in the wreckage of tank "B," near where the body was found yesterday, is believed by morgue officials to be a missing member of the body.

Workmen of both companies offered the same explanation—tha

BIG ICE GORGE SWEEPS DOWN ALLEGHENY

Under pressure of mounting waters, the Allegheny River gorge beginning at Schenley and extending 35 miles north, broke this morning and was moving toward Pittsburgh today at four miles an hour.

The grinding, churning mass of huge blocks filled the river from shore to shore, according to up-river reports. The ice was expected to reach here late today, Forecaster W. S. Brotzman said.

Warning to river craft moored at the mouth of the Allegheny was sent out by the weather bureau.

At Kittanning the river rose four feet last night, and early this morning stood at flood stage of 24 feet, flooding cellars and lowlying districts. When the gorge broke the water dropped four feet.

The pressure of the flood lifted the gorge from its five-week bed, and with a roar as it began breaking up, the ice pack began floating downstream.

Parkers Landing reported the ice moving out below that point where the gorge reached its farthest point north. Above Parker the river is clear.

Reports from other towns along the 35-mile stretch were that the movement of the ice was general and that the Allegheny would be clear by tomorrow afternoon.

The rivers here will reach a stage of between 19 and 20 feet, the weather bureau predicted.

JURY HEARS CLOSING PLEA FOR "FOX" AS HELPLESS HEIR TO TAINT OF MADNESS

SUNDAY SPORTS O. K.'D BY BISHOP MANNING

NEW YORK, Feb. 9.—"While Sunday is the Lord's Day and on that day worship should have the first place, our boys and girls should be free to enjoy their tennis or golf or other sports and I believe it is pleasing to God for them to do so," Bishop William T. Manning, of the New York Metropolitan diocese of the Episcopal Church, said in a statement issued yesterday. The statement was requested after he had made an address on Sunday sports at the annual meeting of the National Collegiate Athletic Association in New York a few weeks ago.

An appeal for better understanding between the church and the stage was made by Bishop Manning recently at the E. F. Albee dinner in the National Vaudeville Association Club. Other speakers at this dinner were numerous representatives of the church and stage and all spoke along the lines of Bishop Manning. None of the speakers touched upon the question of Sunday theatrical entertainment nor have they since expressed themselves for or against proper stage performances on Sunday.

The statement issued by Bishop Manning concerning sports on the Sabbath also contained the following:

"We need to get free from the notion that religion is opposed to the happiness and joy of life. One of the great symbolic descriptions in the Bible describes the Holy City to us as 'full of boys and girls playing in the streets thereof.' Religion stands for true and upright living and for obedience to the law of God, but religion must do this not only by opposing what is evil, but by encouraging all that brings happiness and gladness and wholesome pleasure into human life.

tation—forestalling danger of disease spread through milk in these communities.

That in many townships 305 uninspected dairies are supplying milk.

That this condition demands correction. He asked the County Commissioners for $5,000 as a nucleus of a fund to make inspection possible in the neglected districts which would contribute, pro rata, to the fund.

The Pittsburgh District Dairy Council issued a statement affirming Dr. Conover's statement as to the secure position of Pittsburgh, in answer to rumors that the city's milk supply was not properly guarded. H. I. Berlovick, of the council, denied the Ontario epidemic was proved due to milk and asserted there were only 15 cases there now. The statement, in part, follows:

"All milk which comes into Pittsburgh is not only under City Board of Health inspection, but the dealers and farmers producing that milk have for years maintained the sanitation department of the Pittsburgh District Dairy Council with a well-equipped bacteriological laboratory to act as a double check on the purity of Pittsburgh's milk supply.

"According to Dr. H. B. Johnson of the Dairy Products laboratory, 98 per cent of the milk used in the immediate vicinity of Pittsburgh is pasteurized, thereby safeguarding it against disease. Of 541 samples of milk tested by Dr. Johnson since last July, covering all of the important Pittsburgh dealers, the average bacteria count was 32,900, a remarkably low count for such a large milk supply. The upper limit allowed by many pure food ordinances, being 100,000."

CALM RECITAL OPENS DRAMA'S LAST ACT

LOS ANGELES, Feb. 9.—(AP.)—The closing act of William Edward Hickman's fight for life through a sanity trial was opened today in the courtroom of Judge J. J. Trabucco.

Richard Cantillon, defense attorney, in his final argument went into the details of testimony given by defense alienists and by William Thomas Hickman, farther of the youth who kidnaped and killed Marian Parker.

In a quiet voice, the young defense attorney pointed out bits of testimony that he claimed were evidence of insanity in the prisoner's family. He often told the jury "I think," from this or that testimony, that the evidence of the prisoner's insanity was preponderant.

Cantillon referred to the elder Hickman's testimony of fits which afflicted the defendant's grandfather, of an epileptic cousin, and of a mother who was in an Arkansas insane asylum for a period.

"I think," he told the jury, "these constitute a background of heredity which should have made even the state's alienists suspect the defendant suffered from dementia praecox."

The final hours of the trial drew even larger crowds than on some of its more sensational days. Extra seats were within the court rail and there was a double line of them in the aisles, but still there were not enough to seat all the curious. The doorway to the judge's chambers framed a dozen straining heads of spectators who stood on chairs to see over each other and view the scene.

"You can't tell me," Cantillon argued, "that when a brilliant scholar suddenly turns into a criminal whose ghastly career has not been equalled in the dark archives of criminal history, you can't tell me that it's anything but insanity."

The closing argument by Cantillon consumed an hour. The court then declared a brief recess.

Watson's Hat in Ring

WASHINGTON, Feb. 9.—(AP.)—Senator James E. Watson, of Indiana, has decided to become an active candidate for the Republican presidential nomination.

The decision was made known today in the announcement of the appointment of M. Bert Thurman, of Indianapolis, as Watson's campaign manager.

While Mr. Thurman is to begin active work immediately formal announcement of the Senator's candidacy will not be made until next week when he plans to issue a statement outlining his views on the chief issues of the day.

Watson is the third Republican Senator to throw his hat into the political ring. The others are Curtis, of Kansas, and Willis, of Ohio.

Delegate Slate Is Picked

Organization leaders have agreed upon a complete slate of delegates to the Republican national convention from Allegheny county, it developed this afternoon. The slate follows:

Thirty-second Congressional district—Dr. F. H. Frederick and former Lieut. Gov. Walter Lyon. Alternate, H. P. Brandt.

Thirty-third district—Arthur E. Humphrey, District Attorney Samuel H. Gardner. Alternates, John T. Small and Secretary of Internal Affairs James F. Woodward.

Thirty-fourth district—Senator M. G. Leslie, Joseph C. Trees. Alternates, Mrs. Anna M. Rote, John B. Barbour.

Thirty-fifth district—Commissioner Joseph G. Armstrong, Mayor Charles H. Kline. Alternate, Mrs. Mary A. Todd.

Thirty-sixth district — Miles Bryan, Edwin B. Crawford. Alternates, Burgess John J. Cavanaugh, Homestead, and County Solicitor W. Heber Dithrich.

There is a possibility that Commissioner Armstrong may decide against becoming a candidate for delegate, in which event the place on the slate will go to George H. Flinn. State Chairman W. L. Mellon said today the matter was entirely in the hands of Armstrong, who would select an alternate in the district. One alternate in the Thirty-second District has not yet been agreed upon.

Col. Eric Fisher Wood, who more than a month ago submitted his resignation as chairman of the Republican executive committee, will remain at his post until the state committee meets in May, Mellon said. The state committee is without a secretary and Col. Wood will aid in making arrangements for sending the Pennsylvania delegation to the national convention.

GAS TANK DEBRIS -:- YIELDS HUMAN WRECKAGE

WHERE ANOTHER BODY WAS FOUND WEDNESDAY

W. C. SHEPARD — R. W. YOUNG

The twenty-ninth victim in the Equitable Gas Company's fatal North Side tank blast was found yesterday hanging head down in wreckage of the 4,500,000 cubic-foot tank, next to the larger tank which blew up, November 14. Supt. W. C. Shephard, of the John Douglas Company, and R. W. H. Young, superintendent of the Equitable plant, conducted an inspection this morning to determine the possibility of more bodies being hidden in the wreckage.

WHERE ARM WAS FOUND THURSDAY

MORE BODIES BURIED HERE?

Part of what is believed to be the thirtieth body was found today in the wreckage which is being cleared away. A right forearm was picked up by workmen who are removing the debris which followed the fatal blast. More bodies may be found in the tangled mass of steel, it is believed, as there remain great piles of tangled wreckage which the cleanup corps have not yet penetrated.

(Continued from Page One.)

the body was that of a man who had gone into the plant looking for work a short time before the blast. All employes of their companies, who were at the tanks, have been accounted for, they said.

The body is lacking the left foot and part of the right arm. The arm uncovered today matches the missing portion on the body, it was said at the morgue.

NOT SCHARF

Yesterday it was believed that the body might be that of Peter Scharf, of Harbaugh street, Sewickley, who, as the twenty-eighth victim, was identified by his wife through a mark on the left foot, little else of the body being found. However, Mrs. Scharf, the man's husband; a sister and a brother, and fellow-workmen of the Riter-Conley Company said that it was not Scharf. They said that he was an unusually tall man, while the body is that of a man about 5 feet 8 inches tall.

In the clothing were found a booklet on automobile laws, a schedule of trains on the Pittsburgh division of the Pittsburgh, Fort Wayne and Chicago Railroad, and some papers advertising stores in Beaver Falls.

SAVE GIRL FROM SHEIK KIDNAPER IN AUTO

Struggling with a youth trying to drag her into an automobile in Tripoli street, North Side, early today, Stella Fritzley, 12, of 820 Lovett way, was saved by two pedestrians attracted by her screams. Her assailant leaped into his machine and sped away. The girl was taken home.

North Side police questioned the girl and learned that she was returning home from a visit to a girl friend. As she reached Tripoli street near Retail way, an automobile stopped near the curb and the young man sprang to the pavement. The girl attempted to run. The youth, however, grasped her and was forcing her into the car when the two pedestrians rushed to the rescue.

A description of the assailant was given to police and a search started. He is described as being about 25 years old, nicely dressed and attired in a dark overcoat and hat.

Watchman Bound, Robbed

Seized by two thugs while he was making his rounds last night, Eli White, night watchman at the W. N. He worked himself free after the thugs had fled.

White was near the entrance of the plant when he was seized, the thugs having lain in wait for him. The revolver was valued at $15 and the blackjack at $2. Police of the Penn avenue station were notified, but found no trace of the robbers.

AID ASKED BY BRITISH CONSUL

MANAGUA, Nicaragua, Feb. 9.—(AP.)—Advices received here indicated today that the rebel Gen. Augustino Sandino had established himself in the rich coffee growing district around Matagalpa, American Marines were being rushed into the region. Matagalpa is more than 50 miles south of El Chipote, mountain stronghold from which American Marines drove the Sandino forces a fortnight ago.

The coffee plantation of Charles Potter, British vice consul at Matagalpa, was seized by Sandino, Harold Patteson, British charge at Managua, was informed. He immediately conferred with the American minister, Charles C. Eberhardt, as to the steps being taken to protect British lives and property.

Additional Marines had been sent to Matagalpa since Sunday and more were sent yesterday, Mr. Eberhardt said. Matagalpa is about 90 miles from Managua, and Marines can make the trip in from eight to nine hours.

Sandino is believed to intend to seize the coffee now ready for the market and sell it. Thus he will be able to pay his troops and buy them provisions. He can get plenty of food and supplies by raiding the wealthy coffee plantations in the districts. Most of these are owned by Americans, Britons, Germans and other foreigners.

Nip Pupil's Robbery Career

A Peabody High School pupil, arrested in East Liberty as a potential highwayman, confessed in Morals Court today that he had intended to "hold up somebody, take the money, and go away."

Murray McGrew, 16, of 315 Elysian street, carried a loaded revolver on his hip and wore a mask fashioned from a woman's stocking about his neck, when he was arrested at Frankstown avenue and Station street last night. He had tried to trade his revolver for another, with a boy who reported the incident to police.

McGrew told Magistrate John W. Orie he had "a good home." The boy's father appeared in court and explained that he was dumfounded by his son's actions.

McGrew was held for further investigation. Holdup victims in the East End will face him for possible identification in recent highway robberies.

Pan Unanimous Only on Lindy, Rogers Opines

BEVERLY HILLS, Cal., Feb. 9.—Lindbergh has made Havana. I can just imagine the welcome he got, for I was there a month ago and watched them rehearse for his reception. The Pan-American conference is still in session there. They will no doubt pass a resolution welcoming him, and that will be the only unanimous resolution they will pass during the entire conference.

Will Rogers.

Yours for fairer treatment to our sister republics, then we won't have to hold conferences,

MINISTERS RAP CHARITY CHEST

"Unwise, undesirable, impracticable."

That brand is placed on the community chest plan by Pittsburgh's leading Protestant clergymen in the form of a statement, issued today, over the signatures of 42 clergymen, including the heads of the departments of social work of the Baptist, Lutheran, Methodist Episcopal and Presbyterian churches; the Protestant Episcopal bishop, the Methodist Episcopal bishop and the president of the United Presbyterian Theological Seminary.

The condemnation of the community chest idea which was being sponsored and nurtured by some of Pittsburgh's biggest financial and philanthropic leaders came apparently out of a clear sky, although developments yesterday indicated that all the while that proponents of the plan have been booming the idea many of the practical social workers and leaders have been preparing their case against it.

The Rev. S. C. Michelfelder, superintendent of the Lutheran Inner Mission Society, showed the first public opposition to the plan yesterday when he expressed opposition to it in a discussion with W. F. Maxwell at a meeting of the Rotary Club.

Of 140 social service agencies invited to apply for membership in the community chest only 28 had filed applications when the time limit expired February 1. The Y. M. C. A., the Y. W. C. A., Kingsley House, the Pittsburgh Association for the Improvement of the Poor, the Salvation Army, the Volunteers of America, the Lutheran Inner Mission, the hospitals and the Western Pennsylvania Human Society were among the agencies which held aloof.

Desirous of knowing what lay behind all this, the Rotary Club invited Dr. Michelfelder to present in a 15minute talk the reasons why the community chest is opposed by philanthropic organizations, and at the same time requested W. F. Maxwell, who has been employed by the Pittsburgh Committee of Fifty to promote the project, to submit in an address of equal brevity the arguments in its favor.

Dr. Michelfelder said the community chest was undesirable because it broke down the personal interest of subscribers to charities. Furthermore, he said, it created a dangerous machine. The social agencies would have to "sell them-

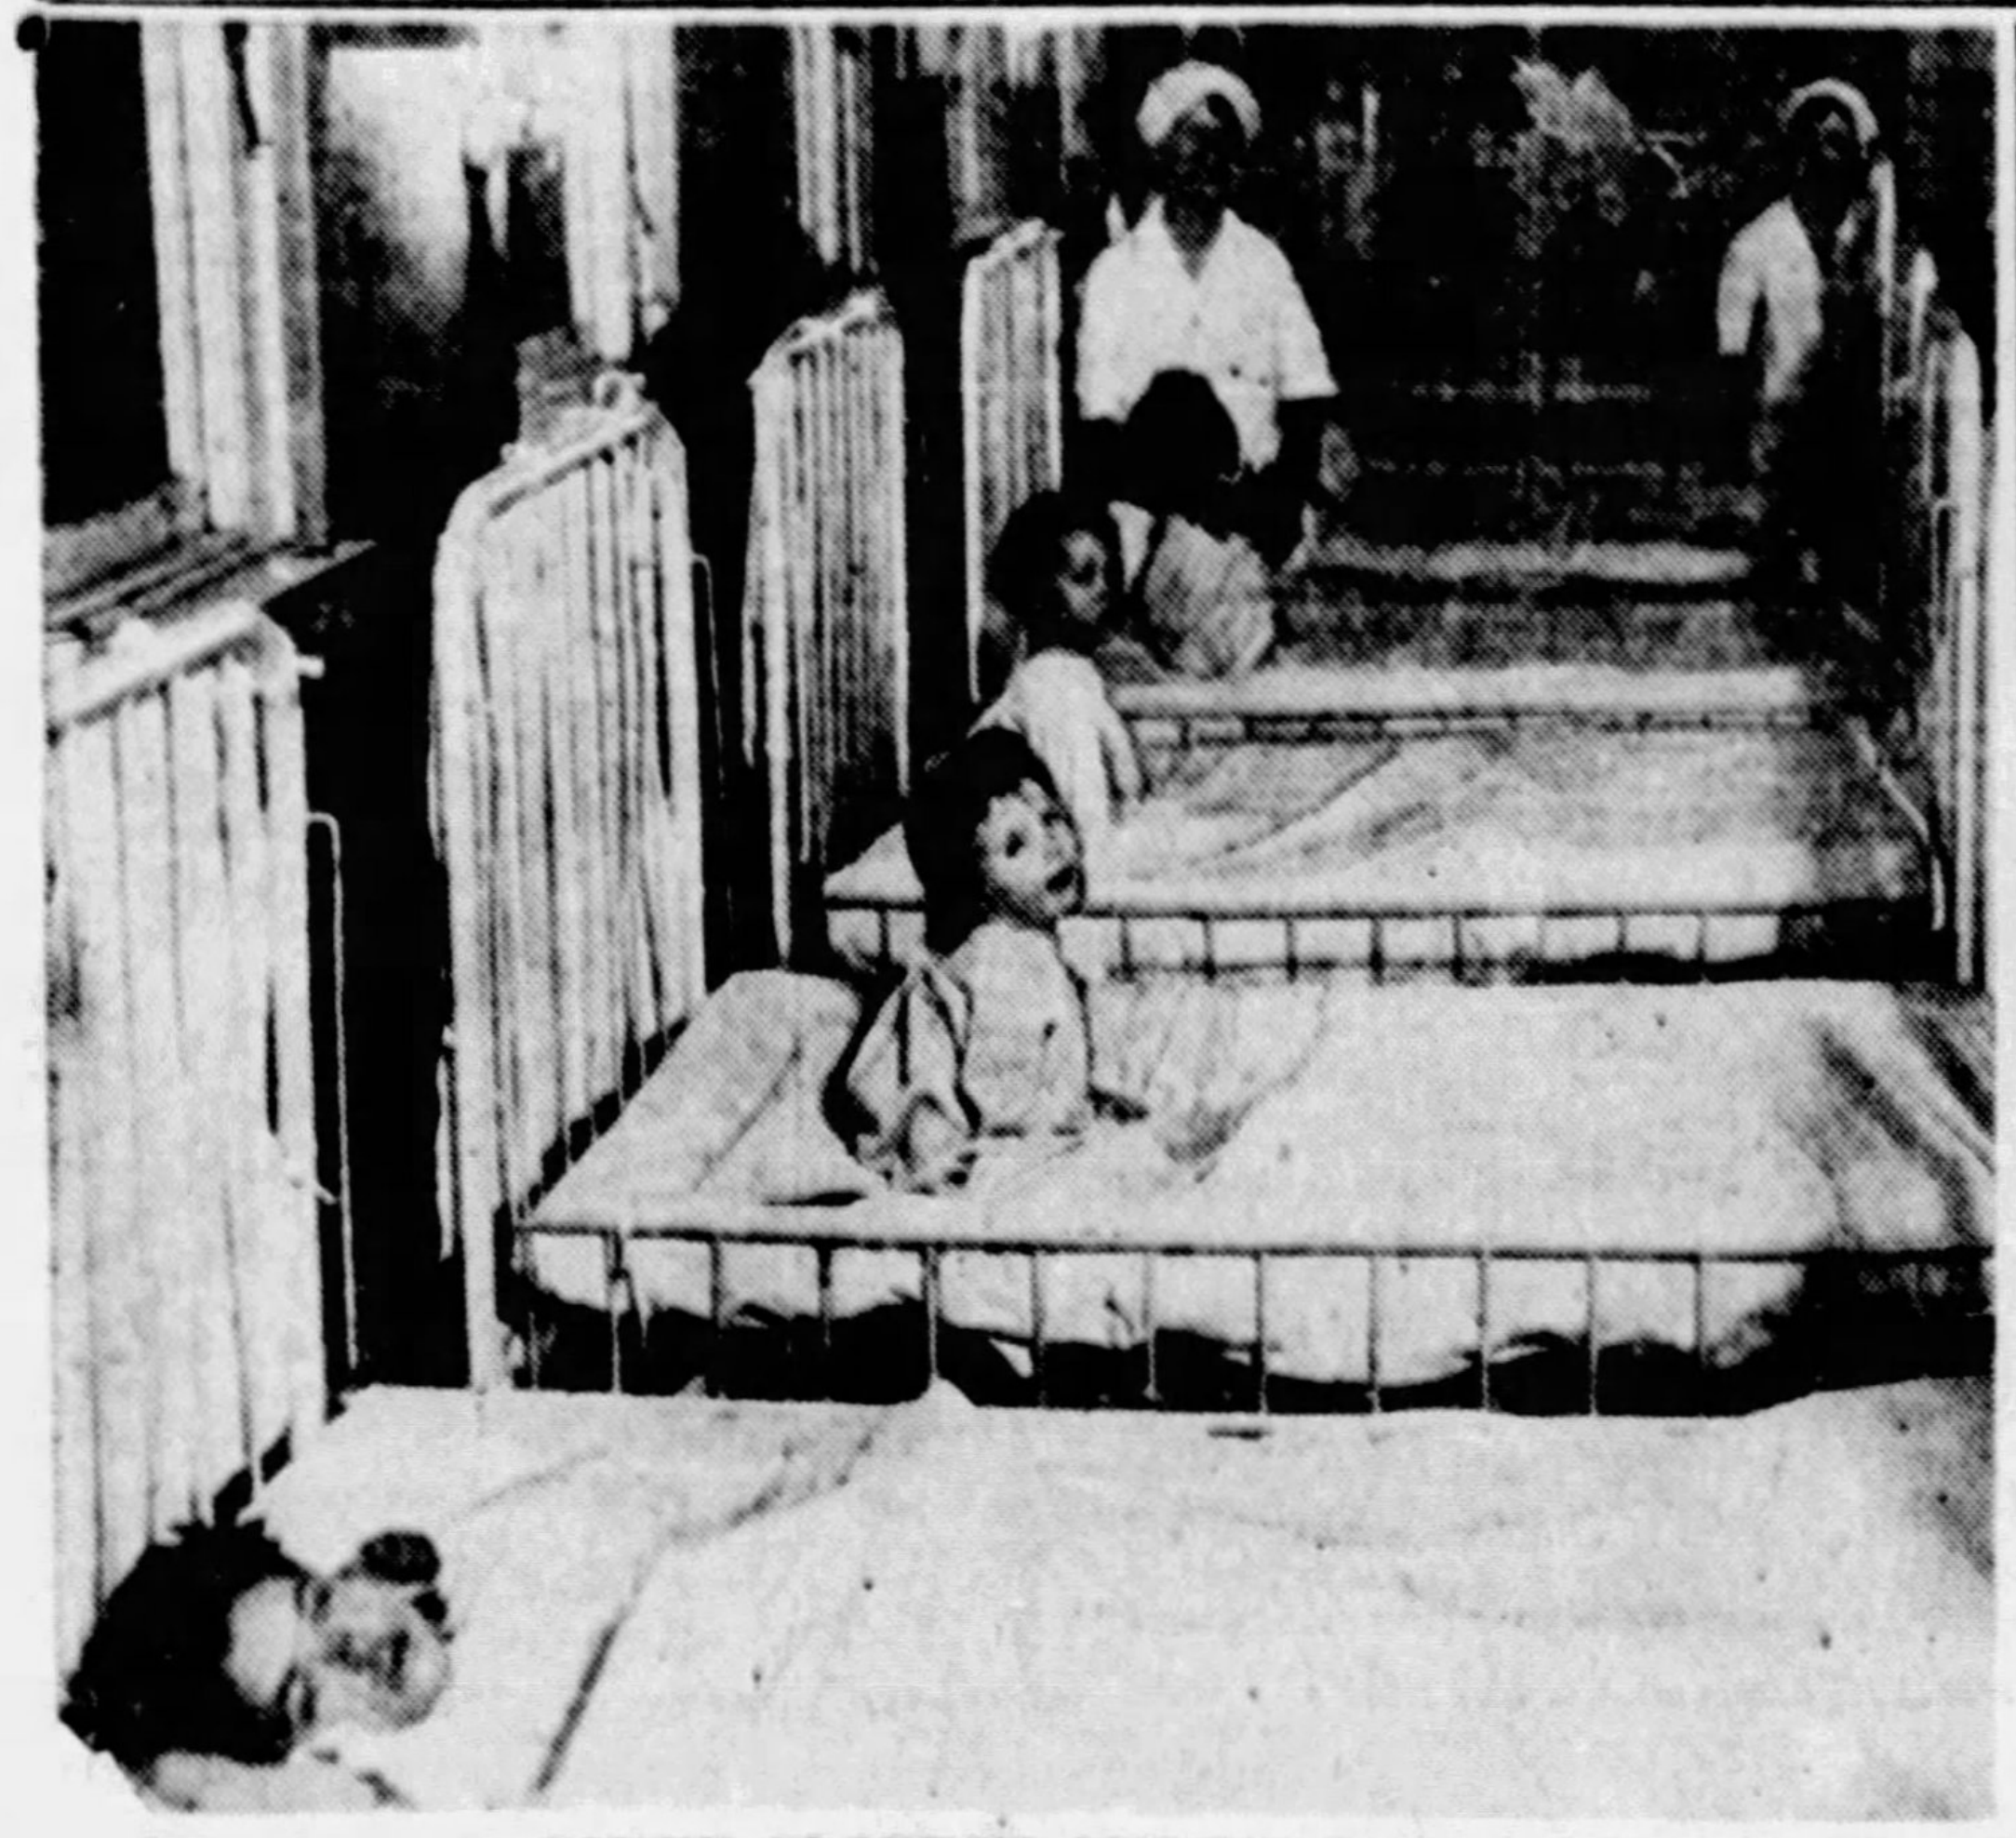
CONTAGIOUS HOSPITAL -:- PATIENTS ARE GIVEN -:- BEST OF CARE

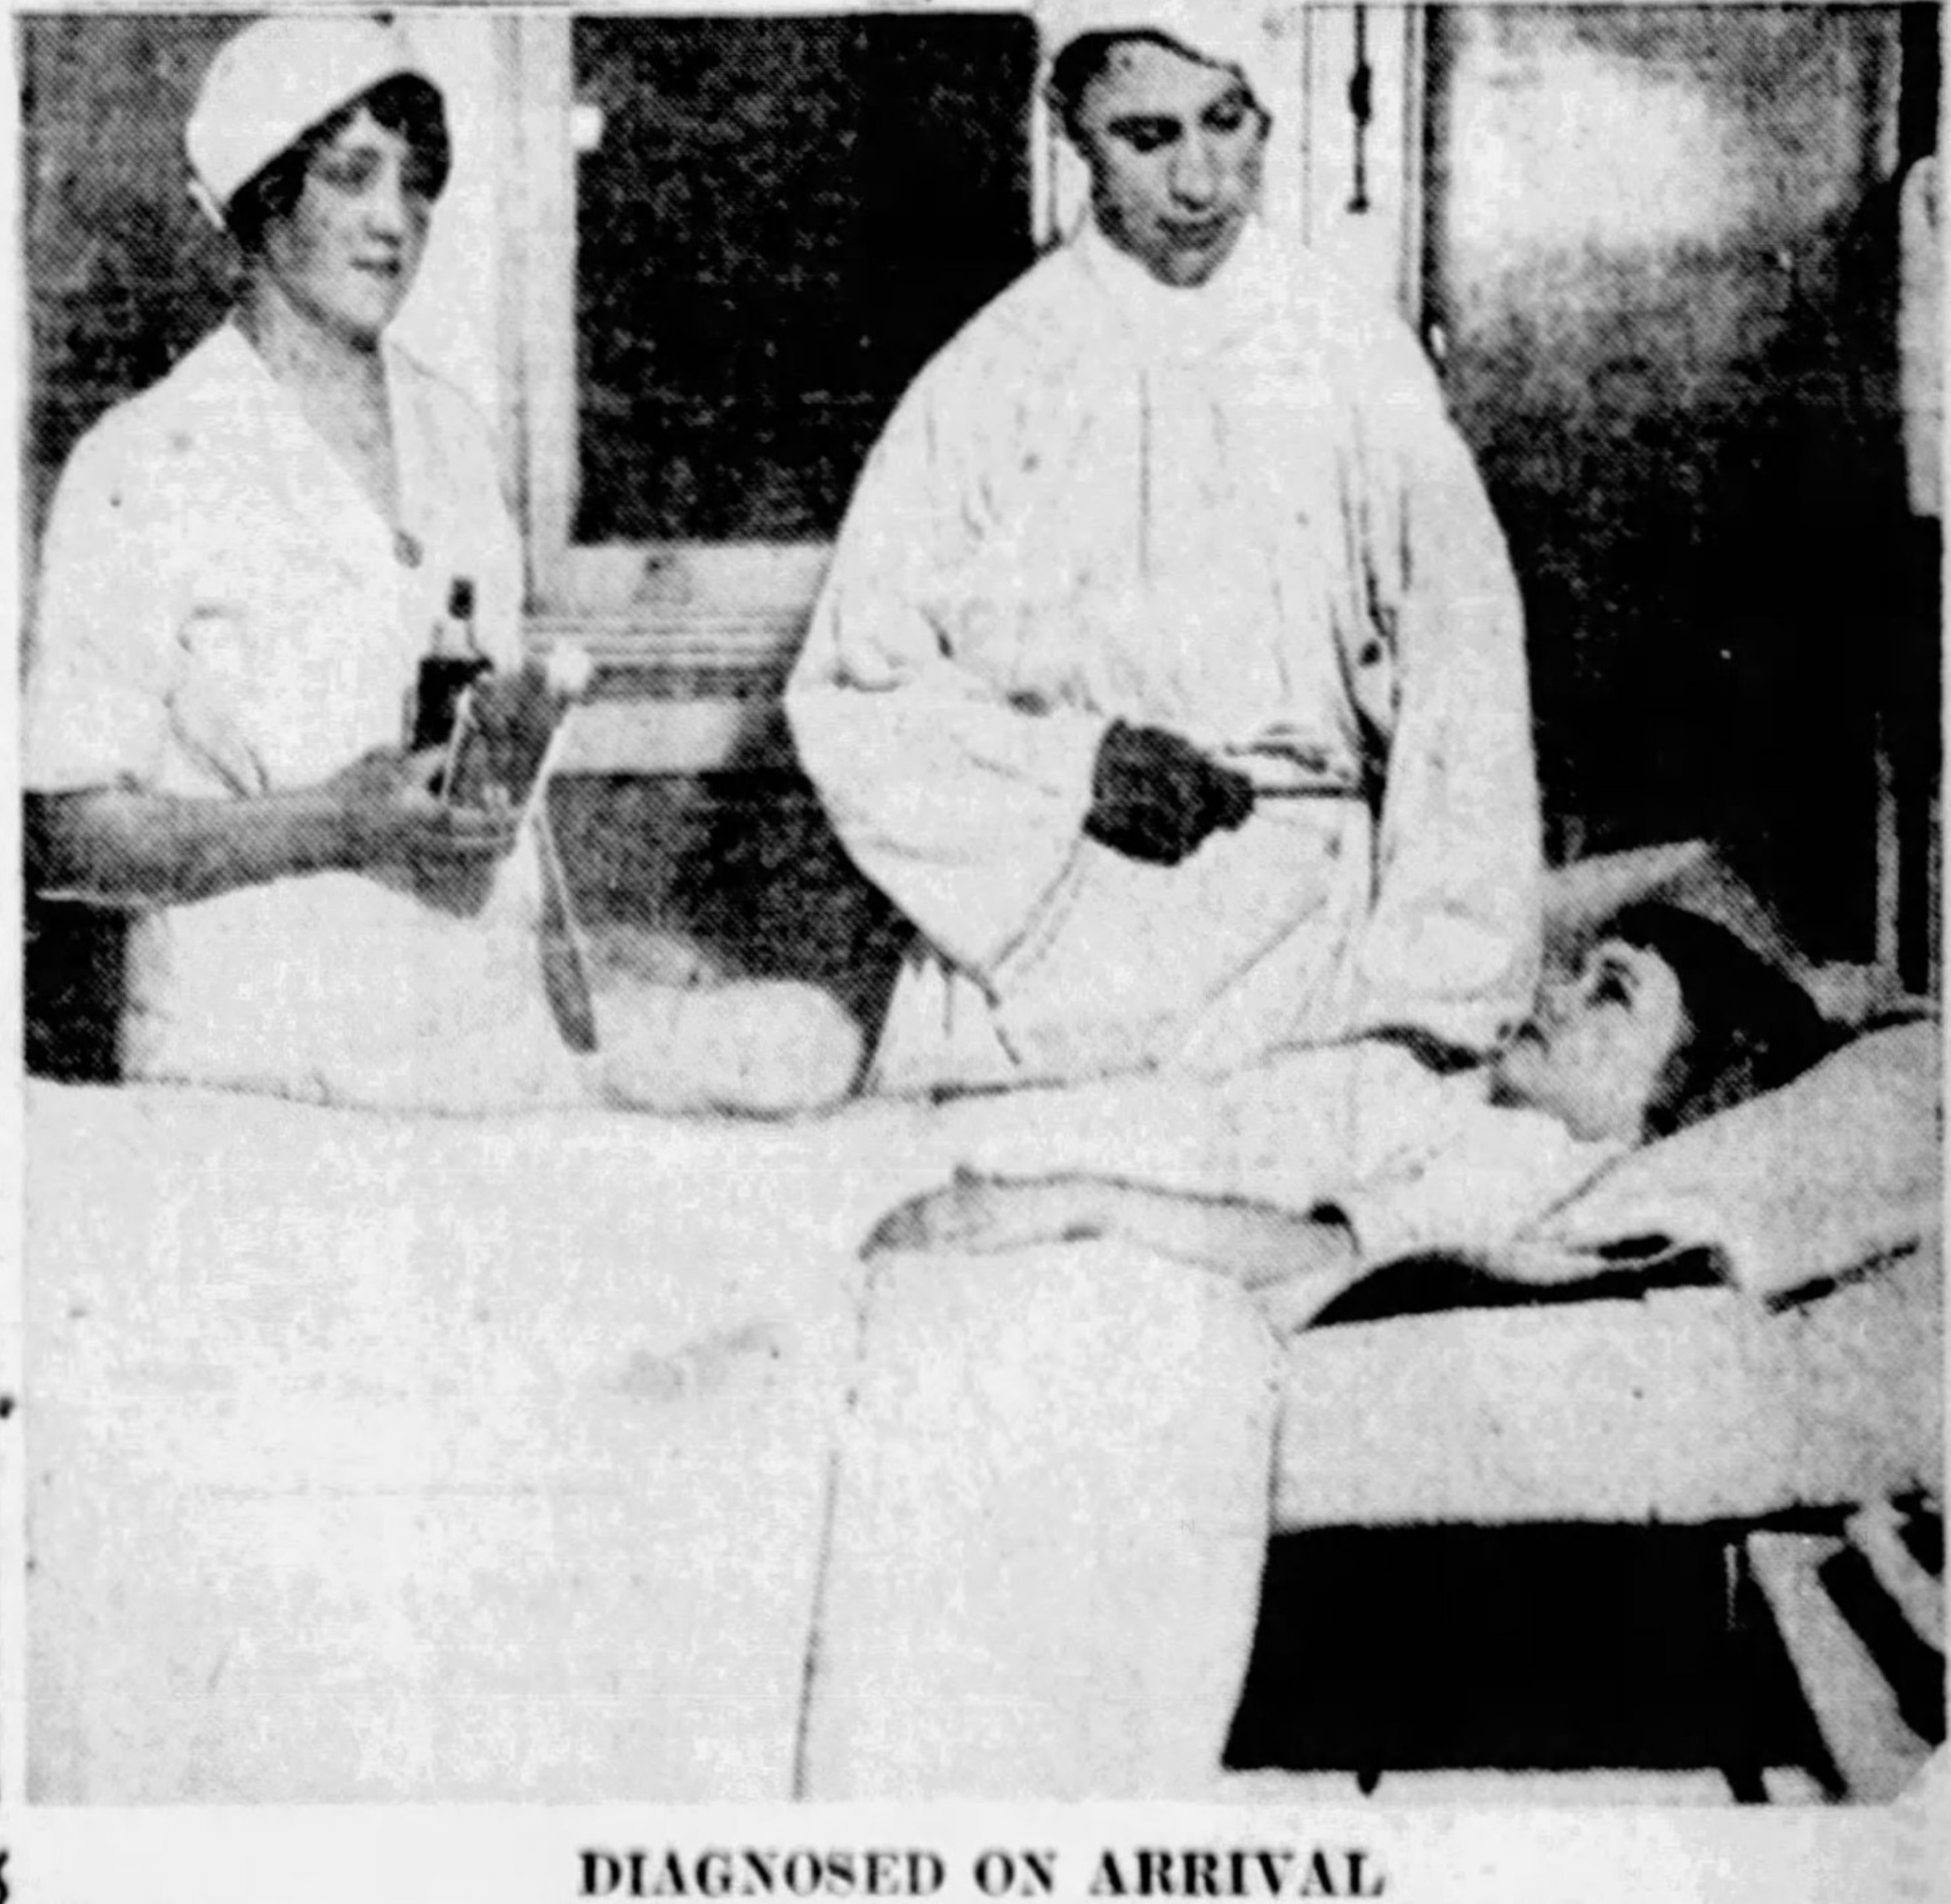


GIVEN CLOSEST ATTENTION

The children shown here are recovering in Pittsburgh Municipal Hospital from diphtheria. Sixty-two times the little girl lying on the bed in the foreground coughed out a tube placed in her throat that she could breathe. If there hadn't been a doctor right on the job she would have choked to death.

THE KITCHEN IS SPOTLESS

Although all food for the wards, nurses and staff physicians is cooked in the main kitchen, it is served in containers and dishes belonging to each ward. It is taken from the kitchen to each ward and dumped into steam table containers, which keep it hot until served. Thus the scarlet fever ward is kept entirely free from contact with the diphtheria, or other contagious disease wards.



DIAGNOSED ON ARRIVAL

When the ambulance backs up to the door the stretcher is brought into the receiving room, isolated from other patients. There a careful diagnosis is made and treatment begun. Physicians have often saved the lives of patients by prompt injection of serum.

C. OF C. TO FIGHT LOSS OF POSTOFFICE FUNDS

WON'T SUBMIT TO HOUSE ACTION

The Chamber of Commerce will not acquiesce tamely in the action of the House Appropriations Committee yesterday in omitting Pittsburgh from the list of cities for which funds for new postoffice buildings are to be provided this year. On the contrary, vigorous representations will be made at Washington as to the need for immediate action.

Commenting on a dispatch from the nation's capital to the effect that Pittsburgh's requirements might not be so urgent as those of certain other cities, W. H. Stevenson, a member of the chamber's special committee on a new Federal building, said:

"Why, there was congestion in the Pittsburgh postoffice 20 years ago! Twenty years ago the government was seeking new quarters here, and even went so far as to buy property at Seventeenth street and Penn avenue, which was later transferred to the Pennsylvania Railroad for part of the land at Seventh avenue and Grant street that has now been chosen as the site for the new Federal building.

"No city in the United States is more entitled to consideration because of congestion. On account of lack of room in the Federal building, which has outlived its usefulness, government offices are scattered all over the city. I don't know what the total rent bill is, but I am confident that it exceeds the interest on $1,000,000. (This million dollars is the amount that the Federal Building Commission recommended in its report to Congress at the last session should be expended for a new postoffice building here.)

Besides Stevenson, the members of the chamber committee are Arthur J. Braun, W. H. Burchfield, H. K. Jones, George S. Oliver, A. C. Robinson and F. I. Chesterman, chairman.

BULLET VICTIM BURIED HERE

James E. Cole, 20, former Oakdale High School student, shot to death last Saturday night in Norwalk, Conn., by an excited storekeeper, was buried today in Oakdale Cemetery.

Cole, a magazine solicitor, had entered a fruit store in Norwalk to buy an orange. As he stuffed it in his pocket, the proprietor, John Tullio, shot him and as the boy ran out, fired again. Tullio, recently robbed, told police he believed Cole was about to draw a revolver. Tullio has been held on a charge of manslaughter.

Funeral services were held in the Oakdale Presbyterian Church.

"But a woman's work is never done"

324 farm housewives say: "This eases tired backs"

WHAT a fresh, wholesome, healthy-looking class of women the farm housewives are! They fly from one task to another with the quickness and suppleness that so many women lose with their first youth.

Yet, if you ask, most of them will confess that often their backs are lame—their feet and ankles aching with fatigue.

We inquired around among farm housewives to find out what they do to relieve the aching and stiffness in overtired muscles, and to take care of the countless small hurts that are always happening around the farm home.

324 of them said that they found Sloan's the very best remedy they can use.

Used everywhere for muscular pain

In one out of every three homes you'll find Sloan's Liniment the standby for every kind of muscular ache, for rheumatism, for colds and chest congestions and for all kinds of minor injuries.

Read this letter from a farm housewife telling of quick relief from an injury:

"I fell out of a cherry tree. The branch I was on broke and I fell fourteen feet. I hurt my hip and I suffered agony. I used Sloan's, and I don't even feel it any more. I think Sloan's is splendid."

And this—telling the help that Sloan's gave to a persistent case of muscular pain:

"I could not sleep or do my work, but now I sleep well, walk and do my work with ease. I used Sloan's Liniment only once and it relieved me of my pain. It is just wonderful."

* * *

Sloan's works by the quickest, most effective method known for relieving pain. It stirs up the circulation—sends a healing tide of fresh, germ-destroying blood direct to the spot that hurts—gives you quick, positive relief.

Always keep a bottle of Sloan's Liniment on hand. At your druggist's you can get one that lasts a long time for 35 cents. Use it for:

Rheumatism — Lame muscles
Sciatica — Stiff neck
Lumbago — Colds and congestions
Neuralgia
Sprains and bruises

The farm housewife has learned that she can ease tired, aching muscles with Sloan's

A doctor whose practice takes in numbers of men and women who work hard under all kinds of trying conditions, says of Sloan's: "People whose work exposes them to strain or to damp and cold usually suffer from a good deal of muscular soreness. We find that Sloan's gives them quick, positive relief."

SLOAN'S Endorsed universally by those who do the world's hard work

selves," he argued, not to the public but to the community fund committee which disbursed its funds. There would be padding of budgets and pulling of strings, in consequence, and partiality would be shown in the distribution of money.

Mr. Maxwell explained the purpose of the community chest as a plan "to bring order out of chaos" in the financing of social agencies by a single annual campaign. It would not interfere with the agencies that did not care to co-operate. As indicating the success with which the community chest plan is operating in the larger cities it was stated that in the first 26 of the United States of more than 125,000 population there had been collected through co-operative financing last year $1,304,734, or 4.2 per cent more than the year before. Control of the community chest, Mr. Maxwell said, would be vested in the co-operating social agencies themselves, with representatives of the general public on the board.

Among the larger Pittsburgh social agencies which have applied for membership in the community chest are the Associated Charities, the American Red Cross, the Children's Service Bureau, the Federation of Social Agencies, the Woods Run Settlement, the Public Health Nursing Association and the Pittsburgh Milk and Ice Association.

The clergymen's statement today followed. It contained just 56 words. One prominent social leader explained that the minister's stand was that held by a majority of the practical social workers.

CONCENTRATES POWER

They are opposed to the amalgamation of the finances of all charitable enterprises, he said, because it placed too much power in the hands of a small group who might not apportion funds wisely; that results in other cities where it was tried were not satisfactory; that some of the leading sponsors of the present revival of the plan are behind it because they were interested in organizations that were losing public support and saw in the community chest an opportunity to bolster their shrinking finances and that some of the leaders would not be impartially sympathetic to all worthy charities.

He offered a hypothetical case in connection with the relief work for striking miners' families now being handled by a number of charitable organizations. One of the community chest plan leaders, he pointed out, certainly has evidenced by his public utterances, does not harbor a sympathetic feeling in their particular work.

MINISTERS' STATEMENT

"We look upon the present revival of the proposal to establish a Pittsburgh Community Chest, Welfare Fund, or a united financial drive for maintenance funds for charitable and other social agencies as being unwise, undesirable and impracticable, and we therefore cannot recommend this form for social agency financing in Pittsburgh."

Is madame of . . . or merely in this modern world? Let us see her in formal dress. Does she hold tenaciously to the youth of knee length frocks, pronounced colors and bobbed hair . . . or is she willing to venture the discovery of an entirely new world of youth in the moulded figure, the sweep of long lines and the subtle, complex colors.

To the true modern, the mode of yesterday . . . (the mode that is *still* good, if one insists) . . . is naive and elementary in comparison to the miraculous youth and sophistication of the new mode.

HALT VARE RECOUNT TILL TOMORROW

SUPERVISOR OF VOTE TALLY NAMED

By International News Service.

WASHINGTON, Feb 9.—The Senate's recount of ballots in Pennsylvania's 1926 senatorial election was halted temporarily today to permit a reformation in the organization conducting the recount.

J. A. Mallalieu, an attorney of Malford, N. H., today was named chief supervisor of the Wilson-Vare recount by the Waterman elections sub-committee.

Tabulation of ballots will be resumed Friday.

The delay also will allow Senator-elect William S. Vare, Republican, of Pennsylvania, whose seat is under fire, and William B. Wilson, his Democratic opponent, time to name three assistant supervisors to help their official supervisors in the recount.

The recount was stopped while an examination was being made of ballots from the First Ward of Pittsburgh.

The Reed slush fund committee, engaged in a separate inquiry, meanwhile continued to examine election records seized in Philadelphia a year ago.

Rumors persisted here that Vare and David A. Reed, Pennsylvania's senior Senator, had "split" over the conduct of Vare's case. Vare, however, was in Florida and could not be reached, while Reed declined to discuss the rumors. It was said if the "split" was not avoided, Vare would support Representative John M. Morin (R.), of Pittsburgh, as a candidate to succeed Reed in the Senate.

rawas River. The rising waters of the stream today retarded search.

DOUBT KILLER'S STORY

Doubt as to Herron's story regarding disposition of the body was voiced by Coroner J. F. Lewis, after he had found the blood-splotched clothing in a sand pile at Sand Bar, a summer resort, near where Herron admits attacking the young woman, then slaying her, Tuesday night.

Coroner Lewis unearthed the clothing while seeking additional evidence, after the May girl's coat, shoes and handkerchief had been found previously in a gravel pit nearby.

After confessing to Sheriff Abe Laird and County Prosecutor James Patrick, Herron slashed his throat and wrists with part of a safety razor blade in his cell in Tuscarawas county jail. Herron's wounds were slight, according to Dr. Paul Alspaugh.

ADMITS ATTACK

Herron confessed, Prosecutor Patrick said, that he was taking the May girl home from a party at the Herron home Tuesday night. He drove to an isolated spot where he attacked her, he said. A quarrel ensued, culminating in the fatal choking.

"I guess I choked her too hard," Herron said.

Herron said he drove to a bridge spanning the Tuscarawas River at Dover and threw the girl's body into the stream.

When a hunt was begun the following day, Herron told of being attacked by two men while he was driving with Miss May. His assailants kidnaped the girl, he said. Discrepancies in his story caused his arrest.

Herron has the reputation of being "peculiar." He comes of a family one member of which is classed as a religious fanatic.

tinental and its president, H. S. Osler, Jr., of Toronto.

In correspondence with Senator Walsh, of Montana, prosecutor of the oil inquiry, Rockefeller had expressed regret that Stewart refused to answer all questions of the committee regarding the bonds, some of which the government claims figured in the lease of Teapot Dome to Harry F. Sinclair.

TEXT OF REPLY

Rockefeller's wire in answer to the subpena follows:

"Hon. T. J. Walsh,
"United States Senate,
"Washington, D. C.:

"I am mailing you this morning a letter dictated yesterday and just signed which reads as follows:

"'I have seen Col. Stewart and have told him in person what I had to say to him in my letter of January 24th, of which you have a copy, namely, that in my judgment the public interest demands that the fullest possible light be thrown upon the matter now under investigation by the Senate committee. I also told him that I greatly regretted he had not answered the questions put to him. Col. Stewart confirmed the position which he had taken before the committee and said nothing could change his decision. He further stated that he did not wish to embarrass in any way the stockholders of his company and that they could have his resignation whenever they desired it. This is a question which the stockholders should of course and will naturally consider as the matter develops.

"'While greatly regretting the present situation and frankly at a loss to know what more I can do, I stand ready as heretofore to render any service in my power to help the committee in its efforts to expose wrongdoing.'

"In my talk with Col. Stewart he refused positively to discuss the case except as above stated. I, therefore, am still without any information which has not already been submitted to the committee. I have wired the sergeant-at-arms of the Senate that I would accept his night letter as service of the subpena the Senate committee has issued and appear before the committee on Saturday morning at 10 o'clock as directed. An invitation would have been equally effective.

Rheumatic Pains All Gone In Five Days

McCulloch's 10 Convenient Stores Invite Every Sufferer to Try Wonder-Working Formula on Money-Back Plan.

It's hard for you to believe, perhaps—you folks who have been suffering untold agony from the dull, deadening ache that never seems to leave you—that you can get right here in Pittsburgh a remarkable remedy that will bring lasting relief to your torture.

Don't let any doubts or misgivings hold you back from accepting this generous offer that McCulloch's 10 Convenient Stores are making. You aren't risking a single thing to gain a lifetime of release from rheumatic pain, for if this wonder-working formula known as Allenrhu does not completely rid you of every twinge in 10 days, they money you paid will be returned promptly.

Remember in taking Allenrhu that while the pains and aches themselves speedily go (usually in the first day or two), you should continue its use for several days longer to help get rid of the uric acid poisoning in your system. And remember further, if after taking it for 10 days you are dissatisfied in any way your money is waiting for you.

R. LINCOLN GRAHAM, M.D.
New York City
Originator of Neutroids and prominent Stomach Specialist

Mrs. J. writes that she healthfully lost several pounds in as many weeks. Her sister is now taking Neutroids.

NEUTROIDS is a tonic. You'll realize this when the first few treatments increase your interest in life. Neutroids has helped thousands; it may help you to feel better, look better, and act your old self.

A nationally known female impersonator keeps his girlish figure with Neutroids; pleasantly, healthfully, and easily.

Be thin and strong…it's not impossible, in fact it's altogether probable if you proceed along the scientific lines laid down by Dr. Graham, a specialist in cases just like yours. For over thirty years what is now called Neutroids was Dr. Graham's prescription compounded by chemists for his private patients.

Unlike many other preparations, it contains no thyroid.

Your druggist carries Neutroids or can secure for you a two weeks' trial treatment. Let that point the way, but do it now…at least try.

the Doctor says:

guard against Coughs!

THE moment you feel any disagreeable sensation in your throat you should take a dose of PERTUSSIN to prevent coughs.

Very often irritation in the throat is caused by dust or habitual smoking. PERTUSSIN helps to clear the air passages and soothes the irritation.

It is entirely free from "dope", pleasant to take and has been prescribed by physicians for more than twenty years.

If PERTUSSIN does not relieve you quickly, you should consult your doctor.

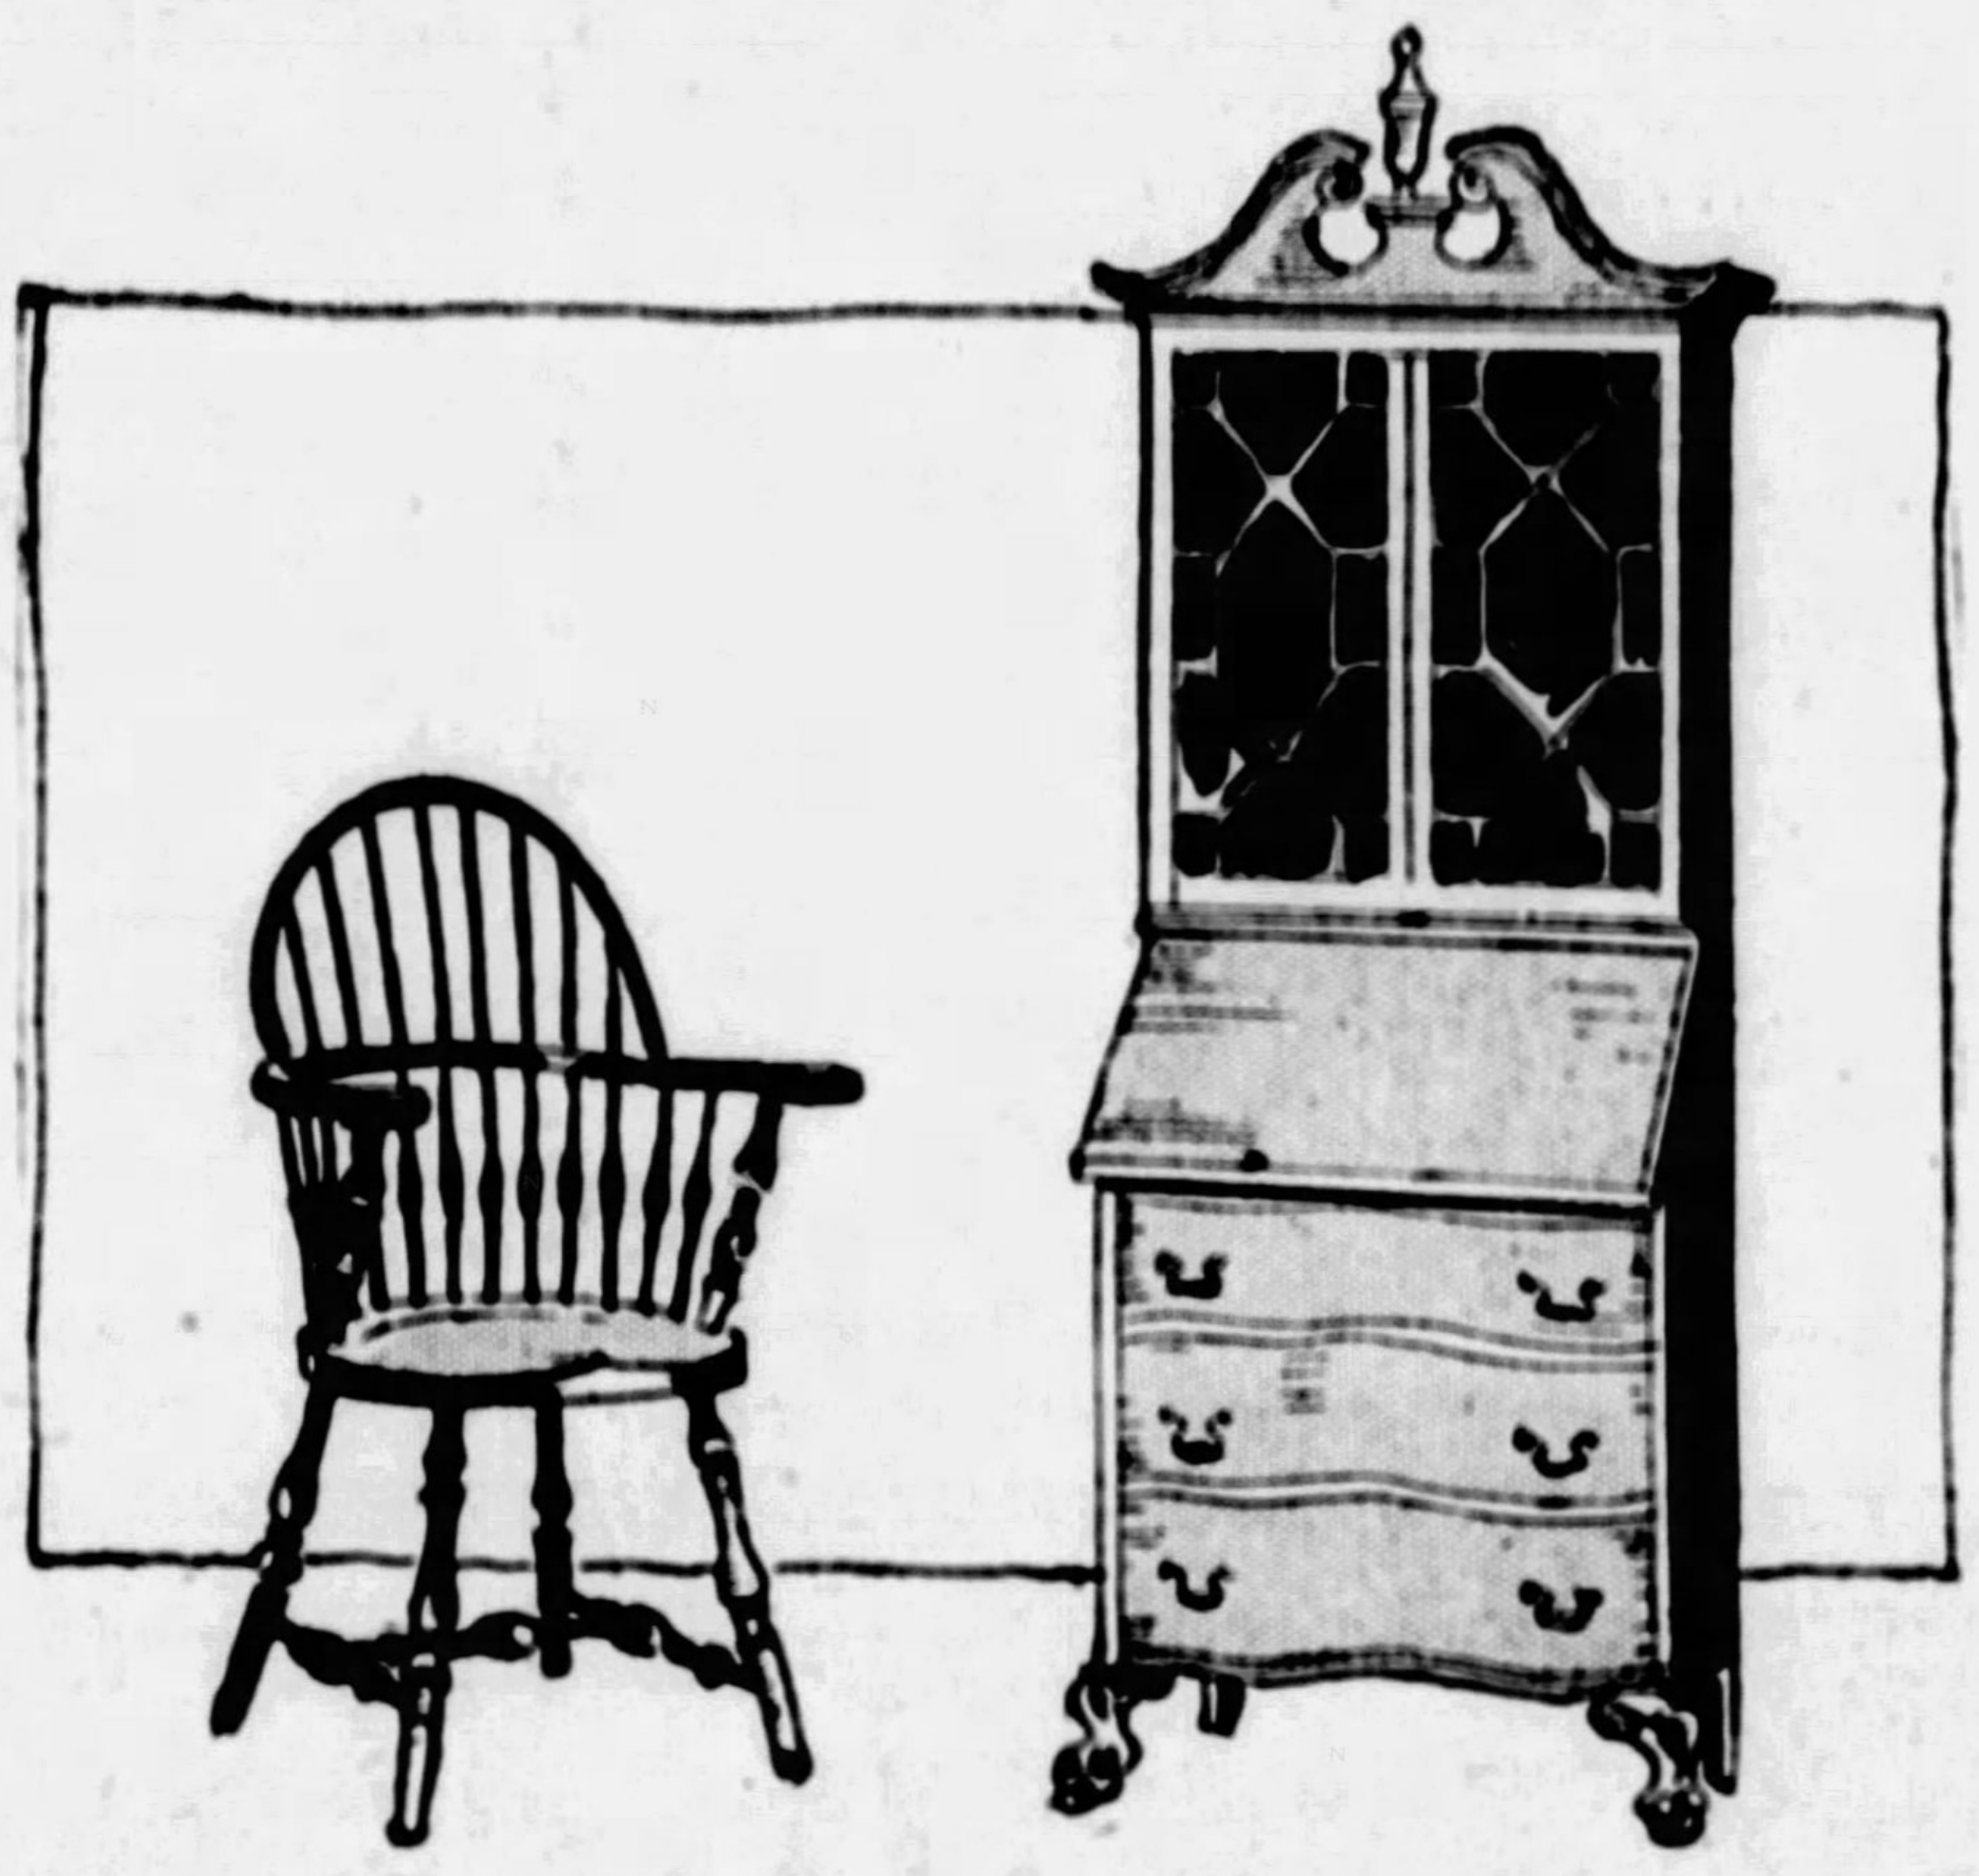
FEBRUARY VALUES IN *Early American* FURNITURE

The first to sponsor the vogue for early American styles in furniture, this store has enlarged its section of colonial pieces until now it has one of the largest and best collections in this district.

Those beautiful and charming pieces in mahogany and maple, at the very special February prices are most enticing. Beds, chairs, high-boys, desks, and entire sets of dining room and bedroom furniture—at unexpectedly low prices.



Windsor Chair

$11.75

A sturdily built Windsor arm chair, of birch, with mahogany finish. The rocker to match is $12.75.

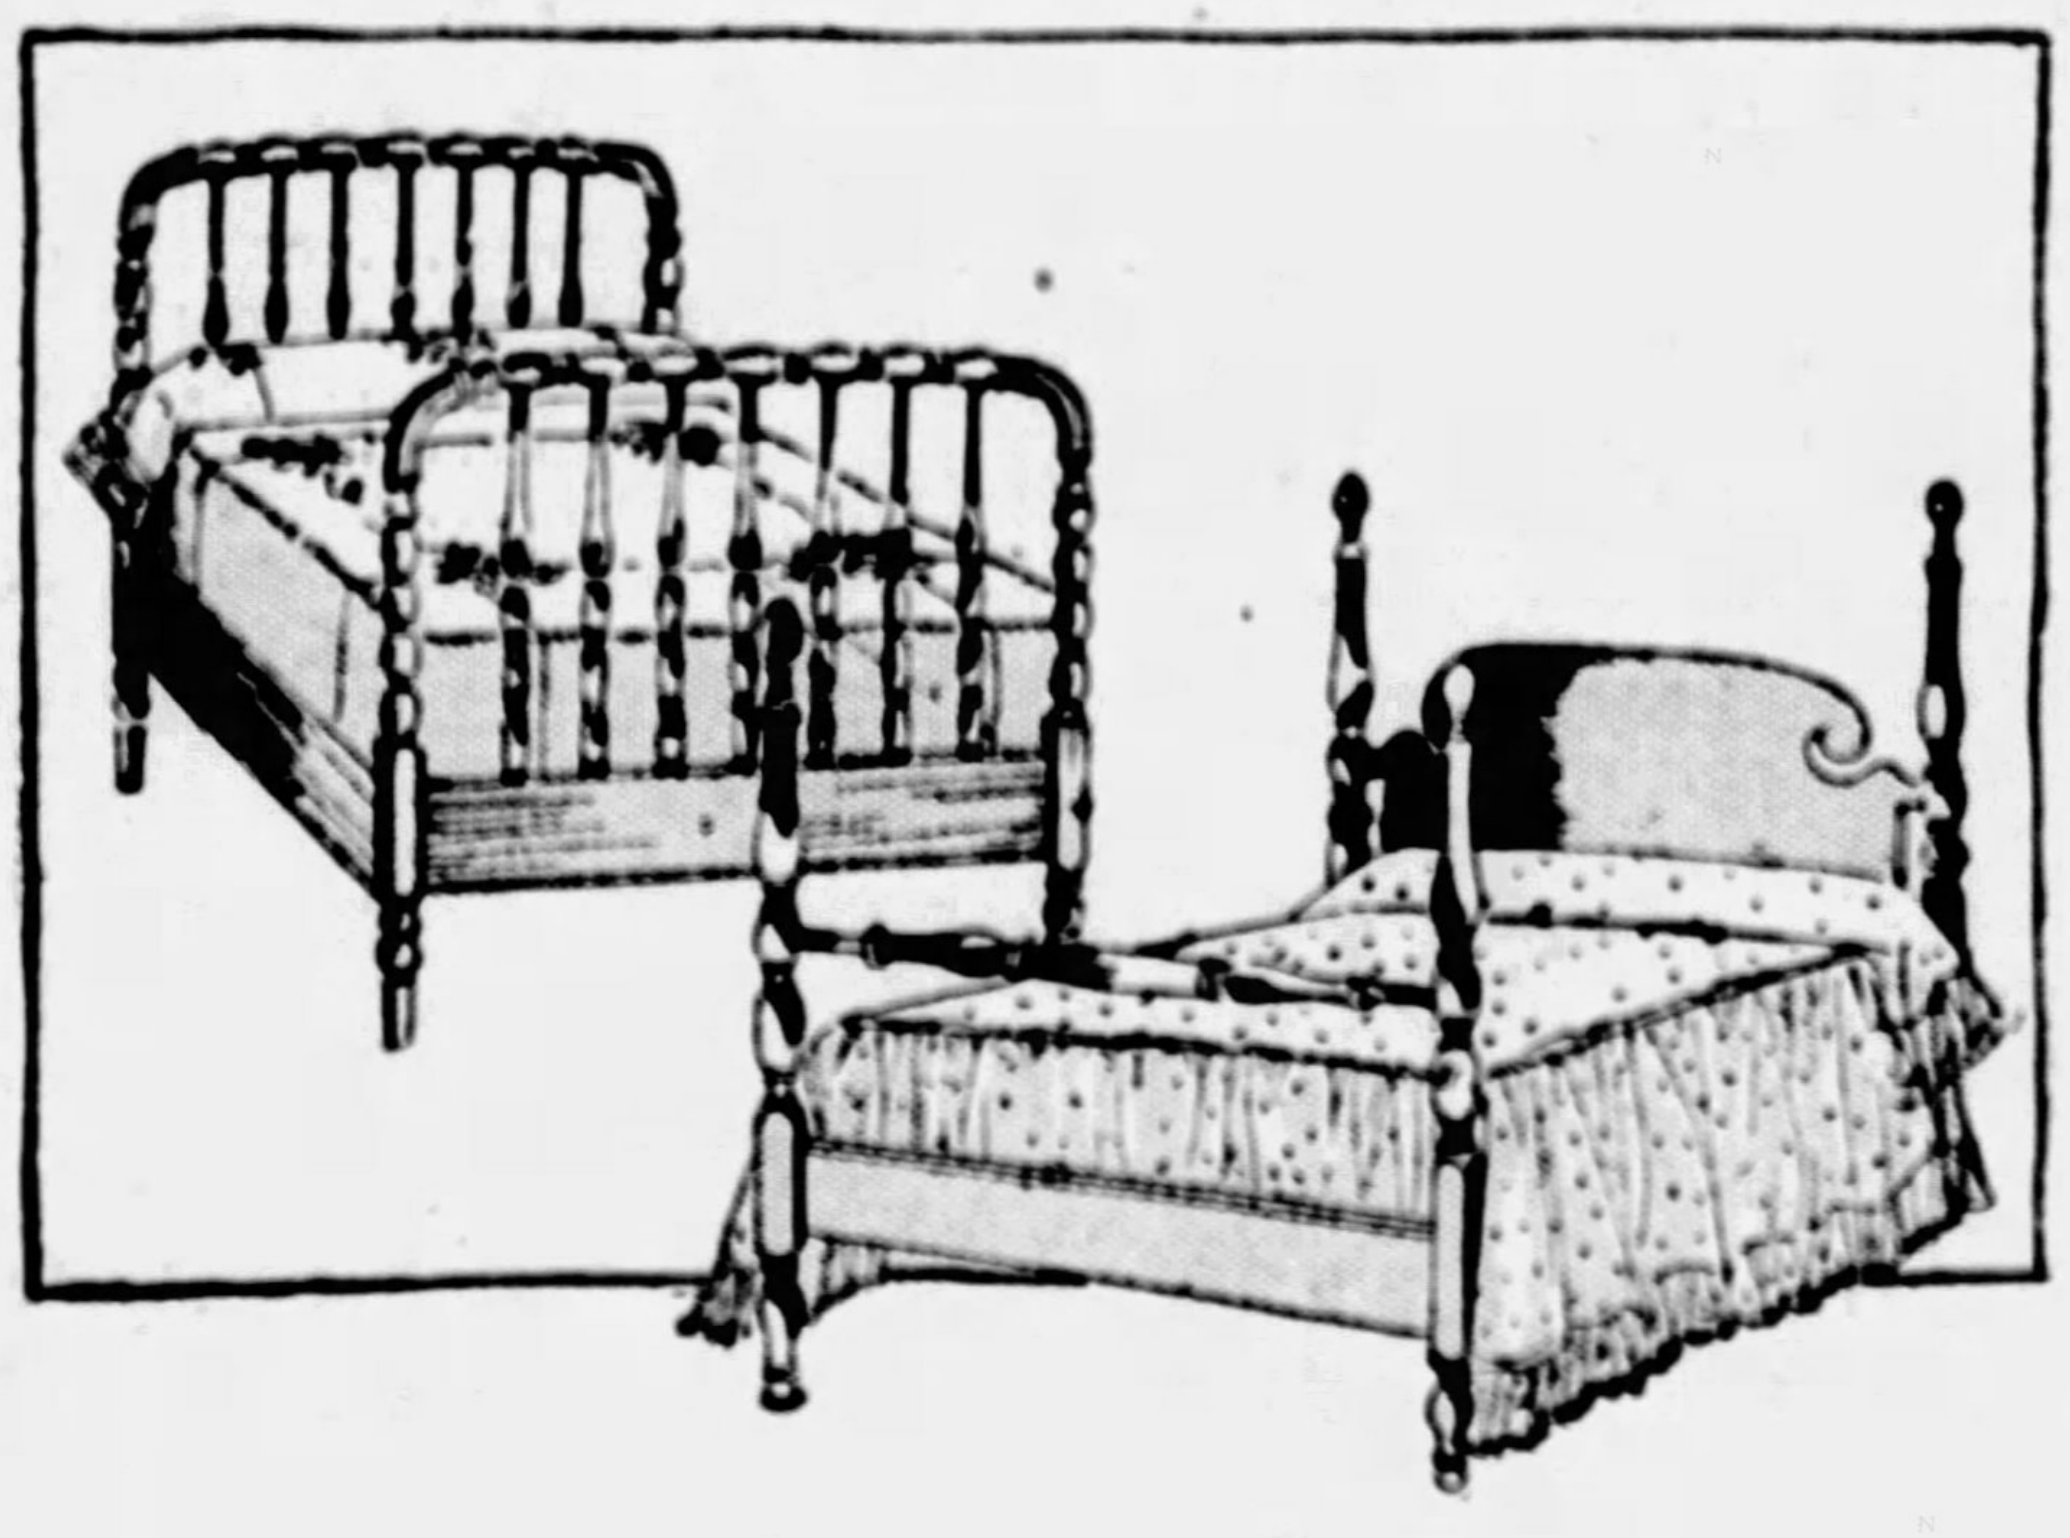
Budget Service

The budget expert has helped hundreds of people to arrange furniture or entire household budgets. You can purchase the kind of furniture you want, by sensible budgeting.

Secretary Desk

$72.00

One of the outstanding February values is this finely made desk. Of mahogany and gumwood, with three big drawers.



Spool Bed

$28.00

A quaint early American style spool bed, of mahogany and gumwood. In either twin or full size. Of maple, $31.50.

Deferred Payments

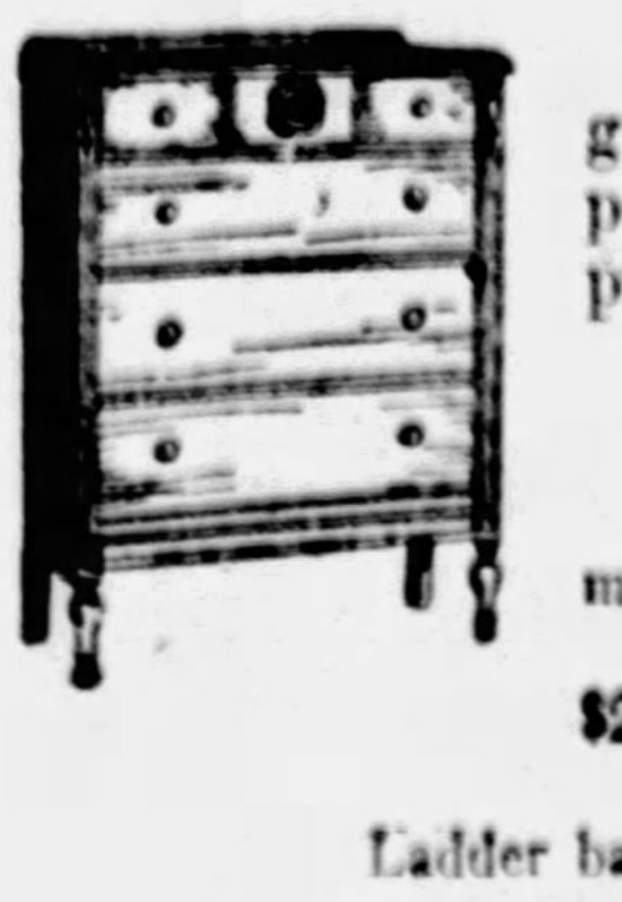
The Credit Department will be glad to explain our plan of deferred payments. It permits you to have and enjoy your furniture while paying out of income.

Poster Bed

$29.00

One of the pretty poster beds at a February price. Of mahogany and gumwood. In single or full size.

Chest of Drawers, $48.50



An early American style chest of mahogany and gumwood, that shows the sturdy dignity of that period. It will harmonize with other colonial style pieces.

Other Specials

Secretary desk, Governor Winthrop style, finely made of mahogany and gumwood, $53.00.

Gate-leg table of walnut or mahogany with gumwood, $21.75.

Ladder back chair with hand-woven rush seat, $18.50.

Tea cart of walnut or mahogany with gumwood, $26.50.

Bedroom chair, with choice of chintz covers, $21.50.

A TRULY METROPOLITAN STORE

Lace Dresses

Soft, feminine, gracile . . . lace returns to favor in a season when it can be most effective, a season of fluttering outlines; and it is seen to excellent advantage here, in a collection of fine dresses for women.

Daytime dresses of lace in black, Lanvin blue, beige tones and Patou rose, including the very new dipped-to-the-back models.

Evening gowns of lace in black, Independence blue, lacquer red, peony red, and rose-beige, with flounces and draperies of floating grace.

$55.00 to $135.00.

This Miss' Suit May Be the Basis of Several Ensembles

It is a two-piece suit, coming in various fabrics, and having the following delightful possibilities:

When its coat and skirt are of tweed, it may be worn with a sweater or sports blouse to form a sports-type ensemble.

When of navy twill, or navy or black kashara, it will become a semi-dressy costume if accompanied by a rather dressy silk blouse.

Wear the coat of the tweed suit with a printed silk frock, and you have one of the newest and smartest sports ensembles.

The coat of twill or kashara may be worn over a simple little dark silk frock, to form a "run-about" costume.

The suit, in the fabrics named above, with selvage finish, is priced only

$39.50

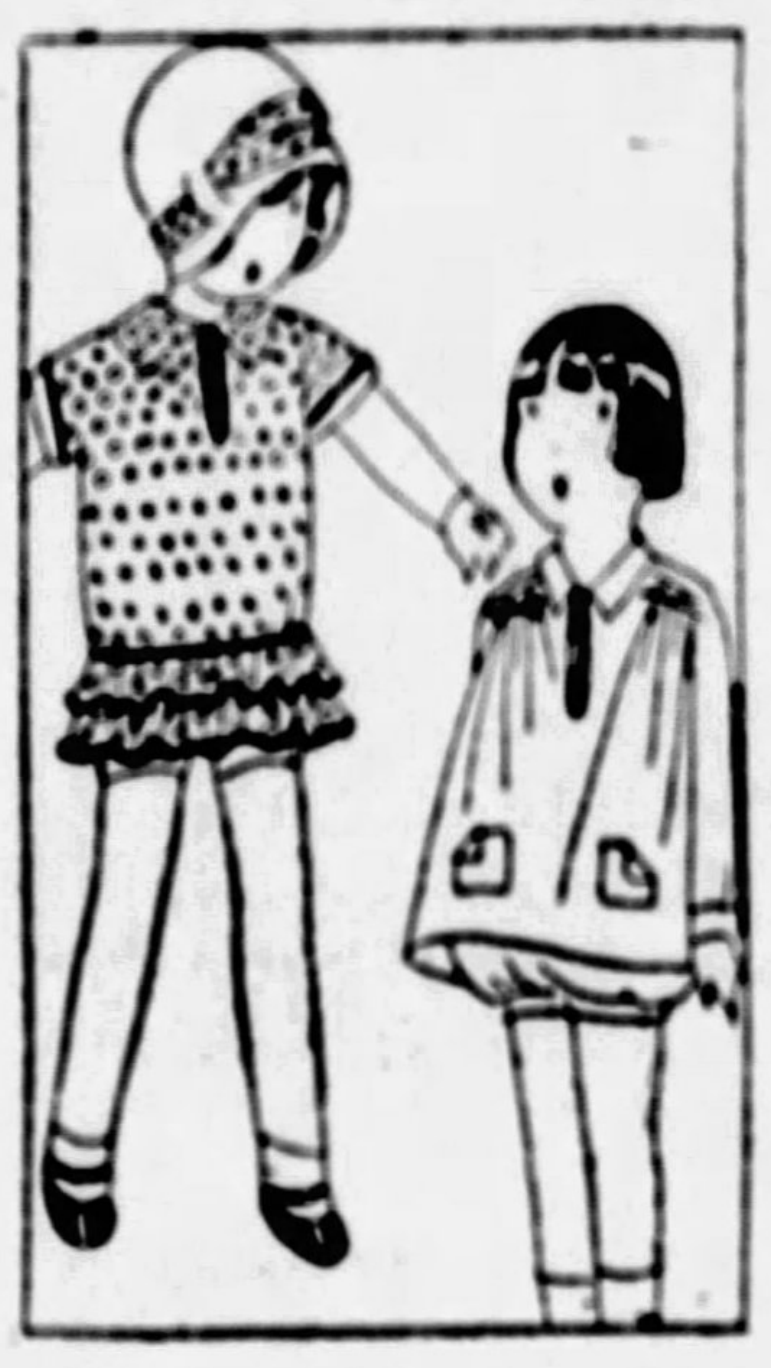
Children's New

Panty Frocks

Very Special $1.00



Such variety of perky little styles . . . such gay fabrics . . . in plain shades, tiny stripings and dainty prints—and they will wash perfectly! Featured with "petite" bloomers for toddlers, 1 to 3 years . . . and band-knee panties in sizes 2 to 6 years.

Tricky pockets, tiny buttons, stitchery, bright pipings and amusing ruffles are trimming notes. Wise mothers will buy in quantity, the values are so exceptional.

A New

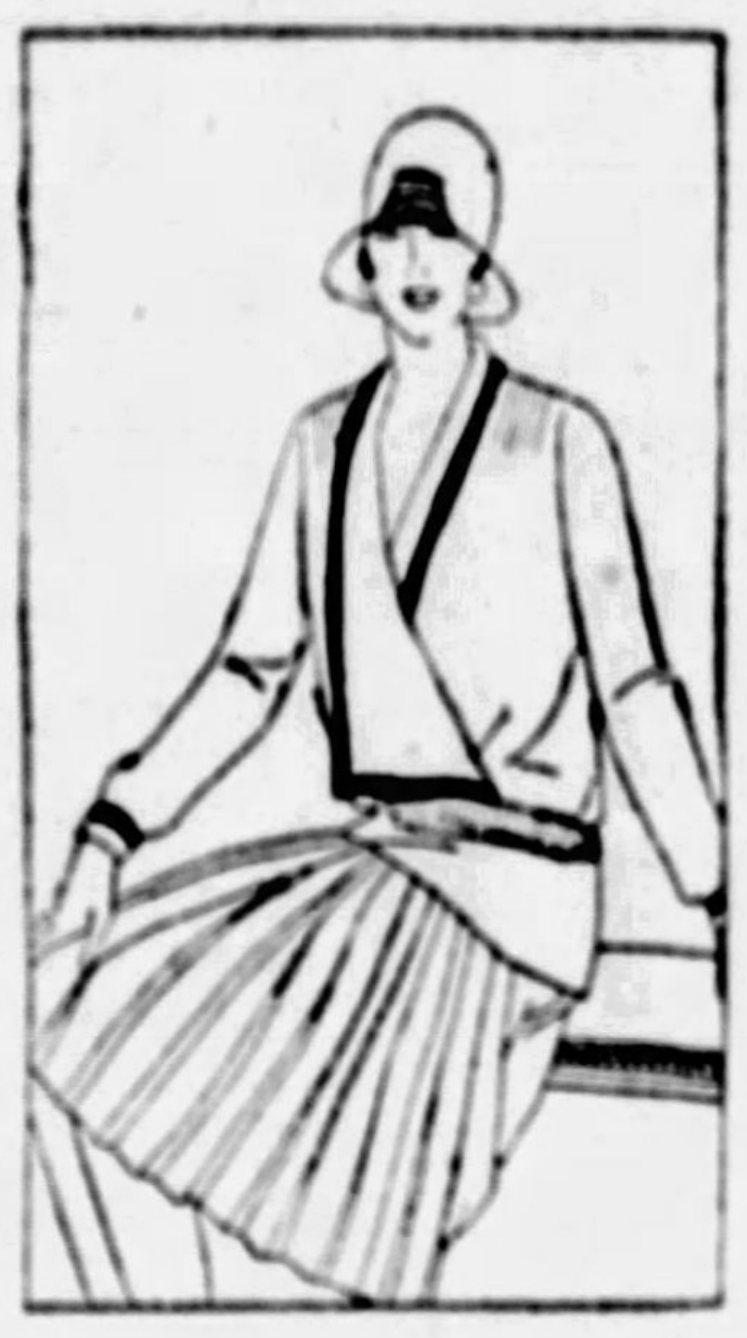
Golflex Frock

In The Sportswear Shop

The new, softer effect which distinguishes many sports clothes for spring, is emphasized in this new Golflex model, by a graceful jabot collar.

Of supple silk crepe of superior quality, to be had in the subtle, grayed "Riviera" shades — hydrangea blue, lime green, rosy beige; also in pigeon gray, navy blue and black **$39.50.** Sizes for women and misses.

—*Horne's, Second Floor*—



Tiny Folks' Imported Sweaters

Just in from Vienna in time for Valentine gift giving! Miniature slip-on styles with jaunty little V and round crew necks. Of wool and rayon in just the right weight for indoor and "under coat" wear. And indeed, the weaves and colorings are so pretty and bright that little boys and girls will want to wear them all the time! Sizes 2 to 6 years. Priced **$2.95, $3.95 and $4.95.**

—*Horne's, Third Floor*—

Quaint Bed Quilts With Colored Patchwork

Snowy white cotton quilted spreads with star-shaped patches in color have all the spirit of the old-time colonial patchwork quilts. They look particularly well on beds of the poster or spool type, carrying out the early American scheme. In pink, blue, yellow, green or lavender, 72x90 inches, **$12.00.**

Same style in sateen, in rose, blue, green or lavender, with white patches, 72x90 inches, **$18.00.**

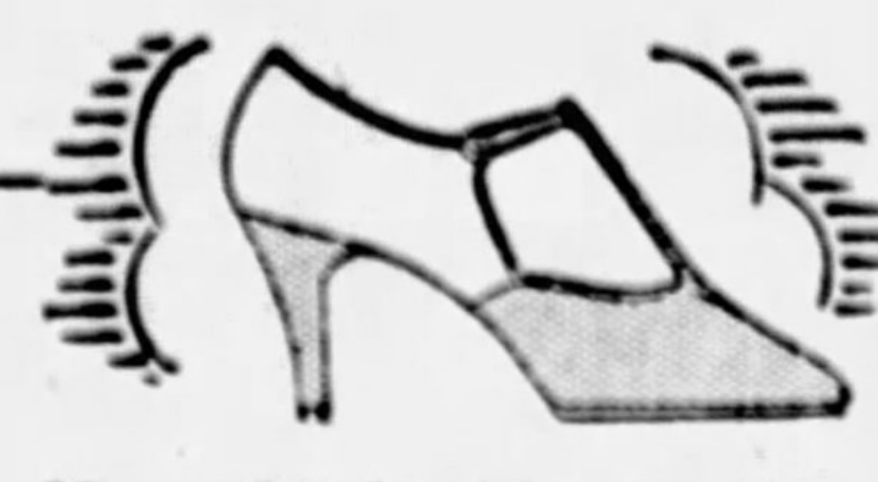
—*Horne's, Fourth Floor*—

Children's New Rayon and Lisle 7/8 Hose, 50c Pr.

No hose could possibly be more practical or attractive for children than these in 7/8 length, rayon and lisle mixed. Tan and gray shades in pretty all-over patterns. Sizes 4 to 12 years.

Children's Ribbed Lisle Full-Length Hose. A popular "between-seasons" hose for children. In black, white and colors. Sizes 4 to 12 years. 50c pair.

—*Horne's, Main Floor*—



New Light-Shade Shoes That Can Be Worn Now

In rose-beige, which is not too light for immediate wear, and yet quite within the mode of natural tones for spring, we show three models of new shoes at $12.50.

The one pictured is of kidskin, with suede quarter. A second model, with buckled ankle strap and Cuban heel, is of kidskin neatly trimmed with matching suede. A third, also with Cuban heel and narrow ankle strap, is of suede banded with kid.

—*Horne's, Second Floor*—

New Neckline Sweaters

Copies of imported models, including those by Jane Regny and Jean Magnim, showing unusual necklines, are to be had here at **$5.75** to **$12.50.**

They are slip-ons, with round or v-shaped necklines, finished with applications of jersey in modernistic designs. Some of them also have sleeve monograms. One model suggests the Antibe shirt.

They come in lovely shades for spring, solid, with stripes, or with striped borders.

—*Horne's, Second Floor*—

A New Shipment of These Smart

Pongees—95c yard

A special price on these new silks . . . . Rough textures are given prominence in all reports of spring and summer fashions, and these are in colors and designs to fit smartly into the picture.

Imported Honan Pongee

A splendid range of colors, light, bright and dark, is offered in this popular wash silk. 32 inches wide.

Printed Pongee

Small, spaced figures on light and dark grounds. Washable. Many in colors for immediate wear. 32-inch.

—*Horne's, Main Floor*—

Valentine Suggestions

Perfume . . . Jodelle, a charming fragrance, exclusive with Horne's in Pittsburgh, **$7.50 to $65.00.** Ybry, in two scents, whose very names are hints for gifts, Desire de Coeur and Mon Ame. **$16.50, $30.00, $50.00.**

Gloves . . . Reynier, the master of French kid. A dress glove in very light tan, with a fancy cuff of brown, beige and gold braid and with embroidery of the same design. Other dress gloves of softest kid. **$3.50 to $10.00.**

Hosiery . . . Light shades for street and evening wear, also gunmetal, dust and rose taupe. In the very sheerest chiffon at **$5.75** and in the loveliest net at **$3.95.**

Handkerchiefs . . . The daintiest of georgette with net edge and petit point in one corner. **$1.00.** Handmade linen handkerchiefs with rolled hems. Different colors in prints. **50c.** Large, graceful evening handkerchiefs plain, in prints or with lace edges. **$1.50 to $7.50.**

—*Horne's, Main Floor*—

Trout Calf Fashions New Handbags

Daintily speckled calf with an attractive glazed finish appears among the smart leathers for spring handbags. Envelopes and pouches of various sizes with self-covered, contrasting, metal or shell frames and trimmings.

Presented in shades to harmonize with spring ensembles.

Honey-Beige *Cocoa-Tan*
Grege *Blue-gray*
Black *Green-gray*

Priced from **$7.50** to **$20.00.**

—*Horne's, Main Floor*—

Just Arrived! Printed Chiffon Underthings

The overwhelming vogue for prints now shows itself in underthings . . . and these are truly fascinating! Floral chiffon printed on a black background and edged with black lace fashions the most alluring of chemises and step-ins. Again, floral prints on a light background combine with plain color georgette to make the most colorful of chemises.

Then, too, there are georgette step-ins in a variety of plain shades trimmed with pretty picoted ruffles in contrasting hue. All at one special price, **$2.95.**

SULLIVAN GETS INTO CONGRESS RACE

Pledging himself "to adhere religiously to those Republican policies which have made Pittsburgh the workshop of the world," Alderman P. J. Sullivan of the Sixth Ward yesterday entered the race as a candidate against Congressman John M. Morin in the Thirty-fourth District. He has the support of every Republican ward chairman in the district.

"Having been a millman myself, I shall watch with zealous and constant eyes the rights and welfare of the man who toils," he said. "At the same time I shall always regard with fairness the interests of the business men who have contributed so much to the prosperity of this community.

"If nominated and elected, I shall continue to live in my district and mingle with my neighbors and my people. Only in that way can I keep in constant touch with their wants and truly represent their sentiments. Loss of contact with the voters necessarily diminishes one's ability to render fitting representation to those who send him to Washington."

SLAYER DIES IN PRISON

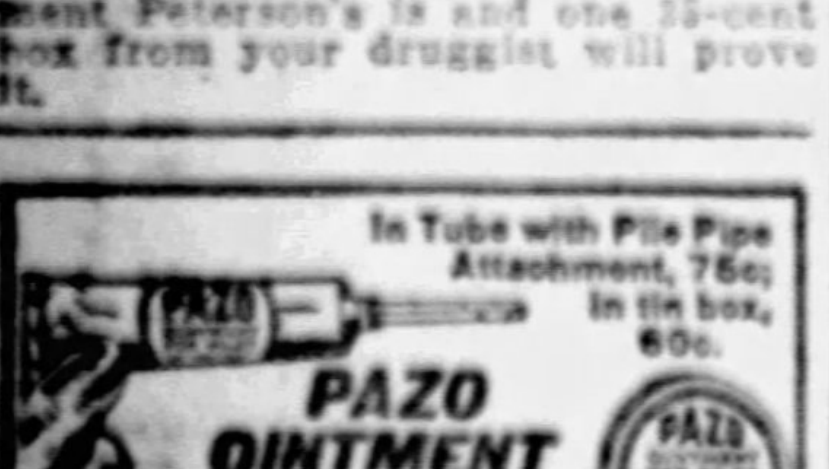
Suffers Running Sore 10 Years

Old-Time Remedy Starts Healing in Five Days.

Every person suffering from old sores and ulcers should know about the mighty healing power of Peterson's Ointment. Thousands have used it with joyful success after treatments and other remedies have failed.

"I am not much of a writer, but will give you a good ad for Peterson's Ointment if you care to publish it. I am a woman twenty-four years of age, and have had a running sore just above my ankle for over 10 years. I tried doctors and almost every kind of a salve, but failed to heal it. A year ago I got a box of your Peterson's Ointment and in five days' time I could tell that it was healing. It took only one 35-cent box and two sixty-cent boxes in all. So I advise every man, woman or child to use Peterson's Ointment, for it is worth the price and is good to keep on hand."—Mrs. Fay Horenchuk, Chicago, Ill.

That's the kind of a healing ointment Peterson's is and one 35-cent box from your druggist will prove it.



In Tube with Pile Pipe Attachment, 75c; in tin box, 60c.

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles or money refunded.

LOITERS ABOUT COURT, FINED $200 MORE

Loitering about the corridor of the Federal District Court after having been fined by Judge F. P. Schoonmaker, cost Joseph Merlino, 2531 Penn avenue, an additional $200. After imposing the original fine, for violating the dry law, the court learned that Merlino knew more about the seizure of a large quantity of moonshine whisky in a Spring way building than had been brought out when he entered his plea. Merlino recalled for further interrogation, was then ordered to pay $300 instead of $100.

In another case, Martin Johnson, former proprietor of "Dew Drop Inn," a roadhouse on the Freeport road near the Oakmont Bridge, pleaded guilty to selling whisky and was fined $300.

Altogether, fines aggregating $2,250, and ranging from $50 to $500, were imposed by Judge Schoonmaker. The penalties were imposed on 16 defendants, including Johnson and Merlino, all pleading guilty to dry violations. Besides Merlino and Johnson, these persons were fined:

Alfred Caletti, fined $500; Walter Rosenberger, $400; Henry Getz, Carman Gazzo, Domonick Pave and Mrs. Susan Pave, jointly, $300 each; Edward Klein, and Coleman Coyne, $200 each; Mike Sabor, $150; Anna Moldovon, Pat Conley, Fred Butler and Joseph Peccelaio, $100 each; James Gori and William Miller, $50 each. Anna Green, another defendant, was paroled for two years.

U. S. PADLOCKS DINING ROOM

Federal Judge F. P. Schoonmaker yesterday directed the United States marshal to "padlock" for one year the dining room on the second floor of a building at 974 William Penn way, because it had been used in violatiny the prohibition law. The room may be used only if the owner of the property places $1,000 bond to guarantee that the "nuisance" will be abated.

Rid Yourself of Rheumatism

Why suffer from torturing rheumatic pains, sore inflamed joints and suffer intensely because your system is full of the dangerous poisons that make thousands helpless and kills hundreds years before their time?

If you want quick, gratifying relief take one teaspoonful of Rheuma night and morning. Almost from the first day you should realize that when Rheuma goes in rheumatic agony goes out.

Don't be skeptical about Rheuma. You should know in a few days after beginning the treatment that the dangerous poisons are leaving your system through the natural channels. Rheuma should please you in a day and make you hopeful of quick recovery in a week or money refunded. May Drug Co. and druggists sell Rheuma with this guarantee.

RADIO "EYE" PEERS ACROSS SEA IN BRITISH TEST

FLASH FACES ON SCREEN IN U. S.

By WILLIAM W. CHAPLIN,
Associated Press Staff Writer.

HARTSDALE, N. Y., Feb. 9.—(AP.)—The eye of man, aided by science, has at last been able to peer across the Atlantic, although what it has been able to see so far has been but a distorted vision of the reality.

Trans-Atlantic television has been taken out of the inventors' star chamber and demonstrated for just what it is, the youngest child of science, weak like any child, but also potentially of great strength.

In the televisor of John L. Baird, British inventor, have been shown the images of a man and a woman sitting fully 3,000 miles away. The images were crude, but they were there.

For three months secret one-way ocean tests of the Baird televisor have been under way, with the transmitting apparatus in London and the receiving machine, a box the size of a steamer trunk, in the home of R. M. Hart, a short-wave radio operator, in his West Chester county village, just outside New York.

Success achieved was only partial, but it was enough to convince the inventor and his associates that the time had come to take the newest wonder of science out into the light of inspection.

Last night trans-Atlantic television was demonstrated with newspaper men at both ends of operation and they were invited to tell just what they saw, without exaggerating the merits or minimizing the defects of the experiment.

The group at this end gathered in the Hart home during the evening and Hart opened Morse communication between 2KZ, the London station, and 2CVJ, his own set. This communication was maintained during the experiment.

LIKE BEE'S HUM

Shortly before 10 o'clock, Hart announced that the "vision sound" was coming through from London. This noise was very much like a bumblebee's hum and was the representation in sound of the lights and shadows of the face of the subject before an electric eye in London.

Capt. O. G. Hutchinson, general manager of Baird's Company; Benjamin Clapp, Baird's chief engineer, and a reporter went to the darkened cellar of the house, where the televisor was installed, and saw the sound being turned back into light.

On a whirling screen, about six inches by four, a myriad tiny rectangles of light appeared, looking like a row of tip-tilted skyscrapers at night. These rectangles began to move, jostle each other, shift and swirl, and at last formed in the outline of a head.

This head became suddenly more distinct and, though the vision fluttered and dimmed, it was plain. Hart telephoned down to say that London reported the head was that of a ventriloquist's dummy and that next Fox, of the London Press Association, would take the seat before the electric eye.

The tiny oblongs of light went through another dance and formed another head, but this time it was not so distinct. But this time the mouth was seen to open and the vague head moved from side to side and nodded solemnly.

London announced then that the next subject would be the wife of James Howe, of the London staff of the Associated Press, who was present with her husband.

NOT RECOGNIZABLE

And following this the rectangles shifted and swirled again, and a different head appeared, more vague even than before and yet evidently that of a woman. It turned from full face to profile once, twice, and then suddenly was gone.

None of the images was so distinct as to be surely recognizable to people who knew the sitters, though Capt. Hutchinson felt that he would probably have known that Fox was on, even if he had not been warned in advance.

They were not, for instance, anything like as clear as the images carried from Washington to New York last year by the American Telephone and Telegraph Company. But that was done by wire instead of radio and only over a distance of slightly more than 200 miles. They were comparable to the visions brought in at the A. T. & T. demonstration by air, from no farther away than New Jersey. The vision of the dummy, in fact, was clearer than those, but the moving faces were not so strong.

WEST END BOY SCOUTS HOLD ANNUAL BANQUET

The eleventh annual banquet of Troop No. 87, Boy Scouts of America, will take place in the West End Presbyterian Church this evening. The Rev. A. W. Renton will be among the speakers. Melvin Case will act as toastmaster.

URGE WEST END BRIDGE BONDS

The Citizens' Committee on City Plan, in letters to the county commissioners, have asked that $2,500,000 be set up in the forthcoming county bond issue for the construction of the proposed West End-Ohio River Bridge. The committee also asked that the commissioners classify all contemplated improvements to be submitted to the voters into two groups, as follows:

Group one—Projects which serve the community as a whole, and which can be so demonstrated upon an official general plan.

Group two—Projects which are designed to serve, or the major benefits of which will be reflected upon, a more limited portion of the population, a limited geographical area, or perhaps only a limited number of property owners.

The committee urged that thorough information on contemplated improvements should be given the voters before they are asked to ballot on the bond issue.

The commissioners will discuss the proposals at a meeting next Tuesday.

THIEVES LOOT GARAGE, SHOP

Automobile accessories and tools valued at $30 were stolen from the Boyd & Sperling Garage, Perrysville avenue, yesterday, by thieves who forced a rear door. Detectives also were notified that several boxes of candy had been stolen from the Johnson Candy Shop, Federal street, and that an attempt had been made to enter the Wormser Hat Store, also in Federal street.

George Jessel and Ben Hecht Working on Play to Follow "The Jazz Singer" Next Year

By GEORGE SEIBEL.

GEORGE SEIBEL

THEY were playing pinochle in George Jessel's dressing room between the matinee and the evening performance of "The Jazz Singer." With a smile Mr. Jessel explained, "It's to keep up the atmosphere." He is not a cantor's son; he was not a black-face comedian before he found this play; and in fact, he is quite a different person from the Jack Robin seen on the stage, except that he is just as good-natured and boyish. And he is little more than a boy, though he has been on the stage 16 years—he is now only 29. Born in New York, of parents who came over from England, and named after Sir George Jessel, who was Queen Victoria's law advisor, young George drifted on the vaudeville stage as a mere youngster, and played in all kinds of acts—but finally found that home scenes and mother love furnished the happiest background for his peculiar gifts.

One of his playlets was called "The Jazz Singer and His Ma." So when he read the story of "The Day of Atonement," in Everybody's Magazine, and decided that here was the plot for an excellent vehicle in the legitimate, the title was ready and only required abbreviation. The rest of the performance was not ready, for he had to learn all the Hebrew melodies, never having had the advantages of little Moey in the play.

"'The Jazz Singer' was a fine vehicle to ride into the legitimate," said Mr. Jessel, "but I wish to have something still better next season. It is my hope and ambition to find better and better plays. I shall not go into the movies or vaudeville, because I really believe the preachments of old Cantor Rabinowitz about money. Ben Hecht, whose novels I admire very much, is at work on a play with me which we expect to have ready by next fall. 'Salute', is to be its title, and it will show the disintegration of a family through the war. How all its members go to pieces in the crash of human sympathies and ideals that follows a debauch of blood! Mr. Hecht and I hope to present a true picture that will touch the hearts of people. That means more to me than big money from the movies. That is why I'll not play in the movies except during the summer, when the theaters are closed."

George Jessel really means that. The few pictures in which he has appeared have been mid-season ventures. He is not only actor, but also manager of his company; he sees to the bookings and many details. Perhaps he even dictated that pinochle game in his dressing room to keep the Temple Choir in tune for the Kol Nidre.

Artists of Big Concert

JEANETTE VREELAND, soprano; Henri Verbrugghen, conductor, and Nevada Van der Veer, contralto, soloists and conductor in the concerts to be given by the Minneapolis Orchestra and Mendelssohn Choir Friday night and Saturday afternoon in Syria Mosque.

STUDENT VAGABONDS ENGAGED FOR SANDERS'

The Student Vagabonds Orchestra has been engaged to play Saturday night at Sanders', on the Freeport highway, Aspinwall. This is the third engagement of the Student Vagabonds at Sanders' this season. Specialties and individual novelty effects by members of the Vagabonds are to be featured Saturday night.

STAGEFEATURES MUSIC, FUN

"The Student Prince" will be seen in the Alvin for five days, beginning next Tuesday. In the cast are Ilse Marvenga, DeWolf Hopper and Sudworth Fraser. The sale of seats begins today.

Opening Monday evening, February 13, Eddie Dowling comes to the Nixon in the musical comedy, "Honeymoon Lane," with the New York Knickerbocker Theater cast of 100. Seats are on sale in the box office of the Nixon.

Anne Nichols' comedy, "Abie's Irish Rose," will begin the second and final week of its engagement in the Pitt next Monday evening. This comedy will play a matinee today at the Pitt. Seats are on sale for the second week.

Nazimova will appear in the Davis next week in "India," a playlet. On the screen will be H. B. Warner in "French Dressing."

Jeanne Eagels makes her first bow as a screen actress with John Gilbert in "Man, Woman and Sin," to be shown in the Penn next week.

Among the vaudeville attractions in the Sheridan Square the last half of this week is Fred Heider and the Green girls. The screen feature is Irene Rich in "Beware of Married Men."

The stage feature in the Grand next week will be the Horlick Ensemble, a group of eight agile dancers. On the screen will be shown Richard Barthelmess in "The Patent Leather Kid."

Nick Altrock and Al Schacht, famous baseball clowns, will appear in the Harris next week in their travesty on popular sports. Other acts and a screen feature, "Blood Will Tell," with Buck Jones, will be shown.

Viola Elliott comes to the Academy next week in "French Models."

"Hello, America" is the burlesque in preparation for presentation in the Gayety next week. It is interspersed with bits of musical comedy and comedy skits.

"The Jazz Singer, starring Al Jolson, will be on view in the Olympic next week. Beginning with the Vitaphone overture, the entire action of the play is synchronized with the music.

Patsy Ruth Miller and Glenn Tryson are co-starred in "A Hero for a Night," to be shown in Loew's Aldine next week.

WARMACK ALGERIANS DANCELAND FEATURE

Capt. Warmack and his Algerians played last night in Danceland, in the Olympic Theater Building. This jazz band mixes original specialties and tricks with popular tunes, staging and elaborating a number so that it becomes a novelty. Capt. Warmack and his band are here for the week. There is dancing every evening.

BASES FOR KEYSTONE ATHLETIC BUILDING SET

Setting of base plates for the steel columns of the new 21-story Keystone Athletic Club, Third avenue and Wood street, has begun. By the end of this week the foundation work will have been entirely completed. Excavation for the enclosure walls was started yesterday.

ORCHESTRA PROGRAM SUBJECT OF TALK

RECIPE TO CLEAR A PIMPLY SKIN

Pimples Are Impurities Seeking An Outlet Through Skin Pores.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate; then the blood uses the skin pores as the next best means of getting rid of these impurities, which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of water each morning before breakfast for one week. This will help prevent the formation of toxins in the bowels. It also stimulates the kidneys, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually helps make pimples disappear.

The GENERAL MOTORS Policy *of* Progress

In the past thirty days General Motors has introduced three new automobiles—the new Pontiac, the new Oldsmobile, the new Chevrolet.

In the past twelve months the new Buick has appeared, as well as the new Oakland and the new Cadillac; while the La Salle, a wholly new creation, has taken its place in the General Motors line.

Such a year's record, accomplished with no interruption in production, furnishes a fitting occasion for reaffirming General Motors' fundamental policy, leadership in quality through continuous improvement.

General Motors believes that the benefits of engineering advancement should be given to the public as soon as perfected.

This policy of progress has made it possible to provide continually better automobiles at lower prices. And in working out this policy, General Motors has extended its activities until it has become an important factor in the prosperity of the entire nation.

General Motors' activities are carried out in every section of the land. In the north and south it logs and mills its own lumber. In the east it makes its own ball bearings and radiators. In the middle west it produces its own plate glass. All over the country huge plants are busy—for manufacturing operations are carried on in thirty-three American cities.

From almost 5,000 outside suppliers, each a specialist, General Motors obtains materials: steel by the hundreds of thousands of tons—wire by the tens of thousands of miles—upholsteries by the acre—nuts, bolts and washers by the millions. The sale and service of its products take place through 33,000 dealers. All told, over 275,000 families look directly to General Motors for their livelihood—almost a million and a half men, women and children in every walk of life and in every community in the land.

The General Motors policy of progress includes not only the development of continually better automobiles at lower prices but also the manufacture of a car for every purse and purpose. In adherence to this policy, there is provided a diversity of models to satisfy every individual preference.

Cadillac
Twenty-six models ranging in price from $3295 to $5500 f.o.b. Detroit.

LaSalle
Eighteen models ranging in price from $2350 to $4700 f.o.b. Detroit.

Buick
Sixteen models ranging in price from $1195 to $1995 f.o.b. Flint.

Oakland
Seven models ranging in price from $1045 to $1265 f.o.b. Pontiac.

Oldsmobile
Seven models ranging in price from $925 to $1085 f.o.b. Lansing.

Pontiac
Six models ranging in price from $745 to $875 f.o.b. Pontiac.

Chevrolet
Seven models ranging in price from $495 to $ 715 f.o.b. Flint.

All with Body by Fisher

Meaning so much to so many people, General Motors has felt duty bound—*to look ahead with an open mind!*

Are there new methods by which General Motors cars can be better built to better serve?

Are there new ideas which can increase the pleasure and safety of motoring?

Are there new materials which can add to owner satisfaction?

Such are the questions that all General Motors engineers have always asked themselves.

The answers have made it possible for General Motors, year after year, to offer an increasing measure of modern design, modern performance, riding comfort and distinctive style in all its automobiles.

And through the liberal payment terms and low financing charges of the General Motors Acceptance Corporation, these advantages have been made available to the largest possible number of people.

Thus in every price class, from Cadillac to Chevrolet, purchasers of automobiles are constantly benefiting from the General Motors policy of progress.

BASES WILL ON INTESTATE LAW

Anna Eliza Lynch, late of McKeesport, directs in her will that her $10,000 estate be given to heirs under the intestate laws of Pennsylvania.

Chroline Grimm, late of the South Side, gave $8,800 estate to her two nieces and two nephews.

Mrs. Mary E. Miller, late of Emsworth, bequeathed her estate, valued at $12,000, to her son, George T. Miller, and to her daughter, Lottie M. Sterrett, in equal shares. She made small bequests to grandchildren.

WINS $1,750 FOR ANTIQUES

Frances Clapp Hall, of Bigelow boulevard, won a $1,750 verdict in Common Pleas Court today against John H. Ericke, furniture upholsterer, who was charged with failing to return certain antique chairs sent him for repairs.

The plaintiff asked damages of $4,725. She asserted Fricke had failed to return a genuine Chippendale chair valued at $2,000, one genuine Sheraton chair valued at $1,500 and other antiques.

OAKMONT COUPLE ASK COURT TO CHANGE NAME

John Michael Grazulavicz and Mary Grazulavicz, 909 Allegheny avenue, Oakmont, have filed a petition in Common Pleas Court asking permission to change their names to John Graid and Mary Graid. Judge Richard W. Martin fixed April 19 for a hearing.

LEGION PROBES TWO ARRESTS

JOHNSTOWN, Pa., Feb. 9.—The American Legion Post at Portage has begun an investigation of the arrest of Mrs. Frank Bauwens, "a gold star mother" of Portage, and her 21-year-old daughter by state police on Monday.

The two were arrested on a disorderly conduct charge while watching a picket line of union strikers, and were fined $48 by a local alderman.

Tired people . . .

SO MANY women, so many men, can't last through the day. Even mid-afternoon finds them listless and spent. Hopelessly tired. Work, home — life itself — holds little for them.

What a difference it would mean if they but realized the part constipation plays in ruining health and sapping human energy. Constipation is the beginning of many a pain—that leads in the end to untold diseases. It steals youth. Mocks beauty. Kills ambition. Spreads misery far and wide.

Yet it can be so easily relieved. So surely and safely prevented. Kellogg's ALL-BRAN is guaranteed to relieve it promptly and pleasantly. To prevent it ever beginning its deadly work.

Why "all-bran" is necessary

To relieve constipation *naturally*, the system must have plenty of bulk or roughage. ALL-BRAN, because it is 100% bran, furnishes this bulk in generous quantity. Here is what happens: It absorbs moisture and carries it through the intestines — exercising them, gently sweeping out poisons and wastes. There is seldom enough bulk to properly do this work in a part-bran product. That is why doctors recommend Kellogg's ALL-BRAN. It is 100% bran and produces 100% results.

Farewell, dangerous drugs

How much better is ALL-BRAN than habit-forming pills and laxatives—whose dose must be constantly increased to remain effective. Kellogg's ALL-BRAN is a pleasant cereal food. Contains valuable minerals that help build strength and health. Don't you agree that it is far safer and far better to correct constipation in this natural, healthful way than to risk pills, drugs or part-bran products?

Kellogg's ALL-BRAN is delicious with milk or cream—with fruits or honey added. Use it in cooking too. Recipes on every package. Sprinkle it into soups. Mix it with other cereals. Just eat two tablespoonfuls daily—chronic cases, with every meal.

But insist on genuine Kellogg's—the original ALL-BRAN. Don't risk part-bran substitutes which, at most, can prove but partially effective. ALL-BRAN is sold by all grocers. Served in hotels, restaurants. On dining-cars. Made by Kellogg in Battle Creek.

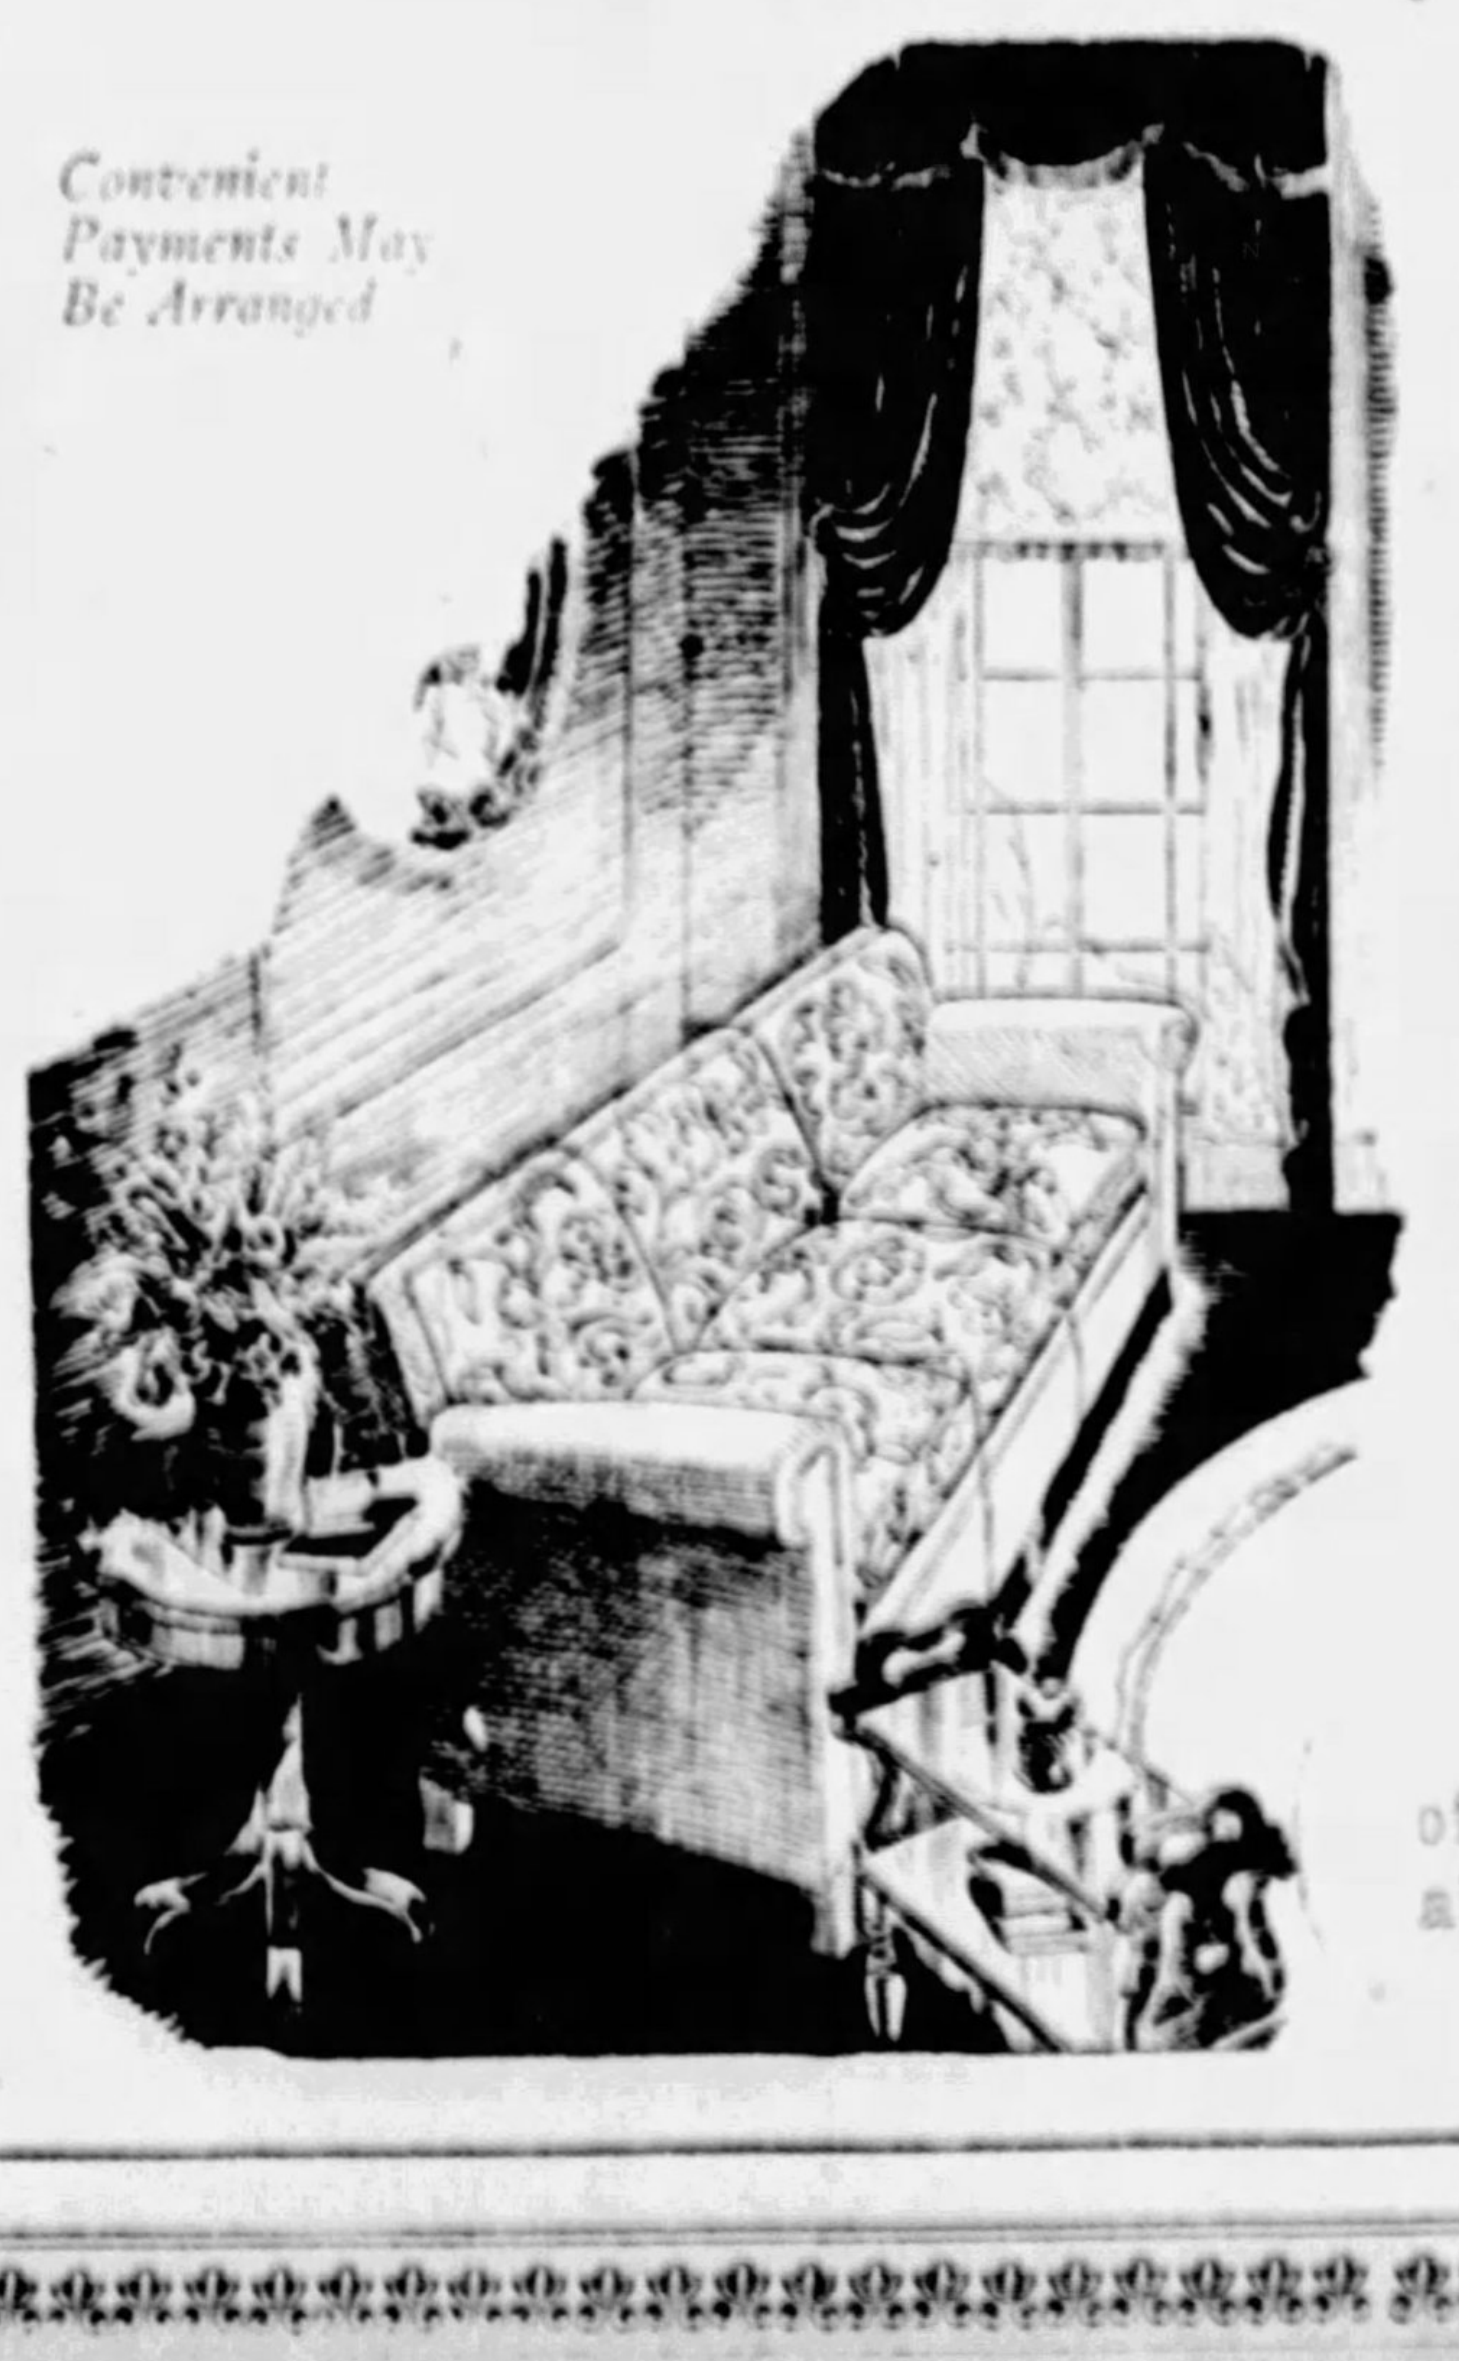
Comfort Is a First Consideration In McCreery Furniture

Convenient Payments May Be Arranged



Furniture may be graceful and neat and yet be luxuriously comfortable. It's all a question of construction—and of the quality of materials that go into the construction.

For example, the Lawson Davenport illustrated here. It is conservatively proportioned—ideal for the small modern home; its lines are simple; it doesn't look cumbersome . . . But sit on it! It yields generously to every contour—it typifies the comfort built into all McCreery upholstered pieces.

The Lawson Davenport may be had with down cushions and down back; with down cushions and spring back; or with spring cushions and spring back. Your choice, too, of many coverings—denim, sateen, frieze, brocatelle, damask, tapestry or mohair.

The February Selling Now—Our Entire Stock Is Reduced

The Lawson Davenport is only one of the hundreds of quality pieces available this month at lowered prices.

PATRICIA PITT'S SPRIGHTLY COMMENT ON PITTSBURGH SOCIETY HAPPENINGS

With Social Season Here Ended, Debbies Seek Eastern College Proms as Means of Gaiety

THESE college proms are the means of attracting quite a few of our girls eastward, and two or three of the debutantes are there now for various dances. Suzanne Trimble, daughter of the Harcourt Newell Trimbles, of Beechwood boulevard, who came out this season, you will remember, has been visiting in New York and Boston, and yesterday she left for Williams College, Williamsport, Mass., for the junior prom. After the dance Suzanne is planning to go to Lake Placid with the Arthur Stouts, of New York, and their daughter, Elizabeth, to stay there until after Washington's Birthday. Elizabeth is one of the season's buds, too, and she came on here for Suzanne's coming out dance on Christmas Eve. Mrs. Trimble, who was also visiting in the East with Suzanne, came back home on Tuesday.

Another debbie who is in the East for a college dance is Harriet Ramsburg, daughter of the Charles D. Ramsburgs, of Sewickley. Harriet left Sunday night for New Haven, where she went to the Yale junior prom, and is now spending a few days with Judith Hamlin in New York. Then, to span the continent, she, with her mother and her sister, Margaret, will leave on Monday night for La Jolla and San Diego, Cal. They are going to spend some time motoring through California.

An engagement that is interesting to many Pittsburghers is announced today in the betrothal of Mary Muriel Snyder, daughter of Mrs. H. Kilbourne Snyder, of Fifth avenue, to Murry Verner Jennings. Verner Jennings is the son of the late Edward H. Jennings and Mrs. Jennings, of Pittsburgh and Lakewood-on-Chautauqua, New York. They have not set a definite date for their wedding.

* * *

The Ellen Stone-Charles Chester Bailey wedding was yesterday's outstanding social event, taking place at 5 o'clock in the Sixth Presbyterian Church. Of course you know that Ellen is the daughter of Judge and Mrs. Stephen Stone, of Forbes street, and her husband is a son of the late Mr. and Mrs. Charles Bailey, of Oakmont. The ceremony was performed by the Rev. Dr. Henry H. Forsyth, pastor of the church, assisted by the Rev. Dr. Edgar Jones, rector of St. Thomas' Memorial Church of Oakmont, and was followed by a reception at the house.

* * *

Ellen's gown was a charming one of white satin made in bolero effect and embroidered with pearls. Her veil of tulle and rose point lace was caught with a cap of the lace and orange blossoms, and she carried white lilacs, silver wedding roses, Cattleya orchids and lilies of the valley.

Her sister, Marian, was maid of honor, and her frock was of coral with a draped skirt. With it she wore a small felt hat to match, and she carried butterfly roses, fresia and silver wedding roses. The matrons of honor, Mrs. Sydney Stewart and Mrs. James Shirley Austin, also Ellen's sisters, had gowns in a slightly deeper shade of coral, and they carried Dresden bouquets. And, carrying out the same color effect, the bridesmaids' dresses were in a quite deep shade of the coral. The girls included Ellen McClay, Elinor Munroe and Martha Green, of Pittsburgh; Cassandra Stewart, of Baltimore; Dorothy Vilas, of Chicago, and Ruth Jones, of New York.

Wilson Bailey was his brother's best man and the ushers were James Shirley Austin, Sydney Stewart, Morris Scott Verner, Jr., Maxwell McCreery and Alexander Johnson Robertson, all of this city; Howard Levi, of Evanston, Ind.; Thompson Morris Wakeley, of Chicago; Roger Wolcott Hooker, of Niagara Falls, and Howard Stanley Judd, of New York.

The young Baileys have left for a trip and when they come back they will live in Pittsburgh.

* * *

The George S. Batons, of South Graham street, who have been at the Hotel Huntington, Pasadena, Cal., for some time, report that there have been heavy rains and uncommonly warm weather out there and that these have combined to make the orange blossoms and apricot orchards blossom early.

* * *

Grandview Review No. 232, Woman's Benefit Association, will hold a card party tomorrow night in its hall, Oneida street and Grandview avenue, Duquesne Heights, for the benefit of members living in the mine district of Castle Shannon. Mrs. Emma Wayman, Mrs. Gertrude Walsh, Mrs. Anna Mears and Mrs. Martha Lindsay comprise the committee in charge.

* * *

Under the auspices of Green Lizard Swamp No. 1, a card party is to be given February 21 in the Elks' Temple, Duquesne way. Bridge, "500" and euchre will be played. Mrs. John Rieseck is general chairman.

* * *

The New Century Band of the First Presbyterian Church will celebrate its twenty-second anniversary Monday night in the church. The pastor, the Rev. Dr. C. E. Macartney, will speak and Will Rhodes will sing. The girls of the band are to present an Indian play, "Two Thousand Miles for a Book."

* * *

Mrs. Ruth Denny of Howe street announces the engagement of her daughter, Miss Ruth Emily Seaman, to Thomas McNeil IV, son of Thomas McNeil III of Pittsburgh. The engagement was announced Tuesday at a bridge luncheon given by Miss Seaman in her home. The wedding will take place in March.

* * *

Mr. and Mrs. E. M. McCreary of New Castle have announced the marriage of their daughter, Miss Genevieve McCreary, and Dr. Herbert F. Weide, which was solemnized last Saturday morning in the McCreary home by the Rev. S. L. Maxwell, pastor of the Epworth Methodist Episcopal Church. Miss Elsie Craig Simpson of Bellevue was maid of honor and Alex Thompson of this city was best man. Mr. and Mrs. Weide motored to New York, where they will make their home. The bride has been a teacher in the South Hills High School.

* * *

The Kathryn Mae Joyce Post, American Legion, is to give a card party tonight in Sacred Heart Guild Hall, Center avenue. Mrs. P. J. Logue is general chairman.

* * *

Mrs. Maud F. Langguth is general chairman for the ninth birthday dinner dance to be given tomorrow night in the Hotel Schenley by Victory Chapter No. 237, O. E. S. Mrs. Mary B. Middlesworth is chairman for the dance, assisted by the officers.

STATE SCHOOL HEAD TELLS OF PROBLEMS

Some of the major problems of education in Pennsylvania such as attendance, buildings and equipment, teachers and distribution of state money, were discussed yesterday by Dr. John A. Keith, state superintendent of public instruction, who styled himself "the slave de luxe of Pennsylvania." Dr. Keith was addressing a luncheon meeting of the departments of legislation and education of the Congress of Clubs, a gathering that had an overflow from the second floor to the dining room below.

"To get into school all the folks who ought to be there and to keep them there as long as they ought to stay," was Dr. Keith's first topic. The housing and equipment are problems of the first magnitude, he declared, drawing word pictures of sadly inadequate and even dangerous school buildings. "For hours," the school head said, "I could tell of conditions in the Pennsylvania school system that would make you ashamed of your citizenship." He declared the need for well-prepared, relatively mature school teachers to be greater than ever before, but the sore thumb of the situation, he said is the uneven and unjust distribution of state money.

Others who spoke briefly were Dr. C. R. Foster, president of the State Teachers' College, Indiana; Dr. Ernest Noyes, assistant superintendent of county schools; Dr. C. R. Hoechst, director of extension education in the city; Dr. Freeman Guy, superintendent of Bellevue schools; Mrs. Mary J. Cowley and Mrs. Frederick B. Chalfant, of the Board of Education; Frank C. Harper, Pittsburgh journalist; John H. Adams, principal of Perry High; Dr. Benjamin Graham, representing Dr. William M. Davidson; Miss Martha Hoyt, of the Frick Educational Commission, and Miss Louise Blessing and Miss Bertha B. Law, of the Principals' Club.

The music was furnished by Sidney Rosenfeld, violinist, accompanied by Miss Sarah Josephson, and Mrs. Elsie Breese Mitchell, who sang a group of new songs with Mrs. Henrietta M. Bodycomb at the piano.

"Ever Young" and "The Romance of the Willow Pattern" are the two plays chosen for presentation by the drama section of the Wilkinsburg Woman's Club Friday night, February 17, in Masonic Temple. In the cast of the first play will be Mrs. Lester K. Sprowls, Mrs. Henry Chalfant Miller, Mrs. W. C. Graham and Mrs. J. C. Ackerman, while the second will be given by Mrs. James I. McLallen, Mrs. W. E. Brinker, Mrs. John Euwer, Mrs. Louis P. Gowans and Mrs. H. E. Carmack. Mrs. Q. W. Hershey is coaching the plays and Mrs. L. S. Kerchner is chairman of properties and costumes.

Gives Your Hair Unusual Beauty

The attractiveness of even the most beautiful women depends upon the loveliness of their hair.

Fortunately, beautiful hair is now easily obtained. It is simply a matter of shampooing.

Proper shampooing makes the hair soft and silky. It brings out all the real life and lustre, all the natural wave and color, and leaves it fresh looking, glossy and bright.

While your hair must have frequent and regular washing to keep it beautiful, it cannot stand the harsh effect of ordinary soaps. The free alkali in ordinary soaps soon dries the scalp, makes the hair brittle and ruins it.

That is why discriminating women, everywhere, now use Mulsified Cocoanut Oil Shampoo. This clear, pure and entirely greaseless product brings out all the real beauty of the hair and cannot possibly injure.

Two or three teaspoonfuls of Mulsified is all that is required. It makes an abundance of rich, creamy lather which cleanses thoroughly and rinses out easily, removing every particle of dust, dirt and dandruff.

It leaves the hair soft, silky and easy to manage and makes it fairly sparkle with new life, gloss and lustre.

You can get Mulsified Cocoanut Oil Shampoo at any drug store.

A four-ounce bottle lasts for months.

'PAL' MARRIAGES DEBATED HERE

If Judge Ben B. Lindsey's companionate marriage plan were legalized and functioned as the noted expert on domestic relations believes it would, it would be a leap toward civilization's milenium,

But if it worked out as the Rev. Dr. Albert E. Day, pastor of Christ Methodist Episcopal Church, is sure it would, legalization of Judge Lindsey's plan would rock and rend the foundations of church, state and society.

And so an audience that filled Carnegie Music Hall last night to hear the two debate on the topic, "Should the Companionate Marriage As Advocated by Judge Ben Lindsey Be Legalized," saw the white and black of the proposition painted and perhaps some saw their white or black blend into gray. Most of them, it was evident, however, left with the same opinions on the subject as they entertained before hearing six, birth control and marriage relations generally discussed frankly, freely and at times humorously.

Judge Lindsey, in his opening remarks, called attention to a full explanation of his companionate marriage theory which will appear in a special series of articles, the first of which by him, will appear in Sunday's Sun-Telegraph. C. C. Cooper of Kingsley House was chairman of the debate.

A "bootleg" brand of companionate marriage, harmful to society, is one of our best established institutions, and is founded on "bootleg love, bootleg birth control, bootleg sex information and bootleg education at the corner drug store and bootleg divorce," Judge Lindsey contended. He would substitute for present divorce laws legislation permitting divorce by mutual consent after experts in sociology had made efforts to reconcile those who seek divorce, and would provide birth control clinics and sex education.

The falling off of marriages among young persons because of economic and social conditions which the companionate marriage would remove, Judge Lindsey declared, is one of his biggest arguments for the plan. He contends that all of the beautiful sentiment associated with the marriage vow can be retained and is not endangered.

Dr. Day held the companionate marriage was not a remedy for the marriage problem, but a surrender to them. He contended that science has established that early marriages are undesirable and advocated sublimation of the sex impulse rather than its cultivation.

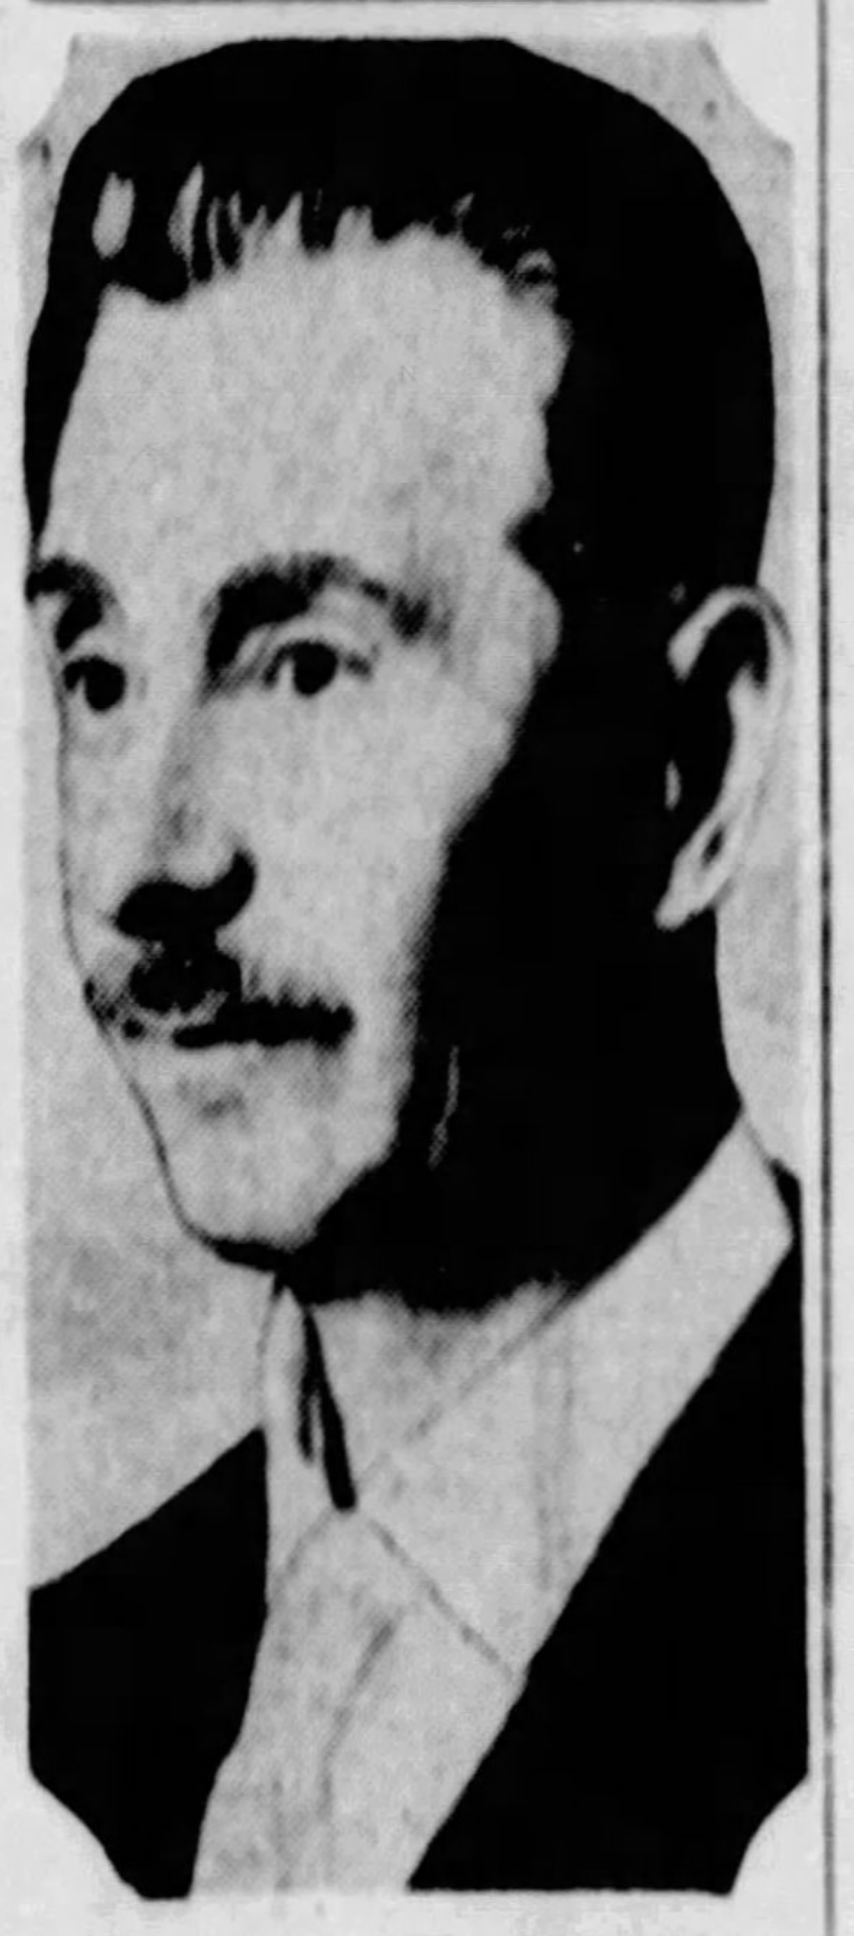
Heeds Call



REV. ALFRED JOHNSON

WALKOUT LOOMS IN ILLINOIS

CHICAGO, Feb. 9.—(AP.)—Another suspension of bituminous coal mining in the central competitive district by April 1 was the gloomy outlook of operators and miners today, unless renewed efforts to settle wage differences have more success than those just concluded.

The final meeting of the joint commission of miners and operators yesterday resulted in a deadlock when operators refused to deliberate further except on a plan of arbitration. The miners asked that the conference be continued until their international president, John L. Lewis, could reach here.

Operators insisted upon a wage reduction that would enable them to compete with non-union mines of Kentucky and and West Virginia. The miners refused to budge from the present contract with a scale of $7.50 a day or $1.08 a ton on a weight basis. A counter proposal of $6 per day and 84 cents a ton was rejected.

The threatened suspension April 1 would be a resumption of that which started April 1, 1927, over the same differences. A temporary agreement, signed in September, with the Jacksonville scale in effect, automatically terminates April 1.

PADLOCK CASES HEARD

Two contempt of court proceedings were heard by Judge James R. Macfarlane in Common Pleas court yesterday, in which four defendants were accused of violating a "padlock" order of the courts, ordering them to close their premises for a year and refrain from selling or dispensing liquor.

The defendants are Ernest Petersen and Eugene Roalman, of 4901 Penn avenue, and Martin Markowski, alias Walter Markowski, and Stanley Scultyck, of 4760 Liberty avenue. Disposition of the cases will be made later.

LECTURES ON LABRADOR IN CARNEGIE MUSEUM

"Cruising the Canadian Labrador" is the subject of a free lecture to be given this evening in Carnegie Museum Lecture Hall by Howard H. Cleaves, internationally known as a successful hunter with the camera. In this lecture he will tell of his trip to Labrador last summer, weaving among islands in a small boat for hundreds of miles; calling at Hudson's Bay posts, picturesque little fishing settlements, or the Grenfell Mission; stopping at bird colonies remote from civilization; swinging close to towering, blue-white icebergs.

NAB MAN HERE FOR PHILADELPHIA FRAUD

Arrested in the downtown district as a fugitive from justice yesterday, P. J. Scanlon, an insurance agent, of Philadelphia, will be returned to that city today to face a charge of fraudulent extortion of $15,000. He was arrested by Constable John Magee from the office of Alderman George J. Anderson.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist.

SPECIAL PURCHASE

jap weasel fur coats

$285 REGULARLY $500

$385 REGULARLY $600

Not a great quantity—but a value that we didn't believe possible—the "buy" of the season—you'll be quick to agree when you see them.

A telephone message from the store's fur buyer from New York advised that he had somehow discovered and captured this lot of coats—just 35 in all—Jap weasels—superior in every respect—and that the story should be rushed into the paper "post haste"—still in time for a big part of this winter—and for a good long time to come.

Coats from the very finest stocks of Jap Weasel — well under the drastic price cuts generally made on tag-end clearance lots. And these, remember, are spic, fresh, new coats — unpacked yesterday — beautiful full, fluffy pelts—self trimmed or with fox. Your choice of the two lots—regular $500 quality coats for $285—regular $600 coats for $385.

Hudson Seal (dyed muskrat) Coats in good selection also included at both these sale prices—all ready for you at 9 o'clock tomorrow morning — $285 and $385.

LINDBERGH DWARFS PARLEY

By International News Service.

HAVANA, Feb. 9.—A great international conference between the republics of North, Central and South America may be going on here today, but Havana and, indeed, the whole island of Cuba had eyes only for one man—Col. Charles A. Lindbergh.

The flush of Havana's magnificent welcome to the flying colonel has not worn off an iota and today everyone from the Cuban citizens to the officials and their own and sister governments rushed to do honor to the "caballero del aire" and to gather in cheering crowds wherever it was reported Col. Lindbergh might be seen.

HONORED AT LUNCHEON

At noon today Col. Lindbergh was honored at a luncheon given by the officers of the Cuban army at Camp Columbia. Later he was to go to a ball at the Yacht Club at which most of the delegates to the Pan-American Conference will be present.

The newspapers today were filled with Col. Lindbergh's doings and printed editorials on his achievements as an emissary of good will.

The general city-wide reception to Col. Lindbergh as he dropped from the sky yesterday afternoon after completing his flight from Haiti in perfect time was something which will be remembered by every Cuban.

As the Spirit of St. Louis was sighted from the historic Morro Castle, the last stronghold of old Spain, sirens screamed, whistles shrieked and the horns of automobiles and the bells of street cars filled the air.

HONOR "MA LINDY"

After the reception at the field, a motor procession was formed to escort Col. Lindbergh to the presidenial palace, where President Machado greeted him officially. In his greeting, President Machado included one for Mrs. Evangeline Lindbergh, the aviator's mother. It read:

"To your good mother, who awaits you with open arms, say in our name that her son discharges a great mission of love and peace, and that we, as also the other countries you have visited, owe her sincere acknowledgement for having brought to the world a person who has done so much for brotherhood among all peoples.

"Tell her that our hearts feel for her and that in my person Cuba sends her its love and admiration."

HERO WORSHIP RAMPANT

All Cuba was hero worshiping today for the tall, tousled haired young man who has brought the greater part of the civilized world to his feet in admiration.

Second in interest to Col. Lindbergh was his famous plane, the Spirit of St. Louis. Before leaving Columbia Field the young airman saw to it that the machine was safely housed. A special guard of troops is protecting it from souvenir hunters.

One of the most interesting achievements on Lindbergh's part to Latin-Americans is his ability to arrive on schedule. Will Rogers, American humorist, said while he was here for the opening session of the Pan-American Conference:

"If Lindy says he will be in Siberia at 3:30 he will get there at 3:29."

Col Lindbergh was due here at 4 o'clock. He arrived at 3:45.

COUNTY-WIDE SAFEGUARDING OF MILK SOUGHT

TEST MILK IN PLANT

Plants for the treatment of milk supplied to Pittsburgh and its suburbs are subject to rigid examination by city inspectors, and efforts for the same safeguards for borough and township consumers are being made by Dr. John R. Conover, Allegheny county medical director.

LOOKING FOR TYPHOID GERMS

Samples of milk from Allegheny county dairies subject to examination in the laboratories of the State Department of Health. Tainted milk is responsible for tuberculosis, scarlet fever, diphtheria and the familiar typhoid fever, epidemics of which are often traced to dairies where contamination takes place. Dr. Conover asked the county for $5,000 to start a fund for inspection, the cost to be shared by the new inspection districts.

$10,000 DOGS DROWN AS RAINSTORM FLOODS ROOM

By Universal Service.

NEW YORK, Feb. 9.—When the Westminster Kennel Show opens in Madison Square Garden, it will be shy $10,000 worth of dogs—two pugs, three Pomeranians, one wire-haired terrier, two Scottish terriers and one Pekinese.

The dogs were found drowned, or water-logged beyond help, in the exercise room of the American Dog Exchange, where they were being boarded pending the show. During the heavy rainstorm in the night, water had leaked in through a ventilator and had flooded the place.

JOHN WISSINGER, 92, DIES IN JOHNSTOWN

JOHNSTOWN, Pa., Feb. 9.—John Wissinger, 92, one of Johnstown's oldest residents, whose grandfather served as a drummer boy under George Washington in the Revolutionary War, died here today. His father died at the age of 102.

REBEL HEAD TO FORM CABINET FOR ROYALTY

LONDON, Feb. 9.—It is reported from Belgrade that King Alexander of Jugo-Slavia has entrusted to Stefan Radic the formation of a new cabinet. Radic only a short time ago was accused of heading Republican revolutionary activities.

PLUM TOWNSHIP INN RAIDED

Call Inn, a roadhouse along the William Penn Highway, was raided last night by Sergt. Vincent F. Bunch and a detail of state troopers, who say they found a slot machine and a quantity of liquor. Several pints of moonshine and some wine were seized, and the alleged proprietor, John E. Pallo, was arrested on charges of violating the Snyder act and keeping gambling devices. He will have a hearing before Justice of the Peace Thomas E. Mallisee of Plum township.

DELMONT INSURANCE MAN ROBBED OF $135

GREENSBURG, Pa., Feb. 9.—After he had spent the day making collections, G. E. Burnham, 40, insurance agent of Delmont, was held up by two highwaymen on a lonely road and robbed of $135 last night.

DOWNTOWN FIREMAN HURT

Fifty guests at the New Merchants Hotel, 415 Water street, were routed early this morning by a gas explosion that wrecked the interior of the barber shop in the basement of the building, causing damage estimated at $500.

Fireman Bartley Sullivan, of No. 30 Engine company, was cut and bruised when jolted from a fire truck while answering a still alarm sent in after the explosion. He was taken to the Mercy Hospital. The accident occurred in Water street near the hotel.

Angelo Frank, of 112 Climax street, who conducts the shop told police and firemen that he thought leaking gas caused the blast. There was no fire. Captain C. R. Irwin, of No. 30 Engine company, estimated the damage.

CLARK FREED IN OIL JURY CASE

By International News Service.

WASHINGTON, Feb. 9.—Sheldon Clark, vice president of the Sinclair Refining Company, was exonerated of the charge of contempt of court growing out of jury surveillance in the Fall-Sinclair mistrial today, when Justice Siddons sustained a motion of Clark's counsel to dismiss the rule against him.

"I think the evidence against this defendant is not comparable with that against the other defendants," said Justice Siddons, sustaining the motion of Clark's counsel, which contended that the evidence adduced by the government failed to connect him with the jury spying activities. "I could not send you to prison for contempt, because I am not convinced beyond a reasonable doubt of your guilt."

TWO WOMEN SEEK FREEDOM IN COURT

Libels in divorce have been filed in Common Pleas Court as follows: Lulu A. Huber, 5519 Walnut street, against Bernard I. Huber, 109 Continental street, cruel and barbarous treatment; Margaret Hotz, 1132 Woodlaid avenue, against Charles Hotz, 19 Strauss street, indignities to the person.

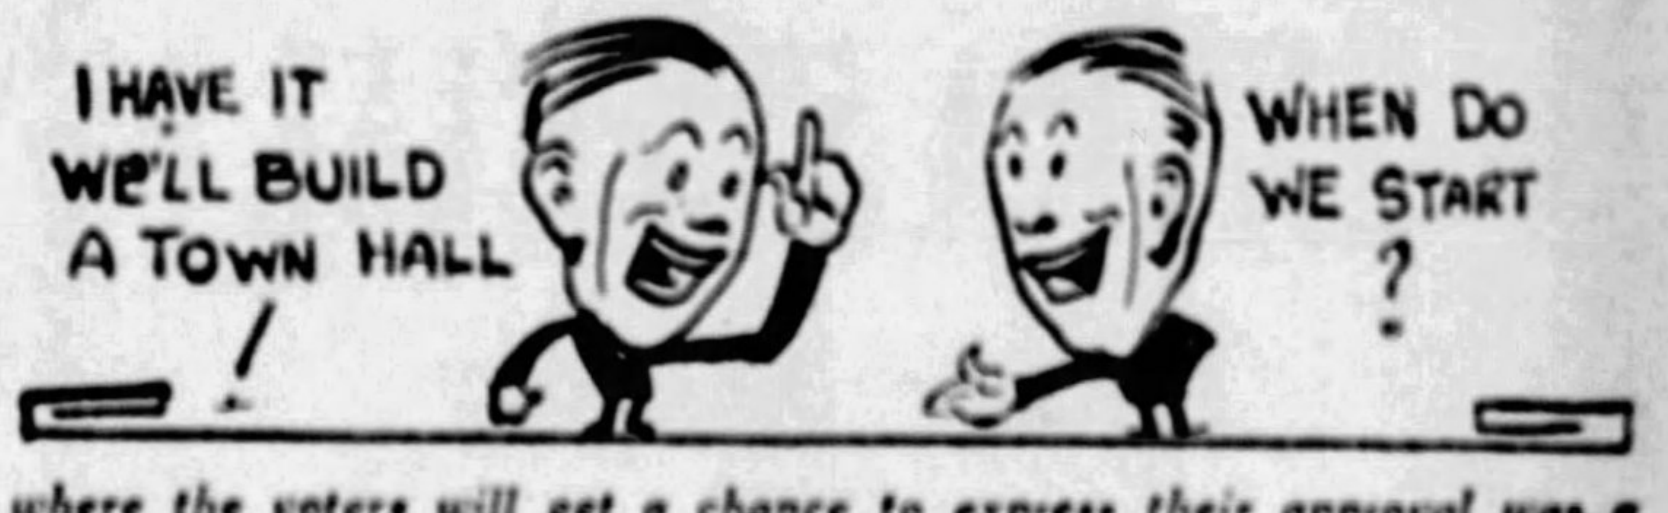
SIDEWALKS OF PITTSBURGH

by HAVEY J. BOYLE

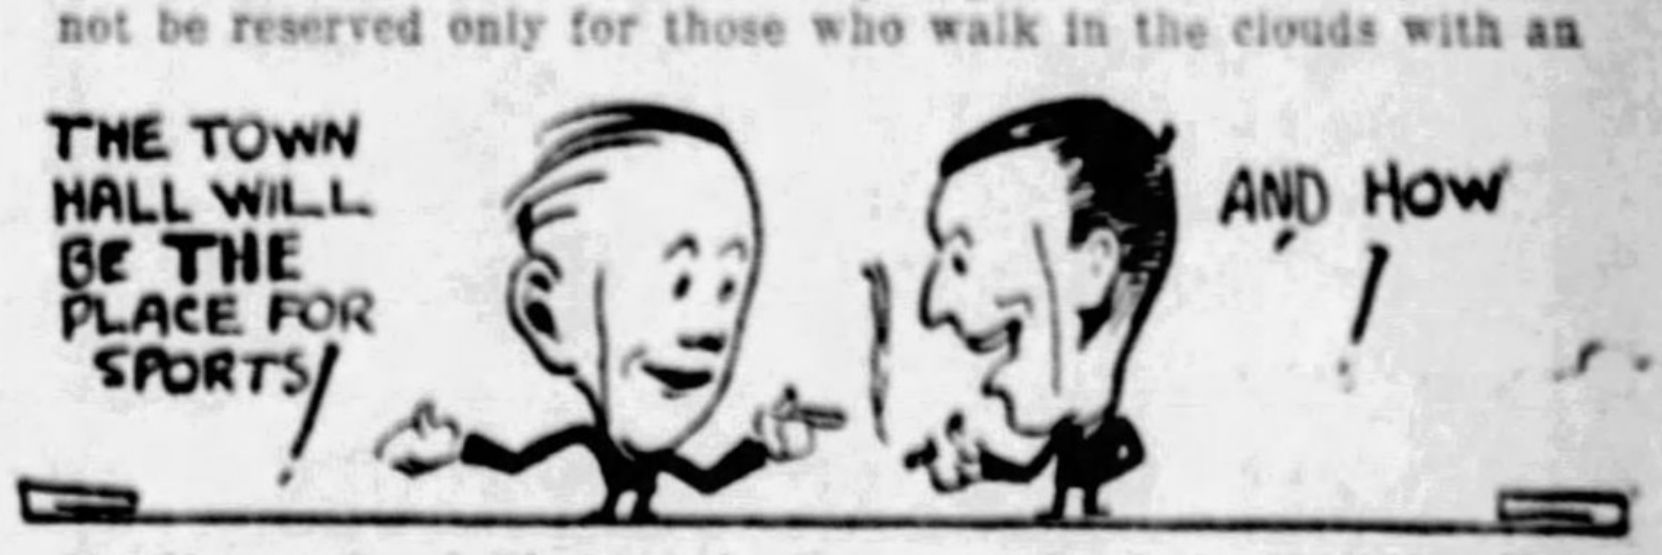
IN CIVIC matters we do not run a high temperature always, yet it seems here that of the enterprises launched to make Pittsburgh pleasanter the idea of a Town Hall is in Row One on the aisle. Great credit is due those gentlemen who conceived the idea for Pittsburgh several years ago, who have been diligently working up sentiment for it ever since. The banquet the other night to boost the project to a point where the voters will get a chance to express their approval was a move that carried the town hall ball within the shadow of the goal line. Only one or two more plunges, with the necessary cheering from the stands, will shove it over for the touchdown.



I HAVE IT WE'LL BUILD A TOWN HALL !
WHEN DO WE START ?

* * *

WHILE we are not one to lecture, it does appear that former colleagues in the sports world have not become as articulate over the town hall idea as they might. The town hall would not be reserved only for those who walk in the clouds with an ear for music of Olympus in the way of great concerts. Nor would the hall be given over only to enterprises that to some may seem a little dry.



THE TOWN HALL WILL BE THE PLACE FOR SPORTS !
AND HOW !

To the contrary, such important matters as basketball and boxing also would find a platform in the broad scheme.

* * *

FRIENDS of the town hall project, and in particular, we mean Wilmer Jacoby among others, may wonder whether stressing the sports possibilities in connection with the enterprise is good sales talk. As one who knows with what fervid interest a great many men, women and boys follow sports we see a chance in this way for just a little more strength in putting the idea over the goal line.

* * *

NATURALLY, we don't think that in the publicity there should be a shadowy outline of the architect's preliminary sketch with pictures of Bull Montana and Battling Levinsky in the foreground. Still, larger temples have been constructed through the medium of Lon Chaney's countenance. (Mr. Chaney is the movie actor who would use a bridge in pool to make the side pocket shots).

To win over to the idea of all shades of opinion, it seems here, to be a wise move to let those of us who like a little red meat in our amusement find a common ground with those who understand what color in music means and who understand still subtler of things of life which might be presented in a great town hall.

* * *

THERE is a chance there will be some little disagreement (not serious, however) over naming the hall. Perhaps a contest to determine an appropriate name would be in order. Contests sometimes bring great results. In a moment of inspiration, for instance, the local baseball park was called Forbes Field, possibly because it was so handy to Forbes street. Then a few of us remember the contest held in New York to name a theater in Brooklyn. A man named Werba put up the theater and after construction was finished came the time to name it. In a rare moment a contestant submitted "Werba's Brooklyn Theater" and such it has been called ever since.

* * *

THE location will be another problem, but it is a monument to the unselfish men who started the ball rolling that not once have they thought about any particular place. The important matter is to provide funds through a bond issue. After that, lesser points can be taken up. Personally, we favor Carrick. People in Bellevue may object to Carrick as a site for the Town Hall, yet by taking four street cars the Bellevue folk could reach the Town Hall in Carrick. And if they bought a weekly pass they wouldn't have to bother asking for transfers.

* * *

BUT no matter where it is, here goes an X for one of the finest ventures started here since we moved to Pittsburgh. "Local Boy Favors Town Hall," is passed along to the committee for whatever it is worth.

MONEY LOVE by BEATRICE BURTON

Lily Attends a Party at Sue Cain's House and Drinks Too Much

WHAT HAS GONE BEFORE

LILLY LEXINGTON, spoiled daughter of the CYRUS LEXINGTONS, is engaged to marry STALEY DRUMMOND, a rich bachelor much older than herself. She is fond of him, but realizes she does not really love him the day after she accepts him, when she becomes instantly and violently infatuated with a taxicab driver whom she sees down town when she goes to meet her chum, SUE CAIN. Forgetting all about Sue, she jumps into his cab and he drives her home. She learns that his name is PAT FRANCE and that he owns his own cab in a company headed by his friend, ROY JETTERSON. She marries Pat. Lily tried, and their domestic ship sailed smoother for a few months. One day Lily met SUE CAIN, an old friend, on the street. Sue invited her to a card party. Lily, without funds, went to a store and tried to charge some clothes to her father. She was informed her mother had left word that "Mrs. Patrick France could not charge things to Mr. Lexington." Drummond pays all her bills, she leaves Pat and goes back to her old friends at home.

NOW GO ON WITH THE STORY.

LILY caught bits of sentences as she made her way up the stairs to the dressing room. . . "We're going to Cuba for a month, just to get some good liquor for a change." . . . "Paid $300 for it, and all the beads came off." . . . "So I said, if you insist upon having every Sunday off, you can't work in my house. My cook always has to get Sunday dinner——"

The same old chatter! Unimportant and trivial, it nevertheless had a delightful sound in Lily France's ears that afternoon. Oh, it was good to be back among these people who didn't think you were doing wrong if you smoked a cigaret or took a drink or painted your mouth with indelible lip stick. These people, who knew how to dress as Sadye Jetterson never would know how to dress, if she lived to be three score and ten.

She went into the empty dressing room, just off Sue's big bedroom. And just as she was taking off her cape, Sue, herself, came running in from the hall. Her eyes were bright with welcome and she was smiling from ear to ear.

"Staley told me you were here!" she cried. "Oh, Lily, it's so good to see you again! Are you back to stay? What's happened? I never saw anybody look so happy as Staley Drummond."

Lily carefully rubbed rouge on the lobes of her ears. "I am back to stay, Sue," she said. "I've been trying to make up my mind to come back home ever since the day of that bridge party you asked me to. Do you remember? It changed my whole life—that day."

Sue looked bored. "Yes?" she asked. "Well, don't take it so hard, Honey. Come on downstairs and I'll give you a jigger of something to cheer you up!" And she flew out of the room.

Sue's parties always were successes, partly because of the little "jiggers" of gin or Scotch or Bourbon that she was always advising everyone to have. And Sue knew that they were successes because people were always "passing out of the picture" at them, and having to be taken home and put to bed. And they always wound up with a tray of glasses filled with cold cooked tomato juice, which was wonderful, so Sue said, for making people sober and settling their stomachs after a night of hard drinking.

She was standing at the bottom of the stairs when Lily came down, and she had one of the "jiggers" in her hand. "Here, down this and stop singing grief," she sang out. "Staley's waiting for you over there in the doorway."

Lily saw him. He had a "jigger" in his hand, too, but he was not drinking it. While Lily watched him he set the glass down upon the top of a high French desk near him and turned to wait for her.

In the center of the arch above the door hung a great bunch of mistletoe, tied with bright scarlet ribbon. Lily did not see it as she stopped under it to tuck her arm into Staley's arm.

"Let's find a quiet corner," she was beginning to say, when he suddenly caught her in his arms and kissed her violently and squarely upon the mouth. As Lily struggled to get away from him he kissed her again. Then, just as suddenly, he let her go.

There was a laugh in the room beyond, where a whole group of people had turned to watch him. . . . People always looked at Staley Drummond. Not because he was handsome, for he was not. Not because he was extremely interesting, for he was not always that. But simply because he was Staley Drummond, one of the richest bachelors in town.

"He was just wild about this Mrs. France—little Lily Lexington, she was, and a great friend of my daughter," Lily heard Mrs. Cain explaining later to an out-of-town guest of the Barney family. "Then married her mother's chauffeur—just a wild child's fancy, I suppose. But the marriage seems to have gone on the rocks, and everything seems to be smooth sailing for Staley Drummond again. He kissed her as if he meant it, didn't he?" And they both laughed pleasantly.

Lily was very quiet all the rest of the day, and answered Staley in little soft sentences when he spoke to her, as they sat side by side in a dim corner of the Cains' library.

"You shouldn't have kissed me," she said once, and looking at her, Staley saw that she was rubbing her lips with her handkerchief. "You know I'm still married to Pat—it's not right."

"You told me, yourself, that a man who'd ask for a kiss didn't deserve one," Staley interrupted. "So I just took you at your word."

Lily nodded absently. She was back in the France family's parlor for a minute, and she was listening to Pat's mother scolding Roy Jetterson for having kissed the bride on the day when she married Pat.

"It may be an old custom, as you say," she had told Roy, severely, "but the way I look at it is that when a woman's married her lips belong to her husband—even on her wedding day."

Lily kept thinking of her, and then of Sue's mother—and of the way she had laughed when she said: "He kissed her as if he mean it, didn't he?" The kiss had been a good joke to her.

For the first time since she had met Pat's mother seven months before, Lily found herself agreeing with her.

CHAPTER XLVIII.

BY ten that Christmas night all the older people had left the Cain's big, beautiful house, and the young folks—the "young soaks," as Sue called them—had it to themselves.

They gathered together in the dining room, where the cut-glass punch bowl was still half filled with pale gold fruit punch.

"Shall we make a flock of sandwiches?" Sue asked, finding three dried-up ones on a silver plate.

And then, instead of making even one sandwich, she began to pass around lit' "jiggers" of the punch just as fast as Jack Eastman could pour them.

"Have a glass of punch?" she asked, poking the tray under Lily's nose for an instant. "Oh, no, I forgot. You never drink, you?"

Lily stopped her and took a glass.

"Oh, yes, I do!" she cried, and downed it. Then she took another.

She never cared for drink, really. But Pat thought it was dreadful and shocking for a woman to drink, and so it gave her a thrill of freedom and satisfaction to drink the "jiggers" of punch. She felt as if she were getting even with him, somehow, as she emptied the second glass and set it down.

"No, thank you, I never drink, you know," she heard Ann Barney say coldly, when the tray was passed to her for the third time.

Lily laughed aloud. "That' right—you don't," she gurgled. "I'd forgotten that you're so pure, Ann. You should have married into my husband's family—"

Then she turned to Staley and laughed at him weakly. "Perhaps I ought not to mention that I have a husband when I'm out with you," she said to him, swaying little as the liquor began to make her feel dizzy and languid and weak.

She leaned against Staley and her third glass of the gin punch. Staley was saying something to her that she did not hear.

She was watching Ann Barney. Ann was not having a good time tonight. As a matter of fact, she was having a very rotten time, and she did not care who knew it.

She walked over to Sue and said goodnight. "Thanks for a lovely evening, Susy," she said, with her quick smile that made her almost beautiful for a moment. "You know I'd love to stay, but I don't drink—" And with another smile, she turned away from Sue, who had barely noticed her. Sue had had about a pint more of the punch than she could carry.

"Ann thinks we're terrible," Lily observed to Staley. "She's always been so narrow-minded that she couldn't part her hair in the middle. She makes me ill."

Staley put his arm around her. "You're shaky, dear," he said. "Want to go home?"

Lily shook her head. . . Indeed she did not wan to go home. She wanted to stay here where the lights were so bright and the people all saying these awfully funny things and the drinks were so good.

She tried to tell all this to Staley, but she forgot what she wanted to say while she was thinking up the words. . . . All she could do was to laugh.

"What's the matter?" Staley asked her, gently, and he began to draw her out of the dining room into the cool shadowy hall beyond the double doors. "I think maybe we'd better go home, dearest."

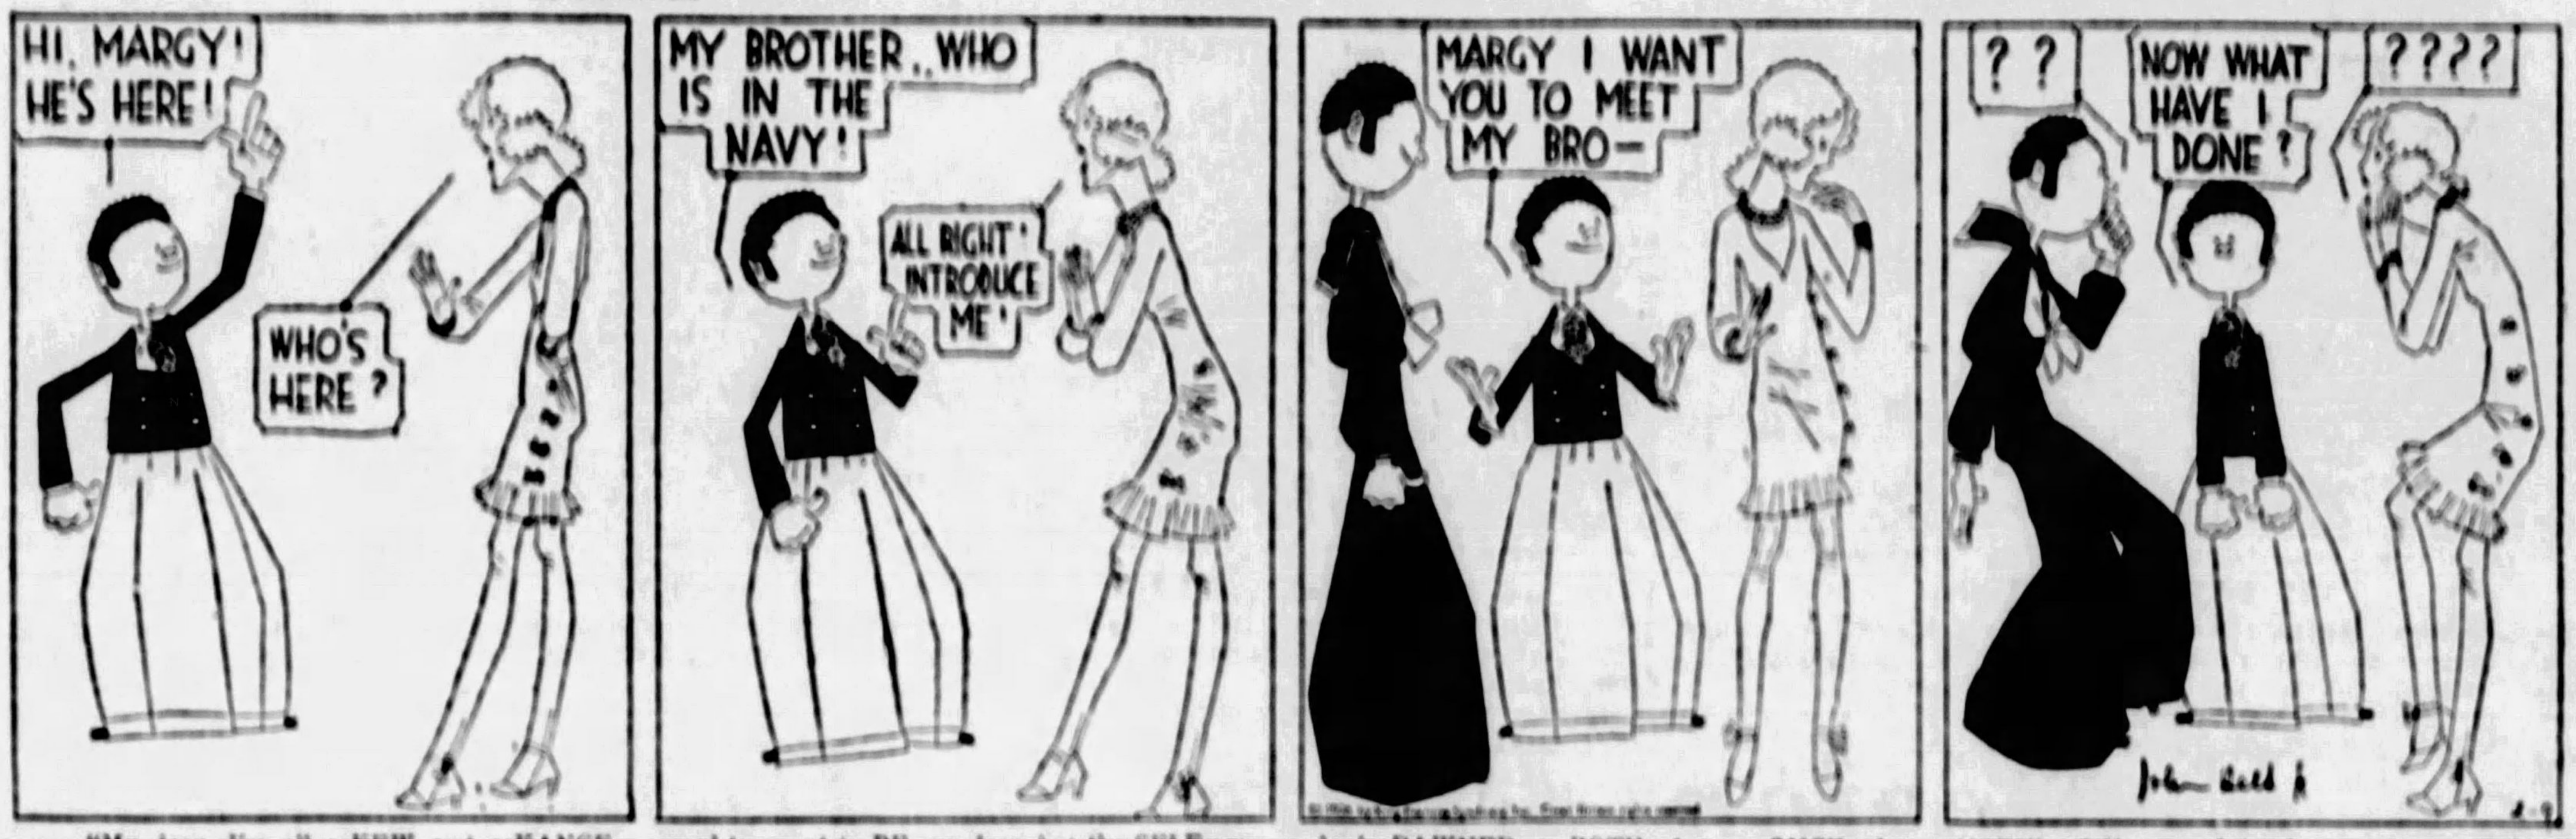
Merely Margy, An Awfully Sweet Girl

Reg. U. S. Pat. Off.

Story by Lloyd Mayer

By John Held, Jr.



HI, MARGY! HE'S HERE!
WHO'S HERE?
MY BROTHER,, WHO IS IN THE NAVY!
ALL RIGHT! INTRODUCE ME!
MARGY I WANT YOU TO MEET MY BRO—
? ?
NOW WHAT HAVE I DONE?
? ? ? ?
John Held Jr

"My dear, I'm all asKEW and asKANCE, no less! I mean I'm ACtually so PERturbated I could shuck WHORtleberries at this point because I'm HONestly emBARrassed to TEARS, no less. I mean WHAT do you s'POSE! ARab introDUCED me to this BROTHer of his who's in the NAvy, my dear, and WHO should the odd soul turn out to BE, my dear, but the SELFsame BIMbo who TWICE tried to pick me UP down TOWN and made POISonous insinerAtions about NECKing me—can you BEAR it, my dear? REALly, it was a situAtion, you know! I mean at FIRST we sort of didn't RECo'nise each other at ALL, my dear, and then it suddenly DAWNED on BOTH of us at ONCE who we WERE and all, do you know what I mean? ACtually, my dear, I was WHIPPED down to a NUB, no less and this odd GOB was PRACtically ready to ROLL over and anOINT himself with PEAnut BUTter—can you BEAR it, my dear? Well, ANYways, we just sort of STOOD there VAGUEly GLARing at each other like NOTHing HUman and ARab, my dear, was TOO s'PRISED. I mean of COURSE the poor YOUTH thought he'd put his FOOT in it again or something. I mean he was comPLETEly BAFfled and nonPLUSSED, no less, but I mean isn't it the strangest coINcidence, sort of? I mean I think it's simply SCREAMING—I ACtually DO!"

Love's Embers

Absorbing Sequel to "Revelations of a Wife"

By Adele Garrison

AT young Jackson's smiling explanation of his delay in coming to the farmhouse, I realized that it was no use keeping up any barriers against him.

But it was with a tense little premonition of possible dramatic consequences to our household, that I answered the young man's apology.

"I shall be very glad to see you at the farmhouse," I told him. "Indeed, I feel distinctly indebted to Mrs. Townsend for making our better acquaintance possible. But you owe me no apologies. You were not all to blame for Fedor's high spirits. If I accept any apology at all it must be his, and he looks anything but contrite just now."

I purposely had turned the conversation toward the beautiful dog which stood so proudly at Eleanor Lincoln's side. I was curious—maliciously so, I owned to my elf—to hear what explanation would be made of the dog's patent devotion to her.

"I cannot imagine Fedor in the role of a penitent," Miss Lincoln said. "But isn't it marvelous the way he has adopted me? I was just telling Mrs. Townsend of my first meeting with him at the railroad station. It was positively uncanny, the way he greeted me. If I had not known better, I should have thought it was my own dog come back to me."

She looked squarely at me as she spoke, and I saw a distinct challenge in her great velvety eyes. It came to me forcibly that she guessed my belief that the dog was in reality her own, and was bending all her energies to compel my acceptance of her own account of the matter.

Into my mind flashed a ruse to test her resolution and her arrogant composure.

"Perhaps your dog was a litter brother of this one," I said carelessly. "I believe you said at the station that you once owned a wolfhound named Fedor."

She started perceptibly and looked at me keenly.

"Yes," she began, then stopped abruptly as young Mr. Jackson choked apparently at nothing and broke into a fit of coughing. When he had recovered his breath Miss Lincoln went composedly on with her sentence.

"Yes, I had a dog named Fedor," she said, "but he was a collie, not a wolfhound. The two breeds have much in common, however."

My mental thermometer went to fever heat. He had warned her, there was no doubt about that, and by a most clumsy device, although no doubt the only one he could employ. I was sure that without it, Miss Lincoln would have believed in my faulty memory and have contradicted her assertion at the railroad station that her dog had been a collie.

I tried to make my face courteously acquiescent and credulous. I saw in young Mr. Jackson's eyes the uneasy belief that I had not been deceived by Eleanor Lincoln's ingenious tale.

HOT TEA BREAKS A COLD—TRY THIS

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of this hamburg tea, put a cup of boiling water upon it, pour through a sieve and drink a teacupful at any time. It is the most effective way to break a cold and relieve grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.

Gray Heads young again!
Color Restored by Feeding Hair Roots

Thousands have been delighted to find it is not necessary to use dye on gray hair. NOURISHINE, a scientific tonic which feeds and nourishes the hair roots, restores the exact original shade—naturally, safely, evenly. Any original color, whether black, brown, auburn or blonde, is restored with the one liquid. Positively NOT a dye—cannot injure hair. Also banishes dandruff, stops falling hair and promotes lustrous hair growth. Make your hair look young with Nourishine. $1.25 a bottle at The May Drug Co.

(For shampooing, use Nourishine acid-free Shampoo. 50 cents a bottle).

Nurses discover a "miracle cream"

brings new skin beauty—quickly

IF you want a softer, finer, lovelier complexion, try this new kind of beauty cream that was started on the road to fame by trained nurses.

Doctors first prescribed it for chapped hands, burns, eczema and other skin troubles. Nurses noticed how it made roughened, irritated skins smooth and beautiful, and tried it on their own faces as a powder base and as a massage at night. Their complexions became clearer, healthier, lovelier than they had dreamed possible. Largely through their recommendations, Noxzema Skin Cream has become almost overnight one of America's most popular toilet creams.

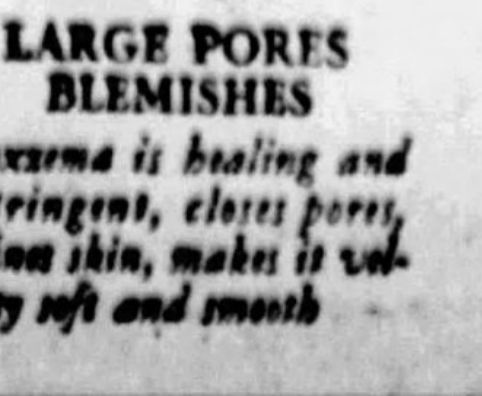
Beauty experts say that most complexions would be beautiful were it not for common skin flaws. Noxzema Cream beautifies by correcting just those beauty-destroying faults that have been preventing *your* complexion from being lovely.

Snow-white and dainty as the finest toilet cream, but wonderfully healing, it sinks deep below the surface, cleanses the pores, heals away every tiny skin flaw, and acts as a tonic, refreshing and stimulating so that the skin glows with renewed vitality, health and beauty.

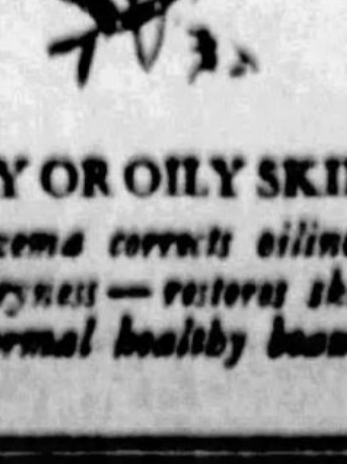
You don't have to wait long for results with Noxzema; the instant you put it on you can "feel it heal", and then you just watch your mirror for the ever-growing loveliness that it brings.

Make This Test

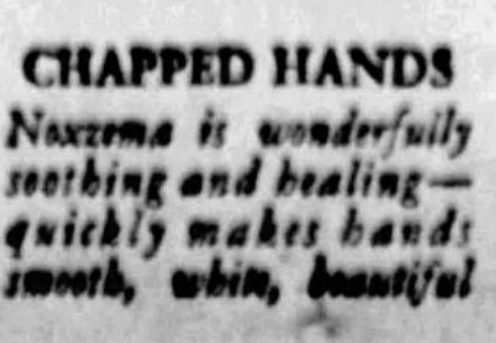
Get a 25c trial jar of Noxzema for 10c this week, use it for ten days, and see the great improvement it makes in the beauty of your complexion. On sale at all drug and department stores.



LARGE PORES BLEMISHES
Noxzema is healing and astringent, closes pores, refines skin, makes it velvety soft and smooth



DRY OR OILY SKIN
Noxzema corrects oiliness or dryness—restores skin to normal healthy beauty



CHAPPED HANDS
Noxzema is wonderfully soothing and healing—quickly makes hands smooth, white, beautiful

BECK RETAINS HIS SEAT IN CONGRESS

HIS ELECTION TO HOUSE O.K'D

By International News Service.

WASHINGTON, Feb. 9.—Representative James M. Beck (Rep.) of Pennsylvania, former solicitor general, today won his fight before the House Elections Committee to keep his seat in Congress.

The committee, 6 to 3, voted that Beck, successor to Senator-elect Vare (Rep.) of Pennsylvania, was properly a resident of Philadelphia at the time of his election and therefore, was entitled to his seat.

Contest against him was brought by Representative Garrett of Tennessee, Democratic leader.

"My skin was a sight"

"I couldn't look people in the face, I was so ashamed of my skin! It was always blotched with pimples and blackheads and at times itched terribly. I had tried everything and was so discouraged that I couldn't bring myself to take hope in anything. You can imagine my surprise therefore when one application of Rowles Mentho Sulphur almost completely cleared my skin. I could have danced with joy! In a short time you wouldn't know my skin—it was so clear, so soft and white."

Thousands of people are discovering that there is a remedy for skin trouble—even fiery, itching eczema! It's the magical combination of sulphur and menthol—sulphur for clearing the skin, menthol for healing the broken and irritated tissue. Rowles Mentho Sulphur is inexpensive and all druggists supply it in jars ready to use. Be sure it's Rowles.

BURNED SAVING MOTHER

Ella Wertz, 18, received burns on the hands when she saved her mother, Mrs. E. D. Wertz, 50, whose clothing had caught fire from a gas stove, from more serious injury in their home at Munhall today.

Mrs. Wertz, who was baking bread, suffered burns of the face and head. The daughter, attracted by her mother's screams, beat out the flames with her hands.

AUTO DRIVER IS FREED IN MANSLAUGHTER TRIAL

Jack Vancherie, 28, of Reedsdale street, was acquitted on a charge of involuntary manslaughter, but ordered to pay the costs by a jury in Criminal Court today.

Vancherie drove the automobile which struck and killed Anna Catherine Austach, 65, a widow, of 1527 Metropolitan street, in Chateau street on January 20, 1927.

FRENCHMEN TO FLY ACROSS COUNTRY

WASHINGTON, Feb. 9.—Lieuts Lebrix and Costes, French trans-Atlantic aviators, plan a trans-continental flight to San Francisco after they reach New York.

Lieut. Lebrix said stops probably would be made en route at Detroit, Chicago, Omaha and Salt Lake City.

The fliers expect to leave here Saturday morning for New York.

After their return to France, possibly by way of the Pacific by steamer, Lebrix said, plans would be made for an east to west flight across the North Atlantic.

The airmen have flown approximately 20,000 miles over four continents since they left Paris, last October.

Feted by diplomatic and military groups at French embassy last night, following their arrival at the Army field shortly after 4 o'clock, the aviators were guests today of aviation circles and the general public. Two cabinet members, the acting Secretary of State and a host of high ranking military and naval officers made up the colorful and enthusiastic throng which hailed the fliers upon their arrival.

Following their presentation to President Coolidge at the White House this morning by Ambassador Claudel, they were guests at a hotel luncheon given by the "Air Cabinet," composed of the three aviation secretaries, of the War, Navy and Commerce departments.

EAST END DRUG STORE ROBBED OF CASH, RUM

The "cash-whisky-cigaret" robbers, who have been raiding East End drug stores almost nightly, broke into the drug store of G. W. Conway, 7157 Frankstown avenue, last night. They got $100, a case and a half of whisky and several dollars' worth of cigarets, according to a report to police.

DEATH ROLL

Robert J. Hunter.

Robert J. Hunter, 55, died Tuesday night at his home, 1410 Columbus avenue. He was born in this city and for a quarter century was a motorman on the Woods Run lines of the Pittsburgh Railways Company. He leaves his widow, Mrs. Annie Killmeyer Hunter; his mother, Mrs. Luella Hunter; a sister, Mrs. Clara Wallberg, and two brothers, Elis Hunter and Clarence Hunter, all of Pittsburgh.

William B. Dilworth.

William Butler Dilworth, 55, a lifelong resident of Pittsburgh and a member of a pioneer family here, died last night after a long illness in his home at 5127 Fifth avenue, the same house in which he was born. He was a member of the Shadyside Presbyterian Church and the Pittsburgh Athletic Association. He leaves his mother, Mrs. Frances A. Dilworth, and two sisters, Miss Susan Dilworth and Mrs. R. S. Suydam.

Mrs. A. S. Bloor.

Mrs. Martha Wainwright Bloor, 78, former Pittsburgher, died yesterday in her home in Austin, Tex. She leaves her husband, A. S. Bloor, and three sons, David Sutton Bloor, Maj. Alfred Wainwright Bloor and Bertram H. Bloor, all of Austin, Tex.

DAY IN JAIL REWARDS HIS 'RESCUE' ATTEMPT

One dollar and a day in jail was a sentence imposed yesterday on Martin Maccarato by Federal Judge F. P. Schoonmaker for attempting to "rescue" a five gallon can of moonshine whisky after its seizure by government prohibition agents. Maccarato pleaded guilty and in imposing the sentence the court took into consideration the fact that the defendant had been in jail one month awaiting trial.

The last blemish gone!

Skin eruptions successfully treated from within

SKILLED physicians recognize the appearance of pimples, boils and other skin eruptions as being an indication of an abnormal condition of the system.

This is why so many thousands have been enabled to free themselves of these unsightly blemishes and painful skin annoyances by taking a course of S.S.S.

You owe it to yourself and friends to give S.S.S. a trial. It helps Nature build rich, red blood—those vitalizing elements in the blood that build and sustain the body.

In building rich, red blood cells, S.S.S. improves the processes by which the body is nourished.

All drug stores sell S.S.S. in two sizes. Get the larger size. It is more economical.

"I suffered from impure blood—was weak, and I had lost so much weight, I didn't look natural. I had pimples and was also bothered with a breaking-out that itched terribly. I also had boils one after another. I tried different kinds of remedies, but nothing did me any good until a friend advised me to take S.S.S., which I did. This was some time ago. Now I feel well, and I am getting along fine. S.S.S. stopped the itching and it cured me of boils. I advise all weak and run-down people to give S.S.S. a trial. It clears up the skin and makes you strong and fills you with energy."—Mrs. J. W. Barker, 1337 Walnut St., Cincinnati, O.

REHEARSE FIRST SUNDAY CONCERT

The Pittsburgh Symphony Orchestra's second rehearsal for its February 26 concert was held this morning under the direction of Eugene Goossens, conductor of the Rochester, N. Y., Philharmonic Orchestra and guest conductor of the local society.

Officials of the society today indicated complete indifference to the Allegheny Sabbath Association's appeal from the County Court decision legalizing Sunday concerts.

According to Edward Specter, manager, the society will dispose of the almost [illegible] remaining memberships before the first concert, that of February 26. To each member of the society go two tickets for each of the three concerts scheduled for the season, but no tickets will be sold. Memberships may be obtained at the society offices, 413 Bakewell Building.

For the coming concert the guest soloist will be the noted Chicago Civic soprano, Margery Maxwell.

Sage Tea Turns Gray Hair Dark

By SHIRLEY BLAKE

That beautiful even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture. You can get this famous old recipe, improved by the addition of other ingredients, for only 75 cents, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses Wyeth's Sage Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

TEN HERBS DID WONDERS FOR HIM

Coraopolis Carpenter Free of Stomach, Liver and Bowel Trouble.

"Although I am 73 years old, and for seven years suffered with various ailments, Ten Herbs did wonders in my case," was the statement of Mr. Alex. McKendry, 1222 Fourth Avenue, Coraopolis, Pa., (near Pittsburgh), to the Ten Herbs Man, who is at May's Main Store, 529 Liberty Avenue, Pittsburgh, where he is daily demonstrating this great natural medicine. "I was so nervous I could not sleep at night," continued Mr. McKendry, who is a carpenter. "My liver was inactive. Sometimes I had such dizzy spells I had to hold to the ladder to keep from falling. If I stooped over, I could hardly straighten up.

MR. ALEX. McKENDRY

"My stomach was in very bad condition. Food did not digest properly, but would sour and fill me with gas. I had heart palpitation, and could hardly get my breath after walking upstairs. My kidneys were out of order. I had to arise seven or eight times during the night, and in the morning would be stiff and have terrible pains across the back. I was so badly constipated I had to keep taking physics.

"To my great surprise, I had not finished the first bottle of Ten Herbs when I noticed a change for the better in my condition. My bowels became regular, and my nerves more quiet. My liver and kidneys seem to be in good condition. I am free of pains and stiffness and dizzy spells. My appetite is better, and I am not bothered with gas, bloating and shortness of breath like I was. I sleep soundly and do not have to arise more than once during the night. I really feel like a different person. I advise everyone who is suffering as I did to give Ten Herbs a trial."

Many others in this section are making similar claims for Ten Herbs. They say it has a surprising effect on the stomach, liver, kidneys and bowels, and a cleansing, soothing, correcting effect on the entire system.

The Ten Herbs Man is at May's Main Store, 529 Liberty Avenue, Pittsburgh, where he is daily meeting the public and explaining the merits of this medicine. Free sample given.

Stop Stubborn Indigestion and Chronic Stomach Distress

All Druggists Make This Offer

Money Back If One Bottle of Dare's Mentha Pepsin Doesn't Do You More Good Than Anything You Ever Used

At last the way has been found to combine Pepsin with other corrective stomach agents so that it will do the most good in the shortest possible time.

Why bother with slow actors when one tablespoonful of this splendid and pleasant liquid remedy will cause gas, bloating, heaviness, heartburn or any upset condition of the stomach to speedily vanish?

And why should any man or woman suffer another hour with indigestion or any stomach misery when the remedy that acts almost instantly can be easily procured?

Dare's Mentha Pepsin not only quickly relieves stomach distress, but it also conquers stubborn indigestion and dyspepsia, and puts an end to dizziness, nervousness, headache, sleeplessness and despondency, which distressing troubles are nearly always caused by chronic stomach disturbance.

Dare's Mentha Pepsin is pleasant to take, has a delightfully refreshing taste and after it has put your stomach in a clean and healthy condition, just notice how much better you look and feel, for besides correcting chronic stomach disorders this supremely good remedy that druggists everywhere guarantee, is a fine tonic that builds up and makes you work with vim, eat with relish and sleep soundly.

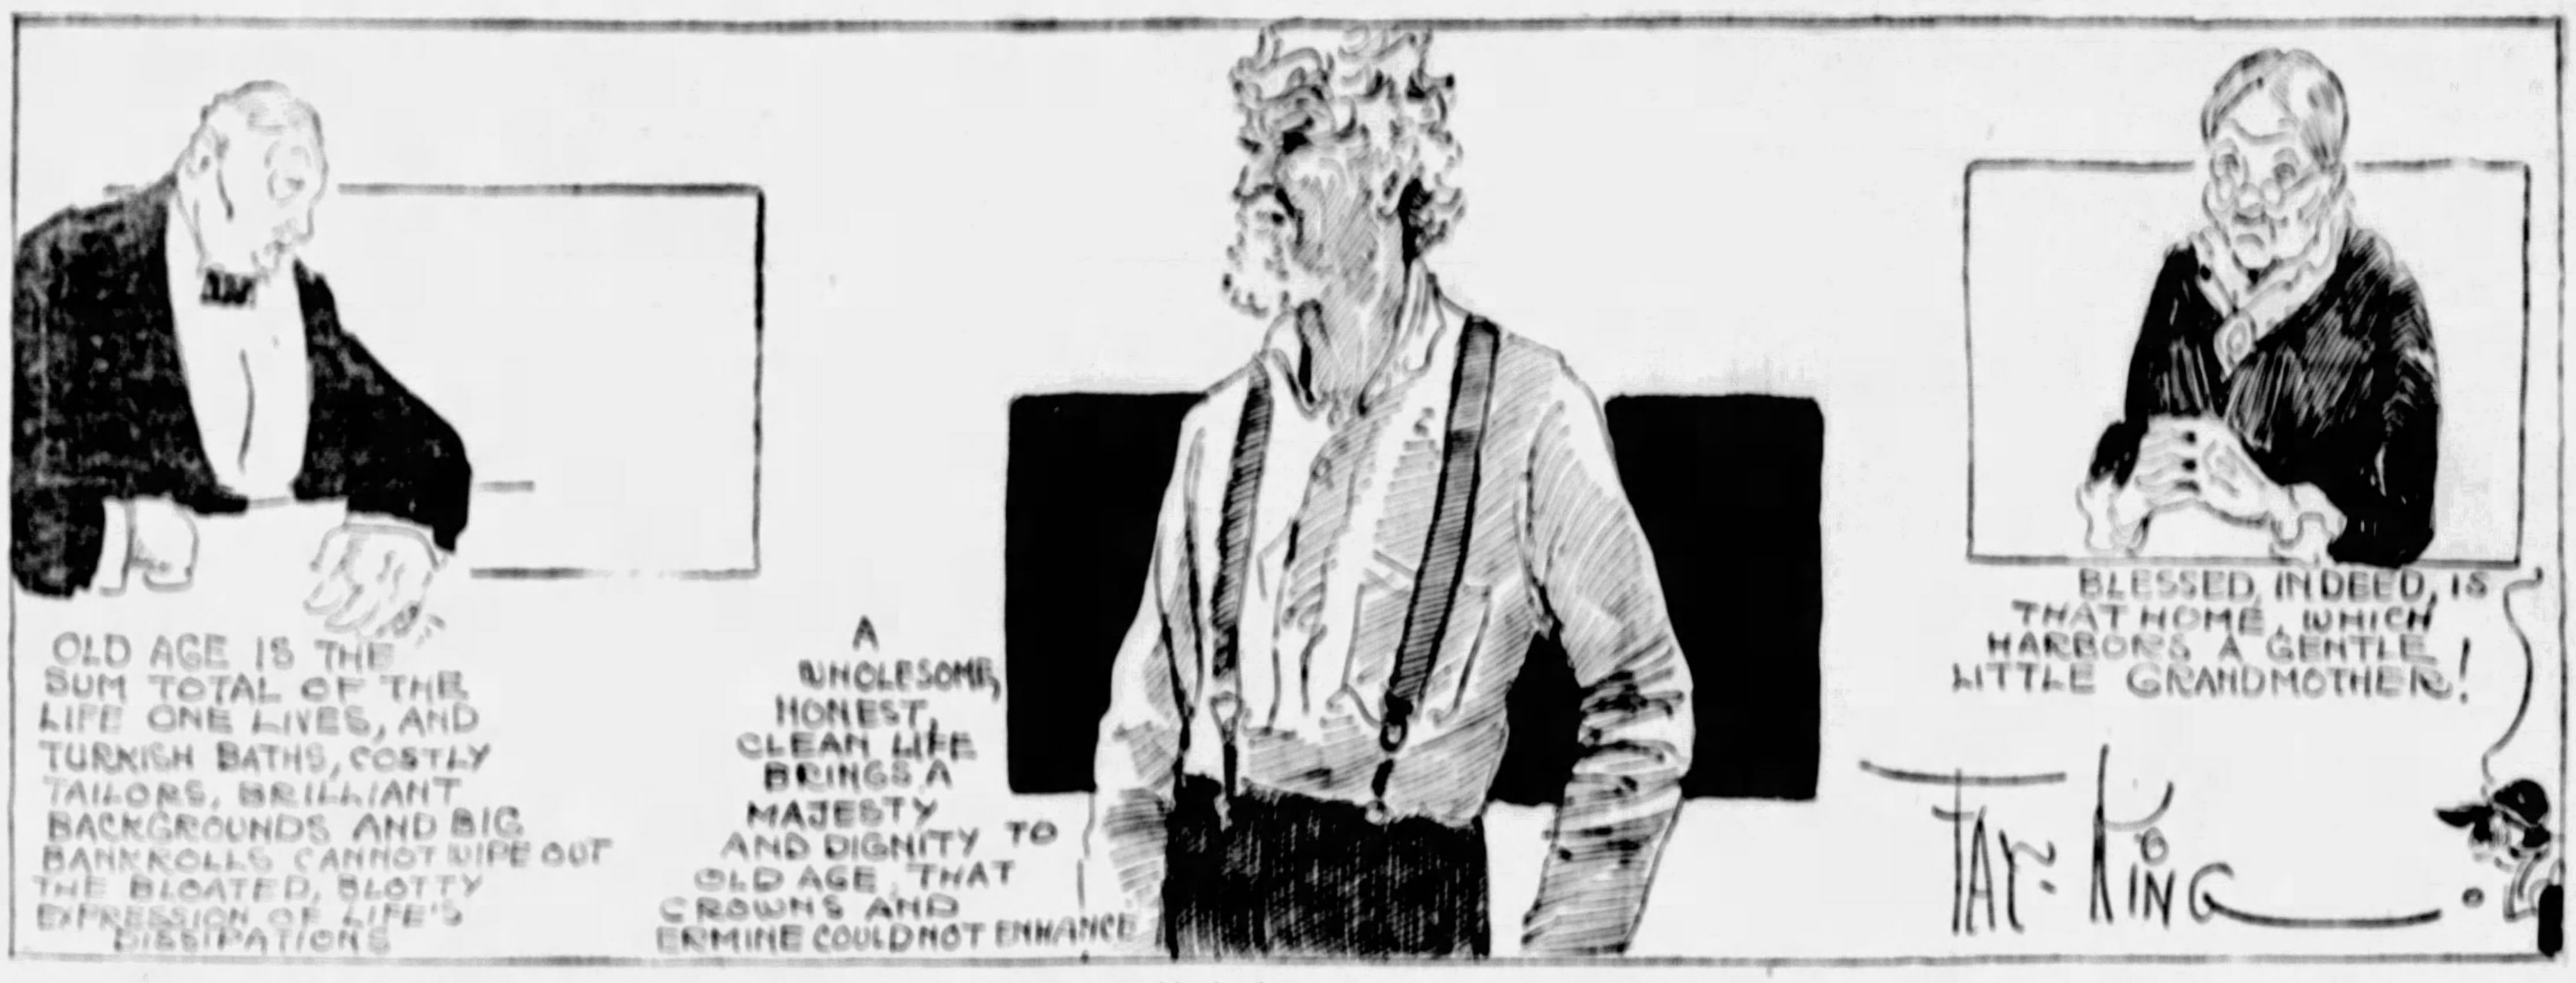
Character, Not Cash, Adorns Age—Fay King



OLD AGE IS THE SUM TOTAL OF THE LIFE ONE LIVES, AND TURKISH BATHS, COSTLY TAILORS, BRILLIANT BACKGROUNDS AND BIG BANKROLLS CANNOT WIPE OUT THE BLOATED, BLOTTY EXPRESSION OF LIFE'S DISSIPATIONS
A WHOLESOME, HONEST, CLEAN LIFE BRINGS A MAJESTY AND DIGNITY TO OLD AGE THAT CROWNS AND ERMINE COULD NOT ENHANCE
BLESSED INDEED, IS THAT HOME, WHICH HARBORS A GENTLE LITTLE GRANDMOTHER!
FAY KING

By FAY KING

IT'S NOT the stocks and bonds and bank accounts that we accumulate in life, but the character we develop that counts!

Sorrow, trouble, trials and tribulations bring lines of care upon a face, but they are the marks of character.

Those who have suffered for their ideals, those who have sacrificed for those they loved, those who have suffered in silence, acquire a nobility of mind and soul that pedigree and luxury and selfish success do not bring!

I have seen nobility of character chiseled on the fine old face of a workingman more kingly than one sees in the faces of those who were wrapped in ermine and crowned with gold.

I have seen a holiness of expression that comes from faith with mankind upon the humble that is often lacking in the countenance of those who profess great piety.

Fine tailoring, and costly furs, and studied manners, and the power of purse do not erase the weak lines of a wasted life that shows in the faces of persons who live dissipated, selfish, greedy lives!

Age is the answer to one's life. Those who live and think right need not fear to grow old.

Contact with the aged is one of the finest, most inspiring lessons that youth may have. That home in which there is an aged one is blessed indeed. Young folks often grow impatient with the aged, but the day will come when they realize that the most precious lessons they have learned were those of patience and peace and the calm resignation and fearlessness to meet their God that you can only learn from those dear old ones!

To be loved and respected in one's old age is life's greatest reward.

The memory and inspiration of a good life, well lived, that is the most precious heritage a person can leave! Beside which wordly goods are but the worthless confetti often left behind by those who lived life as if it were a carnival.

MEDITATIONS of a MARRIED WOMAN

by HELEN ROWLAND

THE QUEST FOR FREEDOM

THE modern man has to be a sentimental acrobat to hang onto the girl with one arm and onto his freedom with the other.

* * *

A lot of printer's ink is being wasted these days, telling young men how to choose a wife, when the one thing they are yearning to know is how to escape choosing one.

* * *

Woman's inhumanity to man makes countless thousands get up in the cold and go downstairs to see what the noise is.

HELEN ROWLAND

* * *

A man's house used to be his castle; now it is merely his filling station, where he stops for a bracer while he changes from his golf-knickers into his dinner clothes.

* * *

To find your mate—that is luck; to know him when you find him—that is inspiration; to win him when you know him—that is art, and to keep him when you've got him—that is a MIRACLE!

* * *

Swindlers thrive on man's foolish desire to get something for nothing. Lotharios thrive on woman's foolish willingness to accept nothing for something.

* * *

Some men improve with age—but all of them improve with marriage!

TOMORROW'S HOROSCOPE

Friday, February 10

When Wit is trusted, Will holds her power to execute what is desired by Wit.—Davies.

THIS day will bring forth a sturdy conflict between wit, will and wisdom, according to the stellar activities. While the impetuous and headstrong Mars may incite to bold ventures, yet the Saturn aspect, cool, calculating and conservative, will have a tendency to put the brakes on which is well in business as well as personal activities both of which are adversely aspected.

Those whose birthday it is are advised to move carefully and conservatively during the year, as impetuosity and tumult may prove disastrous. This applies to business and personal matters, both of which have a menacing aspect.

A child born on this day may be bold, enterprising and adventurous, but these traits should be carefully managed in order to win success. Impulse and tumult may bring business and domestic difficulties unless early checked.

Notable Nativity: Adelina Patti, prima donna.

Take Care of the Heart If You Would Live Long

DR COPELAND

TO MY mind the most wonderful of all Nature's gifts to the animal world is the never-failing heart. In season, out of season, day in and day out, year after year, this faithful organ goes on with its important work.

We wouldn't last long if the heart failed at its task. The most common of causes of death, as given a generation ago, was "heart failure." We are more exact now, but it continues to be true that failure of the heart function is a serious ailment.

Without the cleansing stream of blood, forced to every part of the body, there would be failure to carry away the wastes of the body. Some of these wastes are actually poisonous and without their prompt removal serious results would follow speedily.

Another important function of the heart is to force the blood through the body in order that nourishment may be carried to every cell and fiber. Without food there could be no hope of continued existence.

Think how hard and fossilized the tissues would become without moisture. The skin would become like leather and the muscles like strands of hardened rope. There would be no elasticity of the tissues. Friction would wear down the surfaces and destroy the purpose of the skin and other parts.

The blood vessels are not unlike the parts of an irrigation system. The pipes run everywhere, to provide moisture, lubrication, drainage and nourishment.

But you see this irrigation system cannot operate by gravity, as the garden system works. There must be a powerful pump to force the blood through the vessels, to reach every portion of the anatomy.

The heart is a mass of muscle. It is hard, strong, powerful muscle. The fibers run every way and when they contract, the heart is squeezed, powerfully squeezed, sending the blood in an irresistible stream.

It is essential to health and well-being to keep the heart in good condition. What can we do to this end?

The first thing to remember is that the heart is only one of the many parts of the body. It cannot be normal and strong unless the whole body is normal and strong. This means that an abundance of well chosen food must be taken at regular intervals.

If there are abscesses or pussy conditions in any part of the system there is apt to be disease and weakening of the heart. This is an important suggestion and is one of the reasons why nobody can afford to neglect pus. No matter where it is, it must be removed.

There must be regular exercise and out-of-door life. Sunshine and fresh air are essentials.

It is important to take an abundance of rest and plenty of sleep. To get too tired every day is exhausting and actually damaging to the heart.

The condition of the heart and blood vessels has much to do with the chance of long life. Take care of the heart and the life takes care of itself.

Fitted Furs

Fitting the back to the burden is an old bit of philosophy, but one of this season's fur fashions requires fitting the yoke to the back. A flat pelt caracul coat has a very deep, pointed yoke down the back. This yoke is fitted so as to cover the shoulders.

Guard against the *cause* of tooth decay

Acids are the most frequent cause of tooth decay and infected gums.

The most serious trouble occurs at the place where teeth and gums meet—known as The Danger Line.

The best product known to neutralize acids in the mouth is Milk of Magnesia.

IN MOUTH hygiene, as in all else, the secret of success lies in finding "the cause." No matter how much you brush your teeth, it is only an idle gesture if the brushing does not guard against the cause of tooth decay and gum irritations.

Recent statements, obtained through an investigation among 50,000 practicing dentists, shed very definite light as to this cause and the best means to combat it. 95% of the answers agreed that:

It is evident from this verdict that the dentifrice you use should contain Milk of Magnesia if it is to bring you real protection. Squibb's Dental Cream is made with more than 50% of Squibb's Milk of Magnesia. Each time you use it, particles of the Milk of Magnesia are forced into every pit and crevice where acids form. There they neutralize these acids and remain after to neutralize new acids as they form.

Squibb's Dental Cream is safe to use in the most tender mouth. 40c a large tube.

What is this "Mysterious Substance" In Beef Liver that Brings Joyous Health to Thin-Blooded, Anemic People?

"Eat More Liver!" Doctors Advise

If you don't know—you ought to know—that science has discovered in beef and calves liver a "Mysterious Substance" that by actual test has succeeded in restoring to good health thousands of weak, thin-blooded, wornout people.

So leading physicians the country over are advising their run-down, thin-blooded patients to eat more liver for better health, more energy and greater vitality.

So wonderfully efficient is this "Mysterious Substance" that in many hospitals that dread disease Pernicious Anemia has been successfully treated and overcome.

But getting into the system this potent "Mysterious Substance" by eating liver is recognized as a slow process—too slow for the average eager American who wants to get well speedily.

So one of the best known laboratories in America, after prolonged experiments, succeeded in extracting from fresh beef liver the vital elements and put up this extract in concentrated form, very palatable and even pleasant to the taste.

You can go to any druggist who is at all progressive today and get a big 12-ounce bottle of Hemo-Liver that will last you eight days. It is not a patent medicine.

A tablespoonful is a dose and you'll have to eat a lot of liver to get as much of this red blood making "Mysterious Substance" as you'll get in one tablespoonful of Hemo-Liver.

Indeed its powerful efficacy is so apparent that one bottle, or eight days' treatment, often brings such a big improvement in health that both patient and Doctor are [illegible]

Its success as a maker of rich blood and to bring strength, vigor and vitality to those who are anemic and run down is so certain that pharmacists sell it with the distinct understanding that if one bottle does not help you—wonderfully—your money will be refunded.

Men and women who are suffering from lowered vitality, general weakness, overwork, nervous breakdown or anemia can put their faith in Hemo-Liver. For feeble old people, girls 13 to 18 and in convalescence it won't fail. It strengthens the nerves, increases the red blood cells, promotes health and rebuilds energy. Get Hemo- [illegible]

The 20-Year War on Fat

Mark the results

In the early part of this century research men discovered a cause of excess fat. It lies in lack of certain elements required in proper nutrition.

They found a way to supply those elements, and many tests were made. First on animals, then on people. The results established a new method of combating excess fat.

That method was embodied in Marmola prescription tablets. For 20 years the over-fat have used them—millions of boxes of them. They have told the results to others. That is one reason why slender figures so prevail today.

No abnormal exercise, no starvation diet. Moderation helps, but radical methods are not advised. Users of Marmola take four tablets daily until weight comes down to normal, then they stop.

Every box of Marmola contains the formula, also the reasons for results. Users know just what they are taking, and why. So they have no fear of harm.

If you overweigh, try this scientific method. Do it because of the results it has brought to so many, for so long. Do it for new beauty, new health and vitality. Start today. Give Marmola a chance to show you what it does.

Marmola prescription tablets are sold by all druggists at $1 per box. If your druggist is out, he will get them at once from his jobber.

SPORT COMMENT

by JAMES J. LONG

EVEN the Cub management appears to believe now that Pittsburgh fans may have had the right dope when they contended that the Chicago club was worsted in the Cuyler deal, and that the already wabbly infield of the Bruins may have been wrecked by the loss of its star member, Sparky Adams.

At any rate, Chicago reports say that in discussing the prospects of his club, Manager Joe McCarthy "accepted the implication that he had given away something when he sent Adams to Pittsburgh," and that his problem "is to discover two American Association infielders of either recent or remote vintage who can handle the duties of second and third basemen in passable style."

Sparky Adams.

IN VIEW of the old dope that no manager can consider that he has made a good deal if he has weakened his club in one department to strengthen it in another, those baseball men who suggested that the Chicago club may have been playing for big spring gates when it gave up Adams and Scott for Cuyler may not have been far wrong.

BOXING followers of this district who have always been able to get a particular kick out of battles royal, the events in which five Negro fighters are "cut loose" in the ring at one time and are supposed to wallop one another until only one is left standing on his feet, will no longer have a chance to enjoy such features at ring shows in Pittsburgh or vicinity.

Jim McGirr.

The explanation is that Boxing Commissioner Havey J. Boyle will not permit their being staged.

FOOTBALL HELPED, KNUTE SAYS

By CHARLES J. DOYLE

BIGGER and better football for 1928 will be the direct result of the new changes in the gridiron code, in the opinion of Knute Rockne, famed coach of Notre Dame's great football teams, who arrived in Pittsburgh this morning for the purpose of speaking at the sixteenth annual banquet of the Pittsburgh Real Estate Board in the Schenley Hotel tonight. Rockne also addressed the gathering at Duquesne University's annual football fete at the William Penn Hotel this afternoon.

Bubbling over with good nature and full of wise cracks as well as wise saws, Knute caused quite a commotion in the offices of the Philadelphia Company, whence he journeyed to meet with Alex Stevenson, chairman of the banquet committee of the Real Estate Board. Stevenson is one of the football coaches at the University of Pittsburgh.

NOTHIN' TO DO BUT WORK FOR BUCS' TRAINER

Signs of spring are all about us, including the sure signs pictured on this page. The Pirates will leave for camp one week from today and Trainer George (Chauff) Asten is busily engaged in the preliminary work. He has to be as handy as a nurse to the athletes. Above you will observe George sewing a wayward button on a Pirate shirt, and below we have him looking after some of the personal effects of the players. It is the written and unwritten law of baseball that each player provides his own shoes and gloves. Many of the players leave these belongings in care of the trainer, who gives them much attention. If Chauff gets the shoes mixed, or if a glove is missing, he will hear from the victims before the training season is one hour old. So he tries to follow out a careful system.

MOTH BALLS ALWAYS A SAFE BET

The packing and shipping of uniforms involves a lot of cautious detail. If you don't think so, just ask Asten, who is shown here in the midst of his labors. The old moth ball trick is a winner in many ways. Chauff uses the white ballots to keep the clothes in good order. For the past 10 days he has busied himself with the laundering and packing of the many uniforms needed. More than 40 suits are required at camp.

Buc Sale Decision Monday

MONTREAL, Quebec, Feb. 9.—(AP.)—The proposed sale of the Pittsburgh franchise and players in the National Hockey League to a Cleveland syndicate will be the chief subject to come before the National Hockey League directors at their monthly meeting in Toronto Monday.

Hockey circles believe the situation concerning the Pittsburgh club has been clarified through the announcement that Irwin Wener, owner of the Philadelphia Arrows, of the Canadian-American League, has taken up the Pittsburgh option, and is dealing with a Cleveland group with the expectation that the Pirates will operate next season in Cleveland. A new rink accommodating 13,000 spectators will be available there.

DUQUESNE GRIDDERS FETED; CAGERS WIN

THE basketball team of Duquesne University arrived back home this morning after having regained a respectable standing in the Tri-State Conference and, by virtue of having defeated Waynesburg College last night at Waynesburg, by a 28-16 score, added immeasurably to the joy and color attending the local school's annual gridiron banquet, held at noon today at the William Penn Hotel.

A feature of the banquet program was a surprise appearance of Knute Rockne, as famous as the great grid teams he turns out at Notre Dame. Rockne, here to address local realtors, welcomed an opportunity to attend the Duquesne fete and address the grid pupils of his former pupil, Elmer Layden. Coach Layden, Assistant Coach John Weibel and Manager Holahan were other speakers. Mayor Charles H. Kline, County Commissioners and members of City Council were honor guests.

The basketball varsity had to come from behind to win from the stubborn Jackets last night, who have yet to win a Conference game. Defeated last week by both Geneva and Westminster, the Dukes found themselves face to face with total elimination as a championship con-

Local Lad Returns a Main-Bouter

By HARRY KECK, Sun-Telegraph Sports Editor.

A FORMER local lad, Tommy Milton, who went away from here to get a reputation, returns tonight to show his fistic wares to the fans of Western Pennsylvania in the main bout at McKeesport. Milton was reared in Herron Hill, but has been doing all his boxing out of Toledo, where he is managed by Ad Thatcher, co-promoter with Tex Rickard of the Jack Dempsey-Jess Willard heavyweight championship battle at Toledo in 1919, and manager also of Luis Carpentero, the Filipino flyweight; Johnny Windsor, formerly of Herron Hill, but now of Toledo, and other boxers.

Milton's opponent will be Tug Phillips of Fayette City, who has been going great guns among the 140-pounders. He is one of the members of James (Red) Mason's stable.

Young Rudy of Charleroi, another Mason man, will answer the gong against Jack Bany of McKeesport in another 10-rounder, and there will be two six-round preliminaries, one of them featuring Young Nanci of Swissvale against George Tomcsky of Wilmerding, brother of Andy Tomosky, and the other Billy Cunningham, of Hazelwood, and Ken Hargrave, of New Kensington, a couple of 128-pounders.

Matt Adgie, Philadelphia heavyweight, boxes Will Matthews of Baltimore at Philadelphia tonight. Bucky Boyle and Ernie Caeser meet in the main event at another club in the same city.

Bobby Burns and Al Winkler box the semi-final to the Tony Canzoneri-Benny Bass featherweight championship bout in Madison Square Garden, New York, tomorrow night. Other feature numbers will be between Arturo Shekels and

Pitt Rejects Post-Season Challenge

Pitt has rejected another challenge to have its great cage team engage in a post-season series to determine the college quintet most worthy of national championship recognition.

In addition to turning down the challenge of Auburn, as announced exclusively in The Sun-Tele yesterday, Panther officials have decided to decline Fordham's bid to a post-season titular series.

Pitt Tops Tech by 50-28

By JESS CARVER.

HOME from eastern wars, in which they continued to carry the colors of the university to sweet victory, the University of Pittsburgh Panthers resumed local operations last night by clinching the annual city series with Carnegie Tech, sinking the Skibos under a 50-28 score, dragging the Plaid banner in the dust for the second time this season. The game was played before a goodly crowd in the Tech gym.

The victory was the twelfth in succession for Pitt and the seventh consecutive loss for Tech. It marked the thirtieth time that Pitt has defeated Carnegie in the 35 games played between the local institutions since the beginning of athletic relations between them.

ROG HORNSBY DENIED CUBS

CHICAGO, Feb. 9.—(INS.)—Chicago baseball fans who had hopes of seeing Rogers Hornsby in a Cub uniform this season were disappointed today by William Veeck, Cubs' president, just back from Boston.

"I didn't get to first base with President Fuchs of the Braves," said Veeck. "I mentioned Hornsby, and Fuchs said Santa Claus had never been to Boston before and there was no use hurting the old man's feelings by letting the gift get away."

The Cubs are busy getting ready for their trip to Catalina Island for the spring training grind. They leave Sunday.

Okeson Selection Brings Protests

NEW YORK, Feb. 9.—(AP.)—The proposal to invest Walter R. Okeson of Lehigh University with czar-like powers in the selection of football officials in the East—suggested along with the abolishment of the old central board—has developed widespread and unexpected opposition.

While some college officials adopted a "watchful waiting" policy, others, particularly in the New England states expressed resentment that the central board should leave them "high and dry," as one coach put it.

The central board announced last Monday it would disband and suggested that the 60 odd colleges it had served for more than 20 years apply in the future to Okeson for any aid they might need in selecting officials. Okeson, at the same time, was appointed commissioner for the selection of football officials, an organization of 12 of the leading colleges in the East, including Army, Navy, Princeton, Pennsylvania, Columbia, Pittsburgh, Syracuse, Yale, Harvard, Dartmouth, Brown and Penn State.

A survey by the Associated Press among officials of representative colleges indicated many were skeptical of the success of any plan that would give such arbitrary power to one individual. There were indications that in New England, at least, several colleges would ignore the central board's recommendation and organize their own system for selecting officials.

Expressing a very critical point of view, Chick Meehan, head coach at New Yok University, characterized the new move as "high handed."

SHOTS and PASSES

by Julius Levin

THE J. J. Mieles, champions of the Pittsburgh and Ohio Valley League last winter, stand a good chance of winning the title for the second year in a row without going through the customary elimination series at the close of the season.

Having captured the honors in the first round of this year's schedule, the Mieles last night defeated the Sumer Somermans by four points, 21 to 17, to take sole possession of first place in the second round of play.

The Mieles are one of the outstanding basketball teams in this vicinity this season and are deserving of their high rating. They lost only two games in the first round, one to the Junkers at McKeesport and another to the Goldensons at the Market House.

The Somermans and Sianos, leading rivals of the Mieles, each have lost two games and another reverse for either of the last-named teams virtually will assure the champions of retaining their laurels.

The Johnstown Young Men's Hebrew Association extended the local Y. M. H. A. to the limit before bowing in defeat, 32 to 24. The Cambria countians have one of the best amateur teams to appear in this vicinity and should go far in basketball competition.

The Y. M. H. A. girls succeeded in getting revenge for a defeat suffered earlier in the season when they defeated the Goldenson Vanities, 14 to 9.

The Palamino Ate Club will meet the Keystone Club at Taylor Allderdice High School tonight in a benefit game for the miners in this section. Preparations have been made to handle a large crowd.

Next Saturday night the Y. M. H. A. will meet the Cabevin Club in a second round A. A. U. elimination game. The game is scheduled for the Y. M. H. A. floor.

The Soho Celtics, having won 12 out of 14 games, are eager to arrange contests with the Red McMahans, Rooney Reds and others in this class. Call Grant 1415-J.

Eddie Jesko, former Goldenson star, played a big part in the Sonrepes' clean-cut victory over the Sianos Tuesday night, scoring 21 points. Jesko compares with the best forwards in local basketball circles.

Home-made Supply of Fine Cough Syrup

Better than ready-made cough syrups, and saves about $2. Easily prepared.

If you combined the valuable properties of every known "ready-made" cough remedy, you probably could not get as much real healing power as there is in this home-made syrup, easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup, or clarified honey, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the throat tickle and heals the irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and it is splendid for bronchitis, hoarseness and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract and palatable guaiacol, which has been used for generations to break severe coughs.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Graham Gets High Score

NEW leaders in the annual Tri-State tenpin tournament were in prospect today as members of several of Pittsburgh's most prominent bowling teams appeared in the Penn Recreation alleys for the second day of competition. Eight teams from Allegheny Social Club and leading combinations of the Allegheny County League, now toppling the wood, are regarded by tourney officials as entrants likely to carry off much of the prize cash.

Some good scores were recorded by contestants in yesterday's rolling. The high score of the day, a 224 bowled by Graham in a doubles event, may not stand up as high throughout the tourney, but it is considered to be a fine mark at which the rest of the field may shoot. Edwards and Adolphson were high in the doubles, with a fine 1,167.

Coslosky was high man in the singles, smashing the pins for a three-game total of 584. Graham bowled the 224 high single game score, coupled with Gallagher in the doubles. The pair scored a 961. Hamilton and Adolphson were tied for second high in the singles, each bagging 561, and in fourth position came Secrist with a 541.

The Allegheny Social Veterans five-man combination was high in the team competition, with an aggregate of 2542. Second came the P. A. A. No. 4 team with a 2449 and third the East Pittsburgh Westinghouse quintet with a 2407.

Sutton and Marone were second in the doubles competition with 1067 and Hutchison and Coslosky were third with 1058.

Local bowlers will continue to usurp the spotlight tomorrow, but Saturday, bowlers from the entire tri-state district will swarm into Pittsburgh and take over the alleys in an effort to carry away with them some of the prize money.

THE semi-finals of the Pittsburgh and Lake Erie Railroad bowling tournament will be staged on the New Brunswick alleys in McKeesport on March 3, with teams representing Youghiogheny, Monongahela, Ohio and Pittsburgh divisions entered. The winner will represent the Pittsburgh and Lake Erie at the annual bowling tournament of the New York Central Lines at Columbus, O., March 24.

Teams and individuals wishing special dates in the fourteenth annual tournament of the Original Southern Duckpin Association are urged to get in touch with Secretary A. J. Rauscher at once. Rauscher can be reached at 122 South Twenty-third street, or telephone Hemlock 2492. Although the tournament does not open on the Forward alleys until the week of March 12, pin-topplers are advised to file their entries without delay. This event set a new record last year for number of entries and amount of prizes, and it is expected to be even bigger this season.

Adding three more games to their long victory string, the members of Team No. 2 practically clinched the title in the Westinghouse Rate Dux League. The race for second, third, fourth and fifth honors is exceptionally close.

Winning three games from the Champions while the Dragon Specials, their closest rivals, were losing two out of three to the Dragon Juniors, the Dragons this week gained first place in the Dragon Storage Battery Duckpin League.

SHARON, Pa., Feb. 9—Duckpin bowling is proving to be a popular sport here this winter. There now are 16 leagues in operation, making a total of some 600 bowlers who are shooting in various circuits.

NEW YORK, Feb. 9—Willie Hoppe moved into a first place tie with Allen Hall in the American League three-cushion tournament last night by defeating Otto Reiselt, 50 to 45, in 58 innings. Hall was idle. Hoppe had a high run of 7 to 5 for his opponent.

In another contest, Clarence Jackson topped Alfred De Oro, 50 to 41, in 43 innings, each scoring high runs of five.

ROCKNE

(Continued from Page 23.)

changes in the football rules are sure to help the game a lot," declared the mentor of the South Bend Irish. "The forward pass angle of play, in particular, will be benefited. In the past year there were many abuses suffered by defending players at the hands of offensive men who were not eligible to take the ball. These fellows could so harrass their competitors as to prevent the legitimate capture of passes.

"Under the new idea the whole plan of forward passing will be on a cleaner and fairer scale. There will be no interference on the part of charging players of the offensive side."

The revised legislation on backward or lateral passes is a timely correction, according to Rockne.

"A premium is put on good line play by changing the rule affecting lateral passes," quoth Knute. "Under the plan discarded there was nothing to be gained by a good forward who could break through and smear a play; now these passes must be tossed at least two yards before being classed as lateral passes. Hence a player who can get through to smear the ball will not see his work discounted on the lateral pass alibi."

PLAY SIMPLIFIED

The third change in the rules has to do with muffed and fumbled punts. Under the new legislation there is no distinction between the two terms. The new rule states that the kicking side may recover any muffed punt or any ball which may be fumbled during the course of a run back, but may not advance the ball beyond the point of recovery.

"Besides adding to the appeal of the game, the new rules should help the officials," concluded Rockne.

The Notre Dame grid instructor will have charge of a big group of football coaches and other sport celebrities that will soon leave for the Olympic games in Amsterdam. Rockne said the tour was able to take care of 400 persons.

Among the first to greet Knute upon his arrival was Elmer Layden, one of the illustrious "four horsemen" of a Rockne team that stands out in football history. Layden, rated as one of the greatest grid luminaries, is the head coach of Duquesne University football squad.

GARCIA'S MANAGER HERE

Bill Hoppe, of Baltimore, manager of Bobby Garcia, the junior-lightweight, and Eddie Burnbrook, the welterweight, was a visitor in town today. He was on his way back home from Dayton, O., where Garcia fought a great battle with Mike Dundee Tuesday night. While here he negotiated with local matchmakers and visited Sandy Seifert, North Side heavyweight, in the latter's home.

A move is under way to match Corp. Izzy Schwartz and Frankie Genaro, rival claimants of the flyweight title, in New York.

Amateur boxing bouts will be staged in the Duquesne Garden Auditorium tonight by employes of the Pittsburgh Railways Company. An amateur show also is carded at the South Hills Country Club Saturday night.

Joey Sanger, with two victories in three starts over Bud Taylor to his credit, is favored to beat the bantamweight titleholder again in their meeting as featherweights in Chicago tonight.

FRANK MORAN HONORED

Frank (Mary Ann) Moran, former local heavyweight ace, has been named a boxing inspector by the California Athletic Commission.

The Midget Wolgast-Willie Davies bout is set for Motor Square Garden next Monday night. It will be backed up by a strong preliminary card.

Johnny Windsor, local welterweight boxer, and Frankie Palmo of Cincinnati, drew in a six-round bout at Cincinnati last night.

debt I was supposed to owe was illegal and I have explained several times that it wasn't a debt of honor, so I am not worried about any tinhorn gamblers' threats to harm me," Hornsby declared.

"Just let them try it," he said, with a significant squaring of his shoulders. "I would like to feel some of these fellows who are talking so much, but not coming near me." Hornsby's attitude indicated he would like to fell instead of feel the gentlemen mentioned.

Hornsby said he was not worried, had not been worried and would not be worried by any reports that the gamblers were "after" him.

patrons, Manager Jim McGirr of the Majestic Club, McKeesport, planned to put on a battle royal at his show in the Tube City tonight, but when he sought the permission of Commissioner Boyle the latter decided to put all such exhibitions under ban.

As a result of this stand there will be no battle royal in McKeesport tonight nor at any other boxing show in this territory in future. "Battle royaling" is out, from now on.

THE "battle royalers" have killed their own "game," it might be said.

In the old days they fought with great earnestness, and the lone survivor took great pride in the fact that he had outlasted all the others. Besides, there was extra money for the winner.

But then the dusky battlers concluded that it would be a better business plan to arrange the thing beforehand, and that they could save themselves from a lot of bruises by entering into a "gentleman's agreement," whereby one after another would quietly lie down after receiving a punch or two, leaving the man agreed upon to remain on his feet.

Then they would split the money five ways and continue to put on the same act wherever they were engaged to appear.

"THE battle royal business has become such a fake that I think it should be stopped, and I believe I am acting for the best interests of the fans in doing so," said Commissioner Boyle. "Besides, even at its best it is too much like alley or barn fighting, and does not serve to elevate the boxing game. I believe the sport will be better without it, so it will not be permitted hereabouts any longer."

WHEN the Pitt and Penn State basketball teams meet in the Panther Stadium Friday night, a new official will be presented to local floor fans.

Beggs Snyder.

Until this season it was Pitt's custom to use Herman Baetzel of Philadelphia to work with Beggs Snyder, the local official, who ranks with the best in the game, but Baetzel has not been given an assignment here during the present campaign, and on Friday night a new man will appear with Snyder in the person of Clinton R. White of Windber, Pa.

White has worked in a number of games at State College and is said to have shown in every appearance that he is a front-rank official.

Snyder will officiate as referee on Friday night and White as umpire.

In meeting Carnegie Tech on Saturday night and Pitt on Friday night, Penn State is reversing its custom of past years, as previously on visits to Pittsburgh it met Carnegie Tech first and tackled the Panthers the following evening.

EDDIE MOORE, former Pirate, is to be given another tryout for the third-base job on the Boston National League club this year, before possibly getting an opportunity in the outfield, according to Manager Jack Slattery. Second base, of course, is no longer open to Moore or any of the old Boston infielders, as Rogers Hornsby will hold down that sack, and as Dick Burrus or Johnny Cooney will play first base, if George Kelly is not obtained, and Eddie Farrell is slated for shortstop, third base is the only infield position that is not as good as filled already.

Bubbles Hargrave.

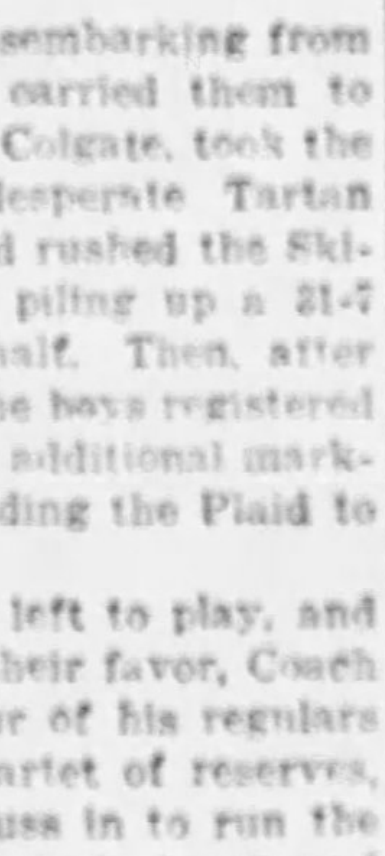
"Farrell will be at shortstop, and Moore, High or Gautreau at third," said Slattery. "There is nothing in the Cooney deal that has changed our original intentions along this line."

Slattery said that the Braves were at the moment on the trail of an experienced catcher, who is the property of another major league club. He refused to mention any names, but he is known to have been dickering for Bubbles Hargrave of the Reds.

MOST baseball dopesters figure that another pennant victory for the New York club in the American League is about the safest and surest guess that can be made in connection with this year's major league races.

But Waite Hoyt, one of the regular pitchers of the Yankees warns the prophets not to take too much for granted. Hoyt confided to Thomas Holmes that the Yanks ought to win the 1928 flag, and that he believed they would, but that the race would not be a walkover by any means and that the Hugmen would not repeat by a margin of 19½ games or anything like that.

"IT'S this way," said Hoyt. "The New York club was the perfect baseball team last season. It had everything in the way of a tremendous attack. It got good pitching and had a fine defensive team.



Waite Hoyt.

"But the whole club was moving at top speed. Every important cog in the machine had a good year. Babe Ruth broke his home run record that they said he'd never break. Lou Gehrig surprised every one. Earl Combs played sensational ball. Wilcy Moore came through.

"Such conditions are too good to last in baseball. A manager must expect bad breaks in the form of certain important players getting off form. When every one goes like wildfire for one full season, it's all very well. But that doesn't necessarily mean that the whole business will move along so smoothly in another year."

hours' rest since disembarking from the Pullman that carried them to West Point and to Colgate, took the floor against a desperate Tartan team last night and rushed the Skibos off their feet, piling up a 21-7 lead in the first half. Then, after the intermission, the boys registered some 10 or a dozen additional markers, meanwhile holding the Plaid to three or four.

With 12 minutes left to play, and the score 44-11 in their favor, Coach Carlson jerked four of his regulars and inserted a quartet of reserves, leaving Paul Zehfuss in to run the team. The Skibos took heart and with Howard Harpster flinging field goals with reckless and joyful abandon, scored a total of 21 points for the half to cut down the Pitt lead by a respectable figure.

Pitt's Freshman five staged a brilliant up-hill battle to down the Tartan Plebes in the preliminary game, 32 to 28.

BUCS SIGN RECRUIT

THE Pittsburgh Pirate baseball club has signed Coburn Jones, a recruit infielder from Fort Bayard, N. M., and the westerner will train with the Pirates at Paso Robles, according to an announcement from the club officials. He was recommended by Scout Chick Fraser.

CHILLY SAUCE

By CHILLY DOYLE

THE problem of getting those Phillies out of the cellar is again up. Bert Shotten is concentrating on the uplift work, which will be watched with interest. The Phillies are handicapped by an apparent lack of funds. Every now and then a star lands in the Baker bowl for an extended stay, but there is no definite route to bring the promising youngsters there.

AN inadequate scouting system is one of the barriers to success in Quakertown. And if the owners are apprised of a youth of stellar qualities they will not spend the same big sums that pass to the minors when many other teams negotiate for recruits.

IN the last draft the Phillies landed Thirdbaseman Pinkey Whitney, who starred with the New Orleans club which won the Southern Association flag. Recently the Phillies tendered the youngster a contract which was returned unsigned. The rookie said he thought he ought to receive at least as much as he made in the minor league. Obviously the contract which reached him aws a big-league document in name only.

SHOTTEN is likely to have a slightly better infield, provided Fresco Thompson stays with him. Bert has landed Firstbaseman Billy Kelly, a home-run walloper in the International League and American Association. But Shotten will find a slab staff that is likely to cause him many hours of worry. If the new pilot is able to lift the Phillies up only one notch he will have accomplished something under the circumstances.

MEANTIME, the Phillies' opposition is trying hard to mold a flag-contender. Connie Mack apparently thinks that Tris Speaker will help his club. Quaker City reports state that Mack still hopes to include Ty Cobb in his revamped team, the salary question being the only hitch.

IN the event that Cobb signs for the "A's," Connie will show the fans of the American League a stellar pasture array in Speaker, Cobb and Simmons.

QUIETLY and patiently, Mack has striven to build up another pennant winner. In the past several seasons the early antics of his team has caused flag dreams in the City of Brotherly Love, but the cruel Senators and Yanks came along to turn these reveries into nightmares.

THE outlook for 1928, so far as Mack and the Athletics are concerned, is not rosy. Those Yanks with Bambino and Bustin' Lou rearin' to go constitute a permanent storm on the A. L. horizon. However, one can never tell.

Champs Top All Foemen

By TOM BIRKS.

IT is doubtful if Western Pennsylvania has ever had a soccer scoring machine the equal of the Heidelberg eleven, national amateur champions. The Green and Gold machine has tallied a total of 66 goals in the past six games, an average of 11 goals per contest. Let the dopesters go to work on that.

The question now arises: "Who is going to stop the Green and Gold tornado that is crushing everything in sight?" It is hardly possible that it will be beaten in the remaining games of the National amateur cup in this district. All of the loyal soccerites will be pulling for it to clean up in national play.

Last season Manager Balsarini was faced with a delicate problem, that was the fact few reserve men were available. This trouble is not evident this season, unless a rash of serious injuries breaks out among the players.

Berky Jones, Kuzis and Harbin were missing from the lineup last Sunday and any of these players would be able to make the grade on any amateur team in the country. Most of the players, however, are very keen on getting that second amateur cup medal. It is hard to see just who will be able to stop them.

STAR TEAMS GONE

The Defenders, La Flamme, Toledo Steel, and the Swedish-Americans of Chicago are gone, and unless there is a real dark horse, the remaining clubs do not shape up as being capable of defeating the Western Pennsylvania eleven.

Soccer is now at the peak of its popularity. The National Challenge and amateur cup tourneys are going apace and most of the league races are furnishing plenty of interest.

The American-Hungarians of Cleveland, conquerors of the Pittsburgh Soccer Club, in the National Open, advanced another notch in the tourney Sunday when the Caraffi outfit swamped the Viennas from Chicago.

The big surprise, however, in this round was the defeat of the 1927 finalists, the Holley Carbureter teams of Detroit by the Sparta Club at Chicago. Holley was considered stronger than last season.

Plenty of interest in the district is centered on the big soccer meeting scheduled for aSturday evening, when quite a number of embarrassing questions will be asked by the fans of the district. However, this meeting should clear the air one way or another, and the season could then be completed with harmony.

Next Sunday the National Amateur cup committee will gather together at Cleveland for the draw for the fifth round of the cup. There is some interest locally, as Harmarville and Swissvale have a protest before the committee to settle and with the national champs still in the fight, there are quite a few people interested in the draw.

One of the big events of the week is the benefit game scheduled for Swissvale on Saturday when Pittsburgh meets the U. S. & S. in a benefit game for Toman, the star Pittsburgh S. C. player.

The big card comes on Sunday, when four games are scheduled in the American League.

tender. Had they lost last night, they would have forfeited all chance to win out in the league race.

Ed Losman and Joe Vernon led the Duke attack against the Jackets, Losman starting the rally that netted the victory in the second half. Vernon caged four field goals and played a fine floor game. The Dukes trailed by a single point at half-time, and in the second period, neither team was able to score until 12 minutes of play had elapsed. Then Vernon tied the count with a foul and from then on, the Dukes kept ahead of the home team.

fourth consecutive game, downing the Black Hawks 2-1, and edged up to within a game of the Detroit Cougars and a play-off berth.

The game last night was a hotly contested, bitterly fought one, with both teams playing a fine brand of hockey. Pittsburgh scored its goals while the Hawks were short-handed, piling in one score in the first period when Cotton tallied, and another in the second period when McCaffrey conducted the disc to the net and Milks banged it in.

The Hawks got away to the lead when Mackay tallied after six minutes of play in the opening session. He snapped Keats' rebound past Worters, who had made a marvelous save of the latter's try for a goal.

Cotton evened matters in just a few moments, and the teams remained deadlocked until midway in the second period. Gardiner was struck in the face with the puck when Milks tried a shot from the side of the rink, and after receiving medical attention, returned to the contest. The Bucs showed him little mercy, and while Mackay was on the bench on a penalty, Cotton slammed McCaffrey's rebound past Gardiner, who had been drawn out and the game was all but "in."

NEW YORK, Feb. 9.—(AP.)—Reports that Charley Gorman, international speed skating champion, now abroad with the Canadian Olympic team, will turn professional and join the Detroit National League Hockey Team came as a surprise today to Jack Adams, manager of the Detroit Club, here to play the New York Americans tonight.

Adams said he was unaware of Gorman's intentions, but it was learned the speed star is likely to make the move. Gorman now lives in Detroit, but has represented Canada for several years in speed skating, winning numerous titles and setting many records.

Panther Trackers Called

The training grind for track and field candidates at Pitt will get under way in earnest at the Panthers' indoor track house next Monday afternoon, Coach Frank Shea, who has been grooming "rookies" for some time past, has issued a second call.

Because the schedule this season is one of the stiffest ever attempted by a Pitt track team, Coach Shea has emphasized the fact that he can use more new candidates than ever before. Four dual meets, two big relay meets and Olympic trials are on the Panther program.

The schedule follows:

April 21—Ohio State Relays.
April 27-28—Penn Relays.
May 2—Inter-department meet at Pitt Stadium.
May 5—West Virginia at Morgantown.
May 8—Carnegie Tech at Pitt Stadium.
May 12—Penn State at State College.
May 19—Big Four meet at Pitt Stadium.
May 26—Intercollegiates at Harvard.
June 6—Meet pending.

Here's How!

Chicago—1.		Pirates—2.
Gardiner	G	Worters
Trapp	D	Burke
Wentworth	D	McCaffrey
Keats	C	Milks

The sum-total of pipe-joy

IF YOU could take an adding-machine and set down all the qualities you demand in a pipe-tobacco, such as fragrance, coolness, mildness, satisfaction, when you pulled the lever, the total would read: "Prince Albert." You can prove it with a pipe and a tin of P.A.

Throw back the hinged lid and revel in that aroma of the world's most popular pipe-tobacco. Put a load into the bowl of your pipe and light up. Draw that cool, refreshing smoke deep down and exhale slowly. That's Prince Albert! That's living! You'll go to it from breakfast to bedtime.

Prince Albert leads all other brands in sales, because it leads in satisfaction. The word "satisfaction" has worn a little thin from much use, but a pipe and P.A. give it an entirely new meaning. You'll say so on your very first pipe-load, and you'll be a Prince Alberteer after *that!*

Forbes

Seattle a World City; Gateway to the Orient.

By B. C. FORBES

SEATTLE, Wash., Feb. 8.

ROMANCE? Here it is.

Seattle has a citizen, still hale and hearty who was in at the birth on this spot of the original white settlement of 21 souls and who today looks upon that settlement blossoming into a veritable metropolis nearing the half-million population mark.

To stir your imagination, quicken your patriotism, fan your enthusiasm and fire your ambition and determination, travel.

WHY Seattle? Why its founding? Why its phenomenal growth? Because Seattle is where a world city had to be, comes the ringing answer.

Supplement that with the statement that Seattle has been blessed with vigorous, two-fisted civic leaders, and with a climate that radiates health, and you begin to understand the why for of this city's Aladdin-like history.

SEATTLE'S crescent shaped harbor ranks among the half dozen choicest in the world. It is the western terminus of more transcontinental railroads than any other Pacific coast gateway. Seattle is 329 miles nearer China, Japan and the Philippines than more southerly cities.

Seattle is a long way from New York's Broadway—measured by miles. But measured by transportation costs, it is nearer Broadway and the populous East than are such inland cities as Kansas City, Indianapolis, St. Louis, Minneapolis, St. Paul, Louisville and even Chicago.

The water rate on certain commodities from Seattle to New York is actually the same as the cost of hauling these commodities from Minneapolis to Chicago. Transportation-wise, Seattle is nearer the largest markets than certain cities that proclaim themselves located at America's geographical center.

AFTER transportation, industry.

The lumber industry alone brings into the state of Washington more than a million dollars of new money every business day—$350,000,000 a year. Load one year's cut of six billion feet of lumber into box cars and the train would stretch from New York to Denver.

Fishing pours into this city more money than the sea yields to any other American city. North Pacific and Alaska fishing represent a $60,000,000-a-year industry.

The Pacific Northwest is a mineral Eldorado. From Montana comes copper unending, from Idaho lead and zinc, from Washington coal and minerals. The total wealth given up by these mines is estimated at five billion dollars. And Seattle ships much of it.

The farms of the Pacific Northwest Empire normally produce $500,000,000 worth a year, including 120,000,000 bushels of wheat, 45,000,000 bushels of oats and nearly half the nation's commercial apple crop.

America's $7,200,000 purchase at the top of the Pacific Ocean has proved somewhat profitable. Alaska since then has exported (chiefly through Seattle) $360,000,000 of gold, a total of $574,000,000 of minerals, $648,000,000 of fish products, $105,000,000 of furs. Each year Alaska buys $40,000,000 worth of goods, mostly from Seattle.

Try some day to take the now popular holiday trip to this fascinating realm of our national domains.

Think of this: There is an average of one sailing a day out of Puget Sound for the Orient.

British, Japanese and Americans are waging a battle for trans-Pacific supremacy. The prize, the mounting commerce between the United States and the 600,000,000 people across the Pacific. The prize indeed, is even greater, because if these foreign nations can drive the American flag off the Pacific Ocean, they will strike a deadly blow not only to American shipping, but to America's commercial strength and, even more serious, her security as a world power. Too bad there was not more truth in Senator Oddie's fantastic complaint that the entire shipping on the Pacific was monopolized by one American.

SUGAR MARKET.

NEW YORK, Feb. 9.—There was no change in the raw sugar market early today. It developed that late yesterday 29,700 bags of Porto Rican sold to a refiner for March shipment at 4.24c, and today 5,000 bags more of the same sugar sold to an operator for February shipment at the same price, and about 85,000 bags of Cuban to operators for February shipment at 4.27c.

Raw sugar futures opened irregular at 2 points advance to 2 points decline. The March position showed the maximum advance, due to covering by a large Cuban interest, while the later positions were off under liquidation and selling by houses with Cuban and European connections. There was a good deal of covering and new outside buying on the decline, however, and rallies followed, with the market at midday net unchanged to 2 points higher.

The refined sugar market was unchanged at 5.70c for fine granulated with a fair inquiry, although buyers were still limiting purchases to nearby requirements.

CHICAGO BOARD

CHICAGO, Feb. 9.—Commission house selling increased on corn price upturns today, and indications pointed to dearth of export business in corn overnight. Under such circumstances, corn and wheat both developed weakness early, with wheat influenced also by declines at Liverpool and cheaper offerings from Argentina. Opening ⅛ to ⅝c off, corn rallied in some cases to above yesterday's finish. Wheat started ⅛ to ⅝@¾c down and held near to initial figures. Oats were easy. Provisions tended upward.

At some time corn was the same as yesterday's finish to ⅝c higher and wheat ⅛ to 1⅛c up.

Crowds in the corn pit today attested greater general interest at present regarding corn than any other board of trade commodity, but unlike yesterday the selling side of the corn market attracted the greater number of brokers. Much of the selling appeared to be of a profit-taking character, but the fact was also evident that foreigners were not following yesterday's advance.

In connection with signs of a pause in corn export demand, advices were received that although United States mixed corn and Liverpool continues to undersell old crop Argentine corn, the new crop Argentine corn is quoted much lower. It was also stated that Argentine weather is more favorable for the new corn crop and that the official Argentine corn acreage estimate looked for tonight is generally expected to be in excess of the figures for the two previous years.

STOCKS FOLLOW INDUSTRIALS UPWARD

NEW YORK, Feb. 9.—(AP.)—After an early period of irregularity today, the stock market swung upward under the leadership of the standard industrials, lowering of the call money rate from 4½ to 4¼ per cent, reports of further improvement in the steel industry and expectations of a special dividend disbursement by General Motors directors after the close stimulated the buying movement, which embraced a wide assortment of stocks.

General Motors changed hands in enormous volume, climbing nearly 5 points to around 139, as against a record price of 141 for the present stock established last year. United States Steel common was bid up more than 2 points to 147 on buying influenced by predictions of an unusually favorable steel tonnage statement at noon tomorrow. Sharp gains also took place in some of the high-priced industrial specialties. International Harvester soared 5 points, Midland Steel Products preferred 7, and Case Threshing, United States Industrial Alcohol, American Zinc preferred, American Republics, Westinghouse Electric and Continental Can advanced 4 to 5 points above last night's final quotations.

Rails, which have been sluggish for the past few weeks in reflection of poor 1927 earnings statements moved forward with the industrials although the gains were held to a point or two.

PITTSBURGH PLATE GLASS DISPLAYS STRENGTH

FIRM TONE IN MAIN LIST

Securities on the Pittsburgh Stock Exchange maintained a steady tone in today's session, although price movements were narrow and business was on a light scale. Recent trading favorites were quiet, but held steady around the levels prevailing earlier in the week.

The movement in Lone Star Gas which appeared to be getting under way at the end of last week petered out and the stock lagged today between 54¼ and 55, comparing with the recent high of 55¾, the best price for several weeks.

Pittsburgh Plate Glass sold again at 214 in the early market, duplicating the high established in yesterday's market when the price moved up from 210½. Pittsburgh Plate and the Du Pont interests have formed a company to make safety glass for automobiles and will erect a plant at Creighton. It was thought this development was behind the recent firmness in the local company's shares. The two concerns will own all of the stock of the new company.

The sharp advance in Westinghouse Electric on the New York Exchange was not reflected in any increased activity. Bids for the shares, however, followed the price trend on the "big board," where the stock had an advance of about five points. Airbrake displayed sympathetic strength.

Miscellaneous manufacturing issues maintained a consistently steady tone. A fractional advance was registered in National Fireproofing preferred but not much of the stock came out. Pittsburgh Plate Glass bettered its early price on subsequent sales, but other glass issues remained quiet.

NEW YORK BOND MARKET

NEW YORK, Feb. 9.—(AP.)—The bond market today showed no signs of changing from the dull hesitancy which has characterized it for several weeks. An increasing volume of new offerings combined with the unsettlement of the money market to keep commitments at a low level, while the belief that a large flood of new issues is nearing the market added to the caution.

The reinvestment demand, which last year caused a rapid expansion of the bond market in the early weeks, has fallen far short this year. Prices of bonds are well above the levels of a year ago and the turn in the credit situation has had a tendency to restrict buying.

Only a few issues showed outstanding activity today. Kayser Company 5½s were at a new high for the year, and there was very moderate buying of a few prominent railroad liens. Pathe Exchange 7s continued to fall back sharply and Montana Power 5s sustained a loss of about a point.

Foreign issues continued firm as a whole, although there was some easing of Latin American bonds, especially Santa Fe (Argentine) 7s, which were down a point.

United States Government obligations were again quiet in the early dealings.

Prompt oversubscription was reported of the $10,750,000 Paris-Orleans Railroad issue.

FINANCIAL NEWS AND VIEWS

Continental Can Gains.

Continental Can Company reports for the year 1927 consolidated net income of $4,431,444 after depreciation and taxes, equal after preferred dividends, to $7.54 a share on 540,000 common shares outstanding, against $3,734,144 or $6.72 a share on 500,000 common shares in 1926.

Gotham Silk Hosiery

Gotham Silk Hosiery Company reports for 1927 consolidated net income of $2,497,452 after depreciation and taxes, equal after preferred dividends to $5.66 a share on 415,522 common shares, as against $2,173,464 or $4.59 a share on the 414,672 shares in 1926.

Seminole Output Unchanged.

The Seminole area for 24 hours ended at 7 a. m. Wednesday produced 122,414 barrels crude oil, against 122,142 barrels on Tuesday.

Expect Tonnage Increase.

Upward revisions are again being made in the estimates of the increase of unfilled orders of the Steel Corporation as of January 31, last, to be published at noon Friday. It is believed that incoming business in January was at the rate of more than 12,000 tons daily in excess of shipments, which has led to predictions that the gain in tonnage will be somewhere between 325,000 and 400,000 tons. In December the increase was 319,124 tons. Because of the increase in production and shipments during January, an increase of around 310,000 tons would be considered an excellent showing. Allowances are made, of course, for adjustments of contracts which are usual at the end of each month, and which normally increase the figures during periods when operations are high and price advances are indicated.

Ingot Output Higher.

The country's ingot production of steel is about 81 per cent of capacity, against 73 per cent a week ago and 77 per cent two weeks ago. The gain is due to higher rates among the independents, as United States Steel shows a small decrease. Independents' average is around 79 per cent, against 75 per cent a week ago and below 72 per cent two weeks ago. The Steel Corporation rate is slightly above 83 per cent, against 89 per cent last week and 82 per cent two weeks ago. The small decrease this week is not considered significant.

Philadelphia Bond Issue Coming.

An issue of $7,100,000 4 per cent bonds will be offered by the city of Philadelphia on March 5.

American Snuff Profits Increase.

American Snuff Company net profit was $1,973,917 after depreciation and federal tax for the year to December 31, equal after preferred dividends to $15.71 on 110,000 common shares, as compared with net profit of $1,472,449 or $11.85 a share on common in 1926.

Pacific Telephone.

The Pacific Telephone and Telegraph Company for 1927 earned after preferred dividends $7.19 a share on the common stock, against $12.04 in 1926. There are now 510,000 common shares, against 120,000 in 1926.

Siemens Dividends Increased.

Siemens & Halske and Siemens-Schuckertwerke, the largest manufacturers of electrical equipment in Germany, will increase their dividends for the year 1927, the former to 12 per cent and the latter to 9 per cent, comparing with 10 per cent and 6½ per cent, respectively. The increases are subjected to approval of stockholders. Holders of the companies' outstanding 6½ per cent debentures will benefit by this increase in dividend due to the contingent additional interest provisions. The contingent and additional interest, which will be payable on May 1, 1928, amounts to $10.40. This compares with a similar payment last year of $7.16. Dillon, Read & Co. underwrote $24,000,000 bonds in 1926 in the form of 50 per cent paid allotment certificates at 93. These bonds are quoted currently on the New York Stock Exchange at 197. The proposed contingent additional interest of $10.40 is payable to holders of 50 per cent paid certificates, as well as those holding fully paid bonds.

Curtiss Earned $2.77 a Share.

Curtiss Aeroplane Motor Company for year 1927 reports net income was $931,162, equal to $9.77 a share on 2,123,106 7 per cent cumulative participating preferred stock and $2.77 a share on 218,000 common shares.

Brill Earnings Increase.

J. G. Brill Company reports consolidated net income of $1,026,198 for year ended December 31, 1927, after depreciation and federal taxes, equal after preferred dividends to $14.93 a share on 48,102 common shares, against net of $714,372 or $8.39 a share in 1926.

Chesapeake Corporation.

The Chesapeake Corporation reports net profit was $2,117,891 after all charges for the period from May, 1927, to December 31, 1927, equal to $2.35 a share on 900,000 no-par shares.

Freeport Texas.

Officials of Freeport Texas Company state there is absolutely no change in the fundamentals of the business so far as pertains to Freeport. Production at both Hoskins Mound and Bryan Mound, Tex., has shown material increase during the recent past rather than a decrease. Prices for sulphur are firmer than they were for 1927. Low-priced contracts on the books of the company, which were material during 1927, have been reduced to an absolutely negligible quantity for 1928.

Certainteed Earnings Steady.

Report of Certainteed Products Corporation for year ended December 31, 1927, shows net profit of $2,340,333 after depreciation, interest and federal taxes, equivalent after preferred dividends to $6.07 a share on 267,000 no par shares of common stock. This compares with $2,331,426 or $6.01 a share in 1926.

Johns-Manville Corporation.

Johns-Manville Corporation reports net income of 3,558,621 after federal taxes and depreciation for nine months ended September 30, equal after preferred dividend to $1.19 a share on 750,000 common shares. The income account shows: Net sales, $34,042,119; net earnings, $4,426,365; federal taxes, $447,363; depreciation, $179,917; net income, $3,830,125; dividends, $1,247,199; surplus, $2,417,125.

Steel Reviews Optimistic.

The tone of the leading steel trade weeklies was strongly optimistic. The Iron Trade Review pointed out that if production increased this spring from the present level only about one-third of the gain shown between December and January a new record of output would be achieved. January output was actually larger than in the corresponding month of 1927, with the important difference that the tendency of prices was then downward while it is now firmly upward. Another difference, pointed to by the Iron Age, is that there was some stocking of steel a year ago while production this year is not being assisted by that factor. Railroads are still important consumers and demand for 100,000 tons involved in contracts now being figured on. Pig iron, for long the weakest spot in the situation, has strengthened materially, both demand and prices having advanced in the past week.

Alcohol Rumor Revived.

Recent strength in United States Industrial Alcohol has revived rumors of a consolidation of that company with the Air Reduction Company. The Rockefeller interests are understood to control Industrial Alcohol.

Consolidated Gas at New High.

Consolidated Gas rushed up to a new high on persistent rumors of a merger of several of the important utilities in the New York district. There was also talk of an increase in the dividend rate on the stock.

Rossia Insurance.

Statement of Rossia Fire Insurance Company of America as of December 31, 1927, shows total assets of $16,191,541 comparing with $12,277,214 at end of 1926. Company set up a new contingency reserve of $200,000 and continued the $825,000 special reserve. It was not until December 15 that the increased capital and paid in surplus was effective, the 16,000 shares of new stock being added in December. Surplus on December 31, last, was $1,792,300 against $1,322,178 at close of 1926. Of the $2,449,922 increase in this item $1,040,000 was paid in. The premium reserve reported was $8,235,132 comparing with $7,327,402 in previous year, an increase of $929,120. Dividends paid amounted to $184,000.

Duquesne Light Company.

Duquesne Light Company reports for 12 months ended October 31, 1927, net income of $8,773,676 after taxes, rents, interest, amortization, depreciation, etc., comparing with $7,540,694 in preceding 12 months.

Statement for 12 months ended October 31, 1927, compares as follows:

	1927.	1926.
Gross earnings	$25,556,119	$25,441,539
Net after taxes	13,300,984	11,195,240
Total income	13,909,341	11,925,740
*Net income	8,773,676	7,540,694

Cabell-Somerset Crudes Cut.

The Joseph Seep Agency announces reductions of 15 cents a barrel in Cabell crude to $1.35 and a like amount in Somerset crude to $1.45. These are Kentucky grades.

Atlantic Reduces Kerosene.

Atlantic Refining Company has reduced the tank wagon prices of kerosene 1 cent generally throughout Pennsylvania, making the new tank wagon price 13 cents a gallon. The company also reduced kerosene prices 1 cent at Dover, Del., and 2 cents at Wilmington, Del. This is the first change in wholesale kerosene prices in Pennsylvania since April 28, 1927.

General Building Improves.

According to a recent statement of the Economic Research Bureau of the American Bond and Mortgage Company, the general building situation shows considerable improvement. Speculative house building has decreased, due to a tightening of credit for such operations, and more building of a public nature is being done.

COTTON MARKET

NEW YORK, Feb. 9.—The cotton market opened steady today at a decline of 2 to 5 points. Buying on the firm showing of Liverpool was readily supplied by realizing combined with local selling promoted by rather better prospects for rains in the southwest.

May contracts sold off to 17.71c and October to 17.52c after the opening, net declines of 7 to 10 points but there was very little southern selling in evidence, and after initial offerings had been absorbed prices steadied on covering and trade buying. May sold up to 17.79c and active months generally were within 2 or 3 points of yesterday's closing figures at the end of the first hour.

The market showed increasing firmness later on local and New Orleans buying accompanied by continued talk of a steady spot situation and reports of a better tone in the goods market. May contracts sold up to 17.92c and October to 17.69c, making net advances of about 10 to 12 points and the market was within a point or two of these figures at midday.

ALLEGHENY COUNTY, PA.
DEPARTMENT OF PUBLIC WORKS.
Pittsburgh, Pa., February 9, 1928.

Separate and sealed proposals will be received at the office of the County Controller of Allegheny County until 10:00 o'clock a. m. (Eastern Standard time) Wednesday, February 29, 1928, and will be opened by the County Commissioners one hour later for making the following improvement:

Liberty Bridge No. 10, Monongahela River—Filling openings in sidewalks at railing posts.

Specifications, form of contract, instructions to bidders, proposal and blueprint copies of letting plans may be viewed at the office of the Commissioners of Allegheny County.

Copies of the above data for use of bidders will be furnished upon application to the Contract Clerk in the Department of Public Works of Allegheny County, Room 104, 519 Smithfield street, Pittsburgh, Pa. Deposits in the amount of $5.00 each will be required for each set of blueprint copies of the letting plans and specifications. Receipts for said deposits will be given and the money refunded upon return of the plans and specifications in good condition and without marking within 10 days of the date bids are opened.

Proposals must be accompanied by a certified check for the amount fixed in the "Instructions to Bidders" as evidence that the bidder will accept and carry out the conditions of the contract in case of award.

The County Commissioners reserve the right to reject any or all bids.

PRIVATE SALE OF REAL ESTATE

In the Orphans' Court of Allegheny County, Pa. In re: Estate of Kazmiera Klos, deceased. No. 422 January Term, 1928. Notice is hereby given that the Safe Deposit Bank and Trust Company of Tarentum, Pennsylvania, administrator of the estate of Kazmiera Klos, deceased, has presented its petition to the Orphans' Court of Allegheny County for an order to sell at private sale for the payment of debts of said decedent to Anthony Fabisiak and Maryanna Fabisiak, his wife, for the price of four thousand ($4,000.00) dollars in cash, the following described real estate of which said decedent was seized at the time of his death:

ALL that certain lot or piece of ground situate in the Township of Harrison, County of Allegheny and state of Pennsylvania, being lots Nos. 115, 116 and 117 in Plan of lots of the B. M. Brackenridge Estate in Harrison Township, Section No. 1, said plan being recorded in Plan Book vol. 26, pages 108 and 109.

BEGINNING at the corner of Outlook street and Caroline avenue and extending thence along the west line of Caroline avenue in a northerly direction, one hundred twenty (120) feet to a twenty-foot alley; thence along the south line of said twenty-foot alley in a westerly direction, seventy-five (75) feet to a point and the corner between lots Nos. 114 and 115; thence along the division of line between lots Nos. 114 and 115 in a southerly direction one hundred twenty (120) feet to the north line of Outlook street and thence along the north line of Outlook street in an easterly direction, seventy-five (75) feet to the place of beginning.

BEING the same property which Wladyslaw Cywinski, by deed of record in the Recorder's Office of Allegheny County in Deed Book vol. ——, page ——, conveyed to Kazmiera Klos.

And the said Court has fixed the 25th day of February, 1928, at 10 o'clock a. m., as the time, and the Orphans' Court Room in the City-County Building, Grant street, Pittsburgh, Pennsylvania, as the place for considering the same, when and where all persons or parties interest either as heir, creditor or intended purchaser, may appear, be heard, and object to said sale or bid an amount in excess of the sum of four thousand ($4,000.00) dollars, by offering a substantial increase therefor in accordance with the Acts of Assembly in such case made and provided.

IT JUST BURNS ME UP EVERY TIME I READ THAT TELEGRAM FROM HENRY AND MABEL WARNING US TO GET READY FOR A VISIT FROM THEM. SUCH CRUST! WELL I'LL SURE TELL 'EM THAT THIS IS NO TOURIST'S CAMP.
SUCH NERVE! AND FROM RELATIVES WE HAVEN'T SEEN FOR YEARS.
EVERY TIME I SAW HIM HE WAS JUST STARTING OUT TO SET THE WORLD ON FIRE — WITH BORROWED MATCHES.
SHE'S WORSE THAN HE IS. DIGS HAVE THE SAME EFFECT ON HER THAT WATER HAS ON A DUCKS BACK.
NO WONDER THEY CAN MAKE TRIPS AROUND THE WORLD I'LL BET THE ONLY TIME THEY GO NEAR A HOTEL IS WHEN THEY WRITE LETTERS.
WELL THEY WONT HANG AROUND OUR NECKS FOR TWO OR THREE MONTHS, MY MIND IS MADE UP ON THAT.
EVER SINCE WE GOT THAT TELEGRAM I'VE BEEN TRYING TO THINK UP SOME SURE-FIRE WAY TO SHOW THEM THAT WE'RE JUST AS SMART AS THEY ARE. AND I'M A LONG WAY FROM ADMITTING IT CAN'T BE DONE, TOO.
SUCH PEOPLE! SUCH NERVE! THAT'S RELATIVES FOR YOU EVERY TIME.

...veloping the mine because I felt it
...too much of a gamble for investors
require too much capital to develop the
project.
While the radium samples of Panamint
Perkins were the richest I have ever seen
I object strongly to your promotion method
and order that you cease them at once
this project should be investigated before
you offer wealth to investors.

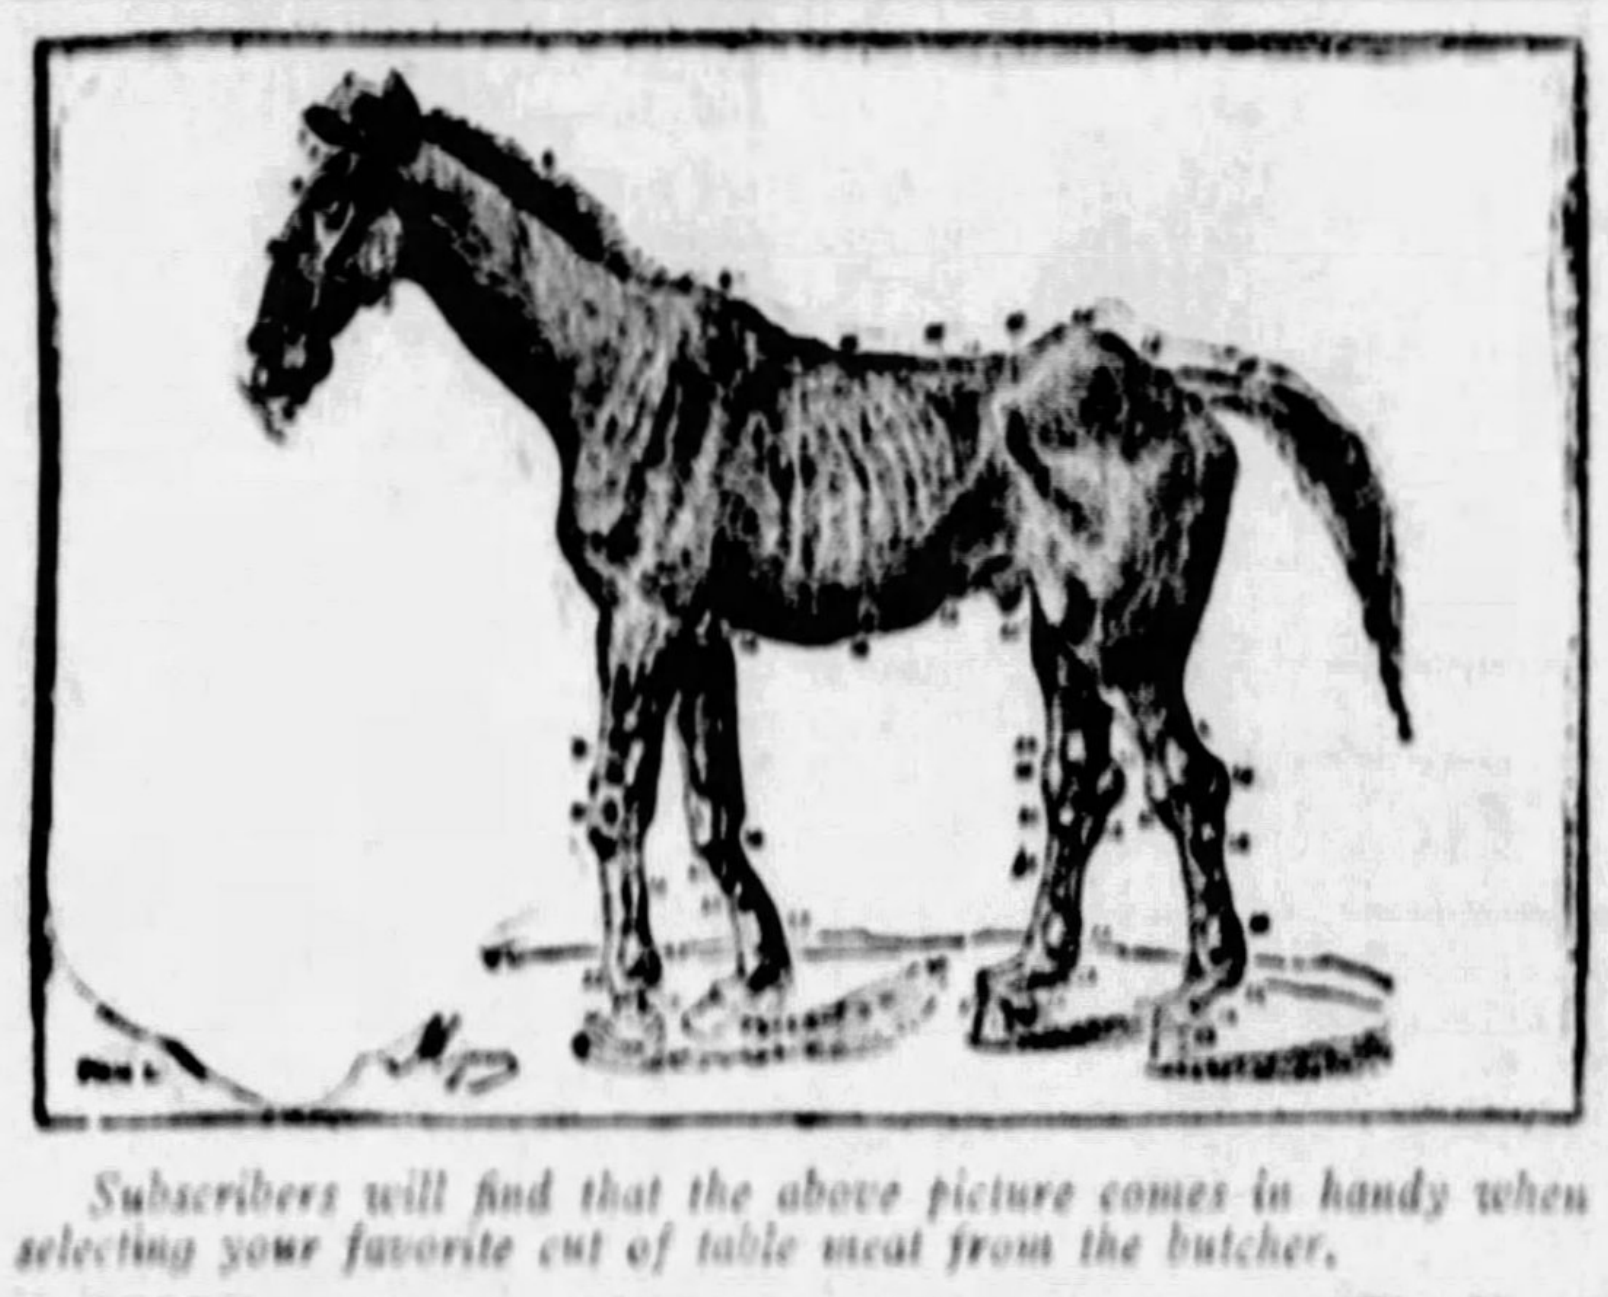
FRISBY'S HANDY CHART FOR JUDGING RACE HORSES



Subscribers will find that the above picture comes in handy when selecting your favorite cut of table meat from the butcher.

BEFORE continuing with this stereopticon lecture on "The Horse—Man's True Friend," Congressman Frisby would like to state that he has worked out a plan to cut down the number of bank robberies.

"It seems to me," says Frisby, "that the bank robberies could be practically eliminated if the police will merely arrest the robbers *before* they rob the banks. This is what I term preventive police work—which, after all, is of much more value than *punitive* police work.

"Furthermore, it is humane, as the robbers—not having actually perpetrated a felony—can immediately be released, without cost to the community for court trials, prison keep, etc."

Why is it that a housewife always figures that a $5 a week raise for her husband is good for a $25 a week raise in household expenditures?

"You Said It, Marceline!"

By MARCELINE d'ALROY

ON "THE MARRIAGEABLE AGE."

The best AGE for
A man to MARRY is around
THIRTY. This side of it is
BETTER than the other side, though,
For when a man gets near THIRTY-FIVE
He gets a bit WARY. But up to
THIRTY and from FIFTY to FIFTY-FIVE
He still has SENTIMENTS
That can be APPEALED to.
With a girl, though, the POSITION
Is DIFFERENT. Being in a
Worldly sense just about
SEVEN years older than a man
Of the SAME AGE, at thirty
A woman is already a little
HARD, and at twenty-eight she is as
CRITICAL as a man of thirty-five.
Therefore, for happiness, a girl's
BEST years to marry are just
BEFORE twenty and just OVER forty.
At twenty she wants a man
To give her the WORLD, and
Probably he will do his BEST.
At forty she wants to SHARE
Her experiences, and if she
FINDS the right man she will
Go sixty-forty. At twenty, one
GETS. At forty, one GIVES. But at
Thirty a woman HAGGLES. To all
Of which there may be EXCEPTIONS.

BUGS BAER Says

WHEN you start juggling moonbeams you might as well admit that Barney Google has a logical chance to be the next President or something.

We interviewed Barney yesterday. He was at home up an alley. The illustrious candidate was attired in a celluloid smoking jacket and wore spiked house slippers.

His remarkable record of carting a canoe across the Sahara Desert proves that, in Google, we have a man who is prepared for any emergency.

ARTHUR "BUGS" BAER

Mr. Google, thanks to the sheltering profile of his cucumber nose, is the only candidate who can smoke a cigar under a shower bath.

There are some people who claim that his eyes look like suspender buttons on an overcoat. But Mr. Google remarks:

"I do not ask to be elected on my past record. I intend to reform."

"Until the ocean gets smaller I am in favor of a bigger navy."

"Why isn't there a monument to the Unknown Sailor? Because some place, sometime, somewhere, there is a girl who knows him."

"My record for economy is as clean as a rain drop. I am the only man who ever brought up a hoss (Spark Plug) on wild oats."

"I must admit that I make bets. But I don't pay them."

"I am the friend of the workingman on Saturday afternoons and holidays."

"I painted my new Ford purple so that it will not show bruises."

"I will reduce the national budget and demand that the League of Nations allow spooning on park benches."

"I am in the public eye, but I ain't no cinder."

We asked Mr. Google if it was true that Coolidge meant him when he looked at Barney and said, "I did not choose that runt."

Google denied it. He said:

"I don't need a cabinet. I can make my own mistakes."

Therefore, it is up to all good American voters to cast the vote which will break the tie between Barney and the sheriff.

He wants to be President and says:

"You cannot fool me by painting the poorhouse white."

Let Us Settle Strike Here While Waiting for Senate

The Senate Interstate Commerce Committee is preparing to set in motion Friday its probe of the soft coal strike. Senator Burton K. Wheeler of Montana, who made a one-man investigation here, is back in Washington with a kind of a plan for the nationalization of the bituminous industry. The national capital is filled with unionists, their indignation aroused by the use of the injunction against the striking miners.

Thus Washington is the center of a three-phase attack on the malady which has laid low the soft coal industry. Our main interest at present is in the Senate inquiry of a situation which Senator Wheeler, before leaving Pittsburgh, said represented "a crying indictment of the authorities here and in Washington."

Let the Washington inquiry proceed. Each side of the controversy is certain it will be vindicated.

Humanity says there can be no justification for conditions existing around Pittsburgh.

We know that—the public, the miners, the operators—we all know it.

Then, why wouldn't it be fine for us to settle the matter right here at home in a neighborly and friendly way? Wouldn't it be wonderful if we, ourselves, put out the fire while we are waiting for the firemen to arrive?

These miners and their suffering families are our neighbors. So are the operators. We cannot picture them as cruel and merciless oppressors of the poor. We know them as MEN.

The big businessmen have taken up the relief angle of the great struggle in a big way. Why can they not extend their valuable service to the friendly office of getting the warring sides together?

Nobody can conceive of the operators not being men amenable to reason. Reason says that while they may be fighting justly, from their own point of view, there is another side that says it suffers unjustly. That is the public point of view.

We can settle this matter satisfactorily if we all go about it in the proper spirit. If the operators think they would be giving in, it would be an act of generosity for which they would congratulate themselves all the rest of their lives.

Let us have peace.

There Is Plenty of Luck

If You Are Willing to Dig and Sweat for It.

The philosophical editor of Capper's Weekly describes as follows a giant meteor, worth millions, that long years ago struck the earth in Arizona:

> It lies nearly 1,000 feet under ground, near Holbrook, Ariz. It is a meteor and is so big that when it fell from the skies it scooped out a valley three-quarters of a mile long and 600 feet deep before it buried itself. A company has bored down to it and found it to be a mass of meteoric iron mixed with nickel and other metals. Its estimated value is $12,500,000. But then millions are rained on us daily by the sun which we don't have to dig quite so far to get.

The earth is bombarded constantly night and day by meteors that fly through space and are drawn to our planet by the power of gravitation.

If it were not for the speed with which we fly around the sun, the speed that enables us to overcome the sun's attractive power, our earth would fly into the sun, as the meteors fly against our earth. And like meteors that strike our atmosphere, our earth rushing toward the sun would be melted long before it struck the surface of the sun and fall in dust or gas.

Nobody knows when this giant Arizona meteor struck the ground. Some wandering Indian may have seen it and thought "The Great Spirit" was taking a shot at him. If so, he probably was a better Indian thereafter. It doesn't make much difference now, however, as the men he perhaps refrained from scalping would be dead anyhow.

Meteors are metallic. This particular meteor, described by the Capper's Weekly editor, is made up of nickel and other metals, worth millions of dollars.

It is not probable, but not INCONCEIVABLE, that some time a meteor containing millions of dollars' worth of pure gold might strike your neighborhood. That is POSSIBLLE, not PROBABLE. Gold, a soft metal, would probably melt in our air before reaching your front yard.

It is just as well not to wait for the gold to come down from the sky. There is plenty of it all around for the man willing to work and able to work intelligently. Capper's Weekly says, "Millions are rained on us daily by the sun which we don't have to dig quite so far to get." It refers to the sun's rays that fertilize the soil and yields rich crops to anybody willing to dig.

The best crop of all is raised inside the human brain. If you can dig in there, stir it up, make it work, you can get a crop that would make even the Arizona meteor seem like a small thing.

Good for Little Nations

Flying Will Stop Bullying.

United States marines in Nicaragua, climbing the peak of El Chipote, wiped out and destroyed the last known stronghold of Sandino. We and the established government of Nicaragua call that gentleman a brigand. Many Nicaraguans call him a combination of George Washington and Abraham Lincoln.

But even George Washington and Abraham Lincoln combined couldn't fight successfully against flying machines.

Bear in mind that this does not mean that a rich and powerful nation should fly over weak countries and drop bombs to its heart's content. No, but it does mean equality for the little nations.

The flying machine eventually will make the little nation far more dangerous to the big nation, much as the invention of gunpowder made the little man,with a gun in hand, command respect from the nobleman clad in armor.

Switzerland, with a little flock of flying machines, could destroy London, Paris and Berlin in a day, and in the same way Nicaragua, with a few flying machines, could destroy New York.

The flying machine will make little nations and big nations equal and discourage bullying.

Modern Viking Stuff

Four Scandinavian airmen, members of the American Viking Association, plan a series of great flights, including one around the world, via Rio de Janeiro, India, South Africa, Turkey, Italy, Copenhagen, and from Denmark back to New York.

That would interest the old Vikings that first came to America in their little boats, and their savage brothers that traveled along the edge of the Atlantic in Europe, dashing up the Seine, the Loire and other rivers, conquering, murdering, robbing, and enjoying themselves.

Garrett P. Serviss Says:

The Citadel of Storms

THAT Greenland is a great citadel of storms, whose icy battlements command the world way of ships, seems now to be a demonstrated fact, especially since the observations made on the storm that descended from the vast ice dome on January 16, and swept the northern Atlantic during the two or three following days, tossing the mightiest ships like corks and greatly delaying the fastest liners caught in the swirl of winds and waters.

The establishment of the Mt. Evans meteorological observatory on the glacial slope of southwestern Greenland at an elevation of 1,200 feet, right in the track of the fierce storms that leap down from the pole of cold on the lofty center of the ice cap, 10,000 feet above the sea, and then shoot over the steamer lanes and the customary path of the ocean-crossing cyclones, has resulted in giving an almost revolutionary turn to the study of weather conditions on the Atlantic.

The idea of Professor William H. Hobbs, of Michigan University, to whom the establishment of the Greenland observatory is due, is that the immense glacier piled high upon Greenland and covering it like a shell, is the focus of an area of extreme high pressure, from the center of which the cold, heavy, Arctic air flows outward down the slopes, attaining before it strikes the seashore an energy of motion which, through friction, actually heats up the rushing air by many degrees before it gushes out over the ocean plain. When such a storm crosses an atmospheric disturbance traveling northeastward, it adds its energy to that of the cyclonic winds thus turning the disturbance into a tempest of extraordinary power.

This is known to have happened six successive times now within the past six months, the observatory having been in existence only since July, 1927.

Professor Hobbs points out that there are only two great "glacial anti-cyclones" known in the world, one being that which centers upon the lofty Antarctic continent, where strong cold winds are always blowing, and the other being Greenland, the elevation of whose ice-cap is nearly as great as that of the Antarctic. The latter is more extensive but there is a peculiar circumstance which makes the Greenland storm-breeding center incomparably more important from the human viewpoint, and that circumstance, as I have said in a former article, is the fact that Greenland is thrust far down into the most frequented ocean, and closely surrounded by the inhabited continents, while the Antarctic ice mass is surrounded by a broad, continuous belt of virtually unnavigated ocean, separating it far from the world of life and affairs.

These discoveries bring Greenland into the spotlight on the world stage. Hitherto it has been, in people's imagination only, a remote, ice-buried inert waste, having almost no links of interest with the everyday world, and seldom thought of except by explorers; now it suddenly springs to the front, alive with gigantic and terribly active natural forces which burst their way straight into the arena of the most important human activities. Greenland's icebergs are easily avoided, though they do catch their victims now and then, but its ocean-whipping storms must be faced and fought; to run away from them would be to abandon the world's greatest highway.

The importance to aerial navigation of a thorough study of all the new conditions of Atlantic weather as yet but partially disclosed by the Greenland observatory, needs only to be mentioned.

The most vital warnings to adventurous fliers may henceforth come from the lonely outpost of science on the windy ice cap, reachable only by wireless signals, instead of from government bureaus comfortably installed in the great capitals of the civilized world, where winds of 120 miles an hour and temperatures 40 to 60 degrees below zero, are merely things to be read about in a cozy armchair.

Don't Fool Doctor

SOMEONE has said: "When you go to a doctor tell him all the things you think ail you, but when you go to a lawyer, tell him the truth."

Perhaps when you have consulted a physician about a chronic state of ill health you have not spoken of what you know is a contributing cause.

You fail to speak of these certain things because you fear that he might tell you their harmful effects and possibly insist that you abandon them.

You want your doctor to help you, but you want to be helped without giving up something you enjoy.

Therefore you do not mention this thing that you feel may have something to do with your illness.

Usually we each do something in our daily lives that aggravates aches and pains or creates a source of suffering.

Foolishly we are willing to stand a certain degree of suffering in order to gratify the desire for what we like to do.

If the doctor can reduce our discomfort to the point where it is bearable without self-denial, we are satisfied.

This may be the reason why your doctor has not been able to cure you.

Tales That Are Told

A Little Learning

JONATHAN LITTLE had bought a car, and as soon as he knew how to start and stop it he took it out for a run. His progress was erratic, and at last he was stopped by a policeman.

"I say," said the guardian of the law, "what d'you think you're doing? D'you know you nearly knocked that woman down?"

"Well, you see," was the reply, "this is the first time I've ever driven a car."

"Your name?"

"Jonathan Little."

"Ha, ha!" laughed the policeman, opening his note-book; "a little learning is a dangerous thing!"

Misled the Mare

OLD JOE ROGERS had been a carrier for years, but motorcars had spoilt his trade, so he retired, keeping his favorite mare.

"She will do for pottering about the town, and keep me from being bored," he said.

One day a man called to hire a horse; he had often been before, but did not know that Joe had gone out of business.

Said Joe: "I've nothing but Old Betty, you know. She's all right to drive, but she won't go out of the shafts, and tries to throw anyone who attempts to ride her."

"I'll try her," said the man. So the mare was brought out and he rode her round the yard, the beast making not the least objection.

Joe was puzzled, but when he saw the mare looking sideways he gave his leg a hearty smack.

"It's his feet! She thinks she's in the shafts," he said.

Ye Towne Gossip

DEAR K. C. B.: Will you please write I lost my cat. We were moving and he got out of the back of my uncle's car. If somebody found him and he got a good home I don't care, but he was such a nice cat that people might think he lived somewhere and not take him in. He is a big Persian cat, with big eyes, and one man thought he was a wildcat, and all I want you to say is if somebody finds him please give him a good home. He's a good cat and I worry about him all the time. His name is Smokie.

"SUCH A beautiful cat.
* * *
"HE MUST belong.
* * *
"TO THE folks next door."
* * *
AND THEN they'd pet it.
* * *
AND SAY to it.
* * *
"YOU'D BETTER run home.
* * *
"OR A doggie will get you."
* * *
OR SOME such thing.
BUT IF it were.
* * *
THAT AN alley cat.
* * *
WITH ITS fur all mussed.
* * *
AND LOOKING hungry.
* * *
SHOULD HAPPEN along.
* * *
WHY, THEN THEY'D say.
* * *
"YOU POOR starved thing.
* * *
"YOU WAIT right here.
* * *
"AND I'LL get you something."
* * *
BUT THE well bred cat.
* * *
IF IT had any sense.
* * *
AS I'M very sure.
* * *
YOUR SMOKIE has.
* * *
AND HE liked the people.
* * *
HE'D CALLED upon.
* * *
WOULD KEEP hanging around.
* * *
TILL THE people would say.
* * *
"HE MUST be lost.
* * *
"LET'S take him in."
* * *
AND ONCE getting in.
* * *
AND HAVING good manners.
* * *
AND EVERYTHING.
* * *
THEY'D PROBABLY keep him.
* * *
AND SO I imagine.
* * *
AS I said before.
* * *
THAT BY this time.
* * *
YOUR SMOKIE has found.
* * *
A GOOD HOME for himself.

Inside Sunshine

THE weather bothers some people. Their spirits go up and down with the rising and falling barometer. Rain dampens their cheerfulness. Cold freezes their good-nature.

However, we all know folks who are always the same. What's going on outside themselves, in the way of weather or anything else, seems to have slight bearing on their demeanor.

Those are the people who make their own interior sunshine. It is compounded of good health, equable temperament, the ability to take life as it comes, without worrying.

Some of those things are gifts, of course. Some may be acquired, and developed. And the first and most important requisite toward having brightness within is wishing to.

New York Day by Day

by O. O. McINTYRE

NEW YORK, Feb. 9.—No club in New York has such regular attendance as the Dutch Treat. It is an organization composed of the leading newspapermen, columnists, authors, painters, cartoonists and illustrators, and holds a luncheon every Tuesday in the Hotel Martinique.

There is no clubhouse, and, as the name implies, it is a "Dutch treat," even for the favored guests. The Dutch treat luncheon represents the skimmed cream of the literary and art world. A member missing two luncheons in a row is supposed to furnish a good excuse, but that is seldom necessary.

At each luncheon there are one or more guests of honor and in this is displayed a catholicity of taste. Among those honored this season, for instance, were Signor Marconi, Paul Whiteman, Jackie Coogan, Sinclair Lewis, Fanny Ward and Strongheart, the movie dog star.

Once a year the Dutch Treat gives a show, which is written, staged, directed and acted by its membership. Marc Connelly blossomed into a playwright after producing several Dutch Treat shows. Robert Benchley's Dutch Treat skit landed him in the Music Box revue.

Deems Taylor displayed the ability that won him operatic recognition at these annual affairs. Tony Sarg and his marionettes were, I believe, first shown there. Reinald Werrenrath sang at Dutch Treat shows before he became so famous as a concert artist.

Several acts were lengthened into Broadway plays and amusing skits transferred to musical revues. Few visiting celebrities escape the Dutch Treaters. A secretary is employed as a scout to run them down and bring them to the weekly luncheon.

There are no formalities. Every member forgets for the luncheon hour his achievements or love flies out the window and he is the target for goshawful kidding. Guests of honor are given respectful hearing, but must not get arty for the strength of the organization is in its simple democracy.

* * *

The demolition of the old Hotel Normandie removes another Broadway landmark. It was built by Ferdinand P. Earle, 50 years ago. It was for many years a haven for theatrical people during the Weberfieldian era. The hotel was purchased by A. E. Lefcourt, who used to sell newspapers at its entrance, and he will erect a loft building on the site.

* * *

One of those fellows whose devotion to his art has produced an upper lip like a South American tapir was pouring his soul into a clarinet in a Broadway orchestra pit the other night. Two gentlemen in the first row were discussing six chorus men who were smirking and dancing with hands on their hips.

"Four of them look like sissies to me," observed one.

"Five are," said the clarinet player, without turning his head or losing a note.

* * *

A well-known German dialect comedian was six years ago offered a leading role and a generous percentage arrangement in a forthcoming production. He read the script and refused the offer. Just to mention it to him today brings a couple of big fat tears. The play was "Abie's Irish Rose." And he hasn't worked since it opened.

* * *

The river show boat, more elegantly known as "the floating opera," was going the way of the blackface minstrel troupe two years ago, but this year so great is the interest that many artists are being engaged by the New York agencies for river work. The revival of interest is attributed solely to the novel, "Show Boat," by Edna Ferber, and the play by the same name appearing on Broadway.

* * *

In our metropolis, the cry of "Show Boat!" left the town deserted in five minutes. The entire population moved to the levee. And it surely was a grand sight to see French's Floating Opera round the bend and come head-on up stream with its calliope shrieking, "In the Good Old Summer Time." Two men in our town—Cheedy Funk and Fred Friend—were show boat bandsmen, marching a little self-conscious in the parade. To my mind they encompassed all the glamour of the world. Here this week—three weeks later in Cairo. Gosh!

How to Learn

By DR. FRANK CRANE

A school teacher in one of Dickens' stories has a pupil study the spelling of botany and then go out and work in the garden.

Thus the spelling is impressed upon his mind.

He wasn't much of a school teacher, but his idea was sound.

The best way to learn is to learn from doing.

All knowledge is connected with life. The way to learn a language is to connect every word with something you actually do or see. In other words, language is to be connected with life and not with literature.

There was a meeting the other day held in one of our cities to discuss the enabling of students to earn while learning. Representatives of 42 states of the Union and one from Canada were present. Nicholas Ricciardi, president of the National Association of Vocational Education, said:

"Under the present system, students are taught various vocations, from watchmaking to hair dressing, during their high school terms. When they graduate from high school they are ready to hold a position. In junior college they are permitted to work at remunerative employment during the mornings and attend classes during the afternoon. They can continue their education on through college, and then their earning power will be sufficient to pay their expenses and enable them actually to save money."

This plan is already actually carried out at Antioch, a small college town in Ohio, where the business men co-operate with the college and the student works part of the time and studies part of the time. Thus at Princeton the average yearly outlay for a son is estimated at $1,500, at Antioch the average freshman needs only $400 besides his earnings.

The vocational aims of students include agriculture, architecture, art, business, engineering, medicine, economics, law, etc.

The average weekly wage while pursuing these courses is $22 in the freshman year and $35 in the senior year. They complete the Antioch course in five years.

Thus the student has already learned the most important thing of all in an education, that is, how to take care of himself.

When a man works his way through college he appreciates what education he gets, just as a horse is healthy because he has to walk after every mouthful he eats.

Business men in every community ought to co-operate with the schools in assisting boys and girls to get a practical education.

The Message

THIS is the message the great have sent:
"Lofty or lowly, be still content;
There is a kingdom which each man owns,
Though he know nothing of crowns or of thrones."

This is the secret the great have gained,
Wisdom through time and through toil attained:
"Never a trial is borne in vain,
Purpose lies back of each loss, each pain."

This is the message, could dull ears hear:
"Nothing to threaten and naught to fear,
Only the peace of a Perfect Plan" . . .
Wise men have found it since time began.

Words of the Wise

Democracy gives every man
A right to be his own oppressor.
—Lowell.

* * *

As a jewel of gold in a swine's snout, so is a fair woman which is without discretion.—Proverbs.

* * *

Knowledge is the hill which few may wish to climb;
Duty is the path that all may lead.
—Lewis Morris.

Isn't It So?

We always like those whom we admire.

* * *

One who relies entirely upon his memory has it all in a nutshell.

* * *

No woman is really fond of a man who won't argue with her.

* * *

A man who lets his wife cut his hair looks like he was henpecked.

* * *

The man who blows his own horn may come out at the little end of it.

* * *

Anyway, the higher taxes are, the longer it will be till the next war.

* * *

The people who brood over their troubles must be anxious to hatch out more.

Health and Hearing

THOSE that are dea[illegible] will be interested to know [illegible] thletes while in training ha[illegible] more acute hearing, more [illegible] than that of those with e[illegible] ecially trained. This means [illegible] deafness or imperfect hearing [illegible] part of general physical det[illegible]ration or rather neglect.

Improve your av[illegible] health and the blood supply and hearing will improve.
